docket number (e.g., Docket Number FRA-2002-13651) and must be submitted to the Docket Clerk, DOT Docket Management Facility, Room PL-401 (Plaza Level), 400 7th Street, SW., Washington, DC 20590. Comments received within 30 days of the date of this notice will be considered by FRA before any final action is taken. Although FRA does not anticipate scheduling a public hearing in connection with these proceedings, if any interested party desires an opportunity for oral comment, they should notify FRA in writing before the end of the comment period and specify the basis for their request. All written communications concerning these proceedings are available for examination during regular business hours (9 a.m.—5 p.m.).

All documents in the public docket are also available for inspection and copying on the Internet at the docket facility's Web site <a href="http://dms.dot.gov">http://dms.dot.gov</a>. Anyone is able to search the electronic form of all comments received into any of our dockets by the name of the individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review DOT's complete Privacy Act Statement in the Federal Register published on April 11, 2000 (Volume 65, Number 70; Pages 19477–78) at <a href="https://dms.dot.gov">https://dms.dot.gov</a>.

Issued in Washington, DC on June 24, 2003.

### Grady C. Cothen, Jr.,

Deputy Associate Administrator for Safety Standards and Program Development.

BILLING CODE 4910–06–P

## **DEPARTMENT OF TRANSPORTATION**

# **Federal Railroad Administration**

# **Petition for Waiver of Compliance**

In accordance with part 211 of Title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) received a request for a waiver of compliance with certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

### Farmrail System, Incorporated (Waiver Petition Docket Number FRA-2001-9998)

The Farmrail System owns three passenger coaches which were built in

1954–56. These coaches are not used in regular service but only on a limited seasonal basis primarily in conjunction with the Oklahoma Tourism and Recreation Department's resort and conference center located at Quartz Mountain State Park.

The cars operate on trackage owned by the Oklahoma Department of Transportation for which Farmrail acts as lessee-operator. The excursion trains operate from a station near the entrance to Quartz Mountain State Park and run northward around Lake Lugert through a sparsely populated area to Lone Wolf, Oklahoma and back. Farmrail requests relief from the requirements of Title 49 Code of Federal Regulations (CFR) 223.15 Requirements for existing passenger cars due to the infrequent use of the cars, the planned usage for excursion service, and the cost of installing compliant glazing.

The cars are former VIA Rail Canada equipment and have a double-pane combination of ½-inch thick safety glass inside and plate glass outside. This glazing system remains the standard in Canada for passenger equipment, and the petitioner believes that the operation of these cars, as equipped, would not pose a safety hazard to passengers or employees.

FRA granted Farmrail relief from the requirements of CFR 223.15 to operate their three passenger cars, numbers FMRC 5627, 5478, and 5560, without FRA compliant glazing on a limited basis for a period of five years on May 24, 2002. Subsequent to FRA granting the subject waiver, Farmrail restated the intended area of operation for these excursion/charter trains to include the entire 354 mile System. This is a major modification to the original waiver request. The additional proposed area of operation was not included in the original safety evaluation. Therefore, Farmrail requested reopening of this docket and petitions for the expanded area of operation.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA in writing before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number (e.g., Waiver Petition Docket Number FRA–2001–9998) and must be submitted to the Docket Clerk, DOT Docket Management

Facility, Room PL–401 (Plaza Level), 400 7th Street, SW., Washington, DC 20590. Communications received within 45 days of the date of this notice will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable. All written communications concerning these proceedings are available for examination during regular business hours (9 a.m.–5 p.m.) at FRA's temporary docket room located at 1120 Vermont Avenue, NW., Room 7051, Washington, DC 20005.

FRA wishes to inform all potential commenters that anyone is able to search the electronic form of all comments received into any of our dockets by the name of the individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review DOT's complete Privacy Act Statement in the **Federal Register** published on April 11, 2000 (Volume 65, Number 70; Pages 19477—78) or you may visit <a href="http://dms.dot.gov">http://dms.dot.gov</a>.

# **Federal Transit Administration**

Environmental Impact Statement on Transportation Improvements Within the North Corridor in Metropolitan Columbus, Ohio

**AGENCY:** Federal Transit Administration (FTA), DOT.

**ACTION:** Notice of Intent to prepare an Environmental Impact Statement.

SUMMARY: The Federal Transit
Administration (FTA) and the Central
Ohio Transit Authority (COTA) are
issuing this notice to advise interested
agencies and the public that, in
accordance with the National
Environmental Policy Act (NEPA) of
1969, as amended, an Environmental
Impact Statement (EIS) is being
prepared for the proposed
transportation improvements in the
North Corridor and adjacent areas in the
City of Columbus and Franklin, and
Delaware Counties, within the
metropolitan area of Columbus, Ohio.

The EIS will evaluate the following alternatives: a no-build alternative; a transportation system management (TSM) alternative; build alternatives consisting of light rail transit in one of several alignment options combined

with increased bus service in the North Corridor, and any additional reasonable alternatives that emerge from the scoping process. Scoping will be accomplished through meetings and correspondence with interested persons, organizations, the general public, and federal, state and local agencies.

The EIS will address the need to improve mobility and reverse-commute access in the corridor, reduce adverse environmental impacts in the region, provide long-term, cost-effective transportation infrastructure and services, and enhance regional economic development.

DATES: Comment Due Date: Written comments on the alternatives and impacts to be considered should be sent to Mr. Michael L. Bradley, Director of Rail Development, Central Ohio Transit Authority, 1650 Lake Shore Drive, Suite 300, Columbus, Ohio 43204 by August 15, 2003.

Scoping Meetings: Three public scoping meetings and one interagency scoping meeting will be held. The public scoping meetings will be held on July 22 and 23, 2003. The interagency scoping meeting will be held on July 24, 2003. See ADDRESSES below for the specific time and place of each meeting. ADDRESSES: Written comments on the scope of the analysis and the impacts to be considered should be sent by August 15, 2003 to: Mr. Michael L. Bradley, Director of Rail Development, Central Ohio Transit Authority, 1650 Lake Shore Drive, Suite 300, Columbus, OH 43204.

Public Scoping meetings will be held at the following locations:

Tuesday, July 22, 2003 at Rhodes Office Tower, Lobby Hearing Room, 30 East Broad Street, Columbus, Ohio from 8 to 10 a.m. COTA will give a presentation on the proposed action at 8:30 a.m.

Tuesday, July 22, 2003 at St. Stephen's Community House, 1500 17th Avenue, Columbus, Ohio from 6 to 8 p.m. COTA will give a presentation on the proposed action at 6:30 p.m. Wednesday, July 23, 2003 at North Broadway United Methodist Church, 48 East North Broadway, Columbus, Ohio from 6 to 8 pm. COTA will give a presentation on the proposed action at 6:30 pm.

The appropriate federal, state, and local agency offices will be notified individually about the time and location of the interagency scoping meeting.

The locations of the scoping meetings are accessible to persons with disabilities. Any individual with a disability who requires special assistance to participate in the scoping

meetings should contact Mr. Michael L. Bradley, Director of Rail Development, Central Ohio Transit Authority, 1650 Lake Shore Drive, Suite 300, Columbus, Ohio 43204 or should call the project information line at (866) "RAILCOTA or COTA TDD at (614) 228–1832 available weekdays 8:30 a.m.—5:30 p.m.), or should send an e-mail to info@cotafasttrax.com by July 14, 2003 in order for COTA to make necessary arrangements.

FOR FURTHER INFORMATION CONTACT: Ms. Vanessa Adams, Senior Community Planner, Federal Transit Administration, 200 West Adams Street, Suite 320, Chicago, Illinois 60606–5232; phone: (312) 353–2789.

SUPPLEMENTARY INFORMATION: The Federal Transit Administration (FTA), the federal lead agency, in cooperation with the Central Ohio Transit Authority (COTA), the local lead agency, is preparing an Environmental Impact Statement (EIS) for proposed transportation improvements in the North Corridor and adjacent areas. The lead agencies will also seek the cooperation of the Federal Railroad Administration (FRA) and the Mid-Ohio Regional Planning Commission (MORPC), the metropolitan planning organization (MPO) responsible for transportation planning in metropolitan Columbus.

The transportation improvements have been defined through a Major Investment Study (MIS) conducted in 1995 and updated in 2001, which included extensive public outreach and interagency involvement. The MIS is available for public review at the COTA office by contacting Mr. Michael Bradley as described under ADDRESSES above. In accordance with the regulations implementing the National Environmental Policy Act (NEPA) of 1969, as amended, the scoping process will be used to determine the alternatives to be considered in detail in the EIS and the impacts of those alternatives to be evaluated. The results of the MIS will not be re-visited unless significant costs or impacts not fully evaluated in the MIS are identified during scoping. FTA and COTA also expect the scoping process to identify alternative design concepts for evaluation. Alternative alignments and designs that meet the project purpose and need as reflected in the regional transportation plan will be addressed in the EIS.

# I. Scoping

FTA and COTA invite interested individuals, organizations, and federal, state, and local agencies to participate in defining the alternatives to be evaluated and identifying any significant social, economic and environmental issues related to the alternatives. Comments on the appropriateness of the alternatives and impact-related issues are encouraged. Specific suggestions on additional alternatives to be examined and issues to be addressed are welcomed and will be considered in establishing the final study scope. Comments may be made orally at the meetings or in writing no later than August 15, 2003.

COTA staff will be present at the scoping meetings to describe corridor alternatives, answer questions, and receive comments. Additional opportunities for public participation will be provided throughout the EIS preparation to review findings and results and to solicit comments. Interested persons will be notified of project progress through a continuing community information program and materials distributed to the project mailing list that will include all scoping participants.

# II. Description of Study Area and Project Need

The study area for the North Corridor Light Rail Transit project (NCLRT) is located within the metropolitan area of Columbus, Ohio in the City of Columbus and Franklin and Delaware Counties. The transit alternative extends approximately 13 miles between the Franklin/Delaware County line in the Polaris area and downtown Columbus and centered on a path generally parallel to Interstate-71. The northern terminus of the transit study area is the intersection of Flint Road and Lazelle Road at the Franklin and Delaware county line and the southern terminus is the intersection of High Street and Fulton Street in downtown Columbus. The study area is generally bounded on the west by the Olentangy River and State Route 315 and on the east by State Route 3 (Cleveland Avenue/Westerville Road). Because one of the transit alternatives includes the shared use of the CSX Transportation (CSXT) and Norfolk Southern (NS) railroad right-ofway, the study will also evaluate impacts on the regional freight railroad network in Central Ohio.

Most of the corridor is within the urban setting of the City of Columbus, but it also includes the suburban communities of Minerva Park, Riverlea and portions of the cities of Worthington and Westerville. Several major activity centers are located within the corridor and at the northern and southern termini, including cultural sites, entertainment districts, hospitals,

sport stadiums, universities, fairgrounds, a convention center and a regional mall. The remainder of the corridor is primarily residential. Polaris, Crosswoods, Worthington, Easton, and the Short North are mixed use areas with an emphasis on retail and restaurants. The Ohio State House, the Arena District, Theater District, City Center, Science Center and redeveloping Brewery District are major traffic generators in the downtown area. The corridor has two large hospitals, Grant Hospital and the Ohio State University Hospital, serving more than 50,000 patients each year. Three colleges and universities (Ohio State University, Columbus State Community College, and Franklin University) are within the corridor. Four major sports stadiums are also in the corridor, including Ohio Stadium (where Ohio State University plays football), Schottenstein Center for basketball, Columbus Crew Soccer Stadium and Nationwide Arena. Other attractions include the Ohio State Fairgrounds, the Columbus Convention Center, and the Veterans Memorial Hall.

Approximately 233,000 people live in the study area and the population is expected to increase to more than 248,000 by year 2025. The North Corridor has approximately 235,000 jobs, which is one-third of the region's total employment. The number of jobs is expected to increase in the study area to 278,000 by 2025. Due to the population and employment within the North Corridor, COTA's busiest bus route is within the study area, serving approximately 13,000 riders per day in the Ohio State University area. The North Corridor is considered the most congested area in the Columbus metropolitan area.

 ${\rm CO\bar{T}A}$  and MORPC have been working together to address the transportation problems and needs in the Columbus metropolitan area. In 1993, COTA and MORPC completed an update of the long range plan for public transportation in the region, which recommended a series of transit system improvements, including the development of eight fixed guideway transit lines using existing freight rail corridors. As a result of the Long Range System Plan Analysis, the 13-mile North Corridor, extending between the Polaris area and Downtown Columbus generally along Interstate-71, was identified as the priority corridor for fixed guideway transit improvements.

COTA and MORPC conducted a Major Investment Study (MIS) for the North Corridor between 1993 and 1995, with the recommendation to expand bus service as the locally preferred alternative. Following the completion of Vision 2020, a long-range transit plan for central Ohio, in 2001 COTA and MORPC updated the 1995 North Corridor MIS. The MIS update concluded with the selection of a locally preferred alternative comprised of light rail transit and substantial improvements to bus service in the corridor between the Polaris area and Downtown Columbus.

### III. Alternatives

The scoping meetings, other community meetings and written comments will be a major source of alternatives for consideration in the EIS. Transportation alternatives proposed for consideration in the North Corridor include:

- 1.A No-Action Alternative, which is the continuation of existing bus service policies in the study area. Under the No-Action Alternative, increases in service to the year 2025 would track with increases in demand due to population or employment growth in the area, in accordance with current service policies.
- 2. A Transportation System Management (TSM) Alternative, which focuses on operational and low to medium cost capital improvements to bus transit routes and service in the project area, and attempts to serve the project purpose and need as much as possible without the construction of a new fixed guideway.
- 3. Build Alternatives comprised of Light Rail Transit (LRT) combined with enhanced bus service. The LRT route extends about 13 miles from the Polaris area to the Columbus Central Business District. From Polaris to about 17th Street, the light rail line is proposed to be located in railroad right-of-way (ROW) parallel to the CSXT Columbus line and NS Sandusky-Columbus rail lines. Street running operations are proposed for the light rail line from the vicinity of 17th Street to Fulton Street in the Downtown. The proposed street running alignments south of 17th Street would be along Summit and/or Fourth Streets with a transition to High Street at Interstate 670. An alternative alignment with street running operations along High Street between approximately 17th Street and Interstate 670 that would more directly serve the Ohio State University campus may also be considered.

Two options are under consideration for the portion of the project that is located in the rail ROW between Polaris and about 17th Street: Under one of the options for the railroad right-of-way, COTA may construct a new freight railroad intermodal facility in Delaware

or Union County in the central Ohio

Fourteen potential transit stations would be located to serve potential trip generators and in areas where economic development activities are planned or underway. The locations of stations and resulting impacts will be an important area of consideration during the study.

Based on public and agency input received during scoping, variations of the above alternatives and other transportation-related improvement options, both transit and non-transit, may be considered for the North Corridor.

# IV. Probable Effects/Potential Impacts for Analysis

The FTA and COTA will evaluate all social, economic and environmental impacts of the alternatives analyzed in the EIS. Impacts may include: Land use, zoning, and economic development; secondary development; cumulative land use impacts; land acquisition, displacements, and relocation of existing uses; historic and archaeological resources; parklands and recreation areas; neighborhoods and communities; environmental justice; air quality; noise and vibration; hazardous materials; ecosystems; water resources; construction impacts; safety and security; utilities; finance; and transportation. Other potential impact issues may be added as a result of scoping and interagency coordination efforts. The proposed impact assessment and evaluation will take into account both positive and negative effects, direct and indirect impacts, short-term (construction) and long-term operational impacts, and cumulative effects. Measures to avoid or mitigate any significant adverse impacts will be developed.

### V. FTA Procedures

In accordance with FTA policy, all federal laws, regulations and executive orders affecting project development, including but not limited to the regulations of the Council on **Environmental Quality and FTA** implementing NEPA (40 CFR parts 1500-1508 and 23 CFR part 771), the Clean Air Act, Section 404 of the Clean Water Act. Executive Orders 11988. 11990 and 12898 regarding floodplains, wetlands, and environmental justice, respectively, the National Historic Preservation Act, the Endangered Species Act, and section 4(f) of the Department of Transportation Act, will be addressed to the maximum extent practicable during the NEPA process.

The Draft Environmental Impact Statement (DEIS) will be circulated to solicit public and agency comments on the proposed action. Public hearings will be held on the DEIS. Based on the comments received on the DEIS, COTA will take appropriate project actions and prepare the Final EIS, which will identify the preferred alternative. Opportunity for additional public comment will be provided throughout all phases of project development.

Issued on: June 23, 2003.

### Joel P. Ettinger,

 $Regional\ Administrator.$ 

[FR Doc. 03-16555 Filed 6-30-03; 8:45 am]

BILLING CODE 4910-57-P

### DEPARTMENT OF THE TREASURY

### **Fiscal Service**

Renegotiation Board Interest Rate; Prompt Payment Interest Rate; Contract Disputes Act

**AGENCY:** Bureau of the Public Debt, Fiscal Service, Treasury.

**ACTION:** Notice.

**SUMMARY:** For the period beginning July 1, 2003 and ending on December 31,

2003 the prompt payment interest rate is 3.125 per centum per annum.

ADDRESSES: Comments or inquires may be mailed to Eleanor Farrar, Team Leader, Debt Accounting Branch, Office of Public Debt Accounting, Bureau of the Public Debt, Parkersburg, West Virginia, 26106–1328. A copy of this Notice will be available to download from http://www.publicdebt.treas.gov.

**DATES:** This notice announces the applicable interest rate for the July 1, 2003 to December 31, 2003 period.

### FOR FURTHER INFORMATION CONTACT:

Frank Dunn, Manager, Debt Accounting Branch, Office of Public Debt Accounting, Bureau of the Public Debt, Parkersburg, West Virginia, 26106–1328, (304) 480–5170; Eleanor Farrar, Team Leader, Borrowings Accounting Team, Office of Public Debt Accounting, Bureau of the Public Debt, (304) 480–5166; Edward C. Gronseth, Deputy Chief Counsel, Office of the Chief Counsel, Bureau of the Public Debt, (304) 480–8692; or Geraldine J. Porco-Hubenko, Attorney-Adviser, Office of the Chief Counsel, Bureau of the Public Debt, (202) 691–3708.

SUPPLEMENTARY INFORMATION: Although the Renegotiation Board is no longer in existence, other Federal Agencies are required to use interest rates computed under the criteria established by the Renegotiation Act of 1971 Sec. 2, Pub. L. 92–41, 85 Stat. 97. For example, the Contract Disputes Act of 1978 Sec. 12, Pub. L. 95–563, 92 Stat. 2389 and, indirectly, the Prompt Payment Act of 1982, 31 U.S.C. 3902(a), provide for the calculation of interest due on claims at a rate established by the Secretary of the Treasury for the Renegotiation Board under Pub. L. 92–41.

Therefore, notice is given that the Secretary of the Treasury has determined that the rate of interest applicable, for the period beginning July 1, 2003 and ending on December 31, 2003, is 3.125 per centum per annum. This rate is determined pursuant to the above-mentioned sections for the purpose of said sections.

Dated: June 26, 2003.

### Donald V. Hammond,

Fiscal Assistant Secretary.
