

Part 158 of the Federal Aviation Regulations (14 CFR part 158).

On June 9, 2003 the FAA determined that the application to use the revenue from a PFC submitted by Country of Milwaukee was substantially complete within the requirements of § 158.25 of Part 158. The FAA will approve or disapprove the application, in whole or in part, no later than September 6, 2003.

The following is a brief overview of the application.

Level of the proposed PFC: \$3.00.

Actual charge effective date:

December 1, 2011.

Proposed charge expiration date: May 1, 2015.

Total estimated PFC revenue:

\$1,474,500.

Brief description of proposed projects: Outer Taxiway.

Extension, International Arrival Building Ramp Expansion.

Class or classes of air carriers, which the public agency has requested, not be required to collect PFCs: FAR Part 135 Air Taxi/commercial operators.

Any person may inspect the application in person at the FAA office listed above under **FOR FURTHER INFORMATION CONTACT**.

In addition, any person may, upon request, inspect the application, notice and other documents germane to the application in person at the County of Milwaukee.

Issued in Des Plaines, Illinois on June 23, 2003.

Robert A. Huber,

Acting Manager, Planning and Programming Branch, Airports Division, Great Lakes Region.

BILLING CODE 4910-13-M

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

Proposed Agency Information Collection Activities; Comment Request

AGENCY: Federal Railroad Administration, DOT.

ACTION: Notice and Request For Comments.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Requirements (ICRs) abstracted below have been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICRs describe the nature of the information collection and its expected

burden. The **Federal Register** notice with a 60-day comment period soliciting comments on the following collections of information was published on April 25, 2003 (68 FR 20426).

DATES: Comments must be submitted on or before July 31, 2003.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Brogan, Office of Planning and Evaluation Division, RRS-21, Federal Railroad Administration, 1120 Vermont Ave., NW., Mail Stop 17, Washington, DC 20590 (telephone: (202) 493-6292) or Debra Steward, Office of Information Technology and Productivity Improvement, RAD-20, Federal Railroad Administration, 1120 Vermont Ave., NW., Mail Stop 35, Washington, DC 20590 (telephone: (202) 493-6139). (These telephone numbers are not toll-free.)

SUPPLEMENTARY INFORMATION: The Paperwork Reduction Act of 1995 (PRA), Pub. L. No. 104-13, § 2, 109 Stat. 163 (1995) (codified as revised at 44 U.S.C. 3501-3520), and its implementing regulations, 5 CFR part 1320, require Federal agencies to issue two notices seeking public comment on information collection activities before OMB may approve paperwork packages. 44 U.S.C. 3506, 3507; 5 CFR 1320.5, 1320.8(d)(1), 1320.12. On April 25, 2003, FRA published a 60-day notice in the **Federal Register** soliciting comment on ICRs that the agency was seeking OMB approval. 68 FR 20426. FRA received no comments after issuing this notice. Accordingly, DOT announces that these information collection activities have been re-evaluated and certified under 5 CFR 1320.5(a) and forwarded to OMB for review and approval pursuant to 5 CFR 1320.12(c).

Before OMB decides whether to approve these proposed collections of information, it must provide 30 days for public comment. 44 U.S.C. 3507(b); 5 CFR 1320.12(d). Federal law requires OMB to approve or disapprove paperwork packages between 30 and 60 days after the 30 day notice is published. 44 U.S.C. 3507 (b)-(c); 5 CFR 1320.12(d); *see also* 60 FR 44978, 44983, Aug. 29, 1995. OMB believes that the 30 day notice informs the regulated community to file relevant comments and affords the agency adequate time to digest public comments before it renders a decision. 60 FR 44983, Aug. 29, 1995. Therefore, respondents should submit their respective comments to OMB within 30 days of publication to best ensure having their full effect. 5 CFR 1320.12(c); *see also* 60 FR 44983, Aug. 29, 1995.

The summaries below describe the nature of the information collection

requirements (ICRs) and the expected burden. The revised requirements are being submitted for clearance by OMB as required by the PRA.

Title: Railroad Operating Rules.

OMB Control Number: 2130-0035.

Type of Request: Extension of a currently approved collection.

Affected Public: Railroads.

Form(s): N/A.

Abstract: The collection of information is due to the railroad operating rules set forth in 49 CFR part 217 which require Class I and Class II railroads to file with FRA copies of their operating rules, timetables, and timetable special instructions, and subsequent amendments thereto. Class III railroads are required to retain copies of these documents at their systems headquarters. Also, 49 CFR 220.21(b) prescribes the collection of information which requires railroads to retain one copy of their current operating rules with respect to radio communications and one copy of each subsequent amendment thereto. These documents must be made available to FRA upon request.

Annual Estimated Burden Hours: 766,428 hours.

Title: Rear-End Marking Devices.

OMB Control Number: 2130-0523.

Type of Request: Extension of a currently approved collection.

Affected Public: Railroads.

Form(s): N/A.

Abstract: The collection of information is set forth under 49 CFR part 221 which requires railroads to furnish a detailed description of the type of marking device to be used for the trailing end of rear cars in order to ensure rear cars meet minimum standards for visibility and display. Railroads are required to furnish a certification that the device has been tested in accordance with current "Guidelines for Testing Rear End Marking Devices." Additionally, railroads are required to furnish detailed test records which include the testing organizations, description of tests, number of samples tested, and the test results in order to demonstrate compliance with the performance standard.

Annual Estimated Burden Hours: 4 hours.

Title: Bridge Worker Safety Rules.

OMB Control Number: 2130-0535.

Type of Request: Extension of a currently approved collection.

Affected Public: Railroads.

Form(s): N/A.

Abstract: Section 21039 of Title 49 of the United States Code required FRA to issue rules, regulations, orders, and standards for the safety of maintenance-

of-way employees on railroad bridges, including for "bridge safety equipment" such as nets, walkways, handrails, and safety lines, and requirements for the use of vessels when work is performed on bridges located over bodies of water. FRA has added 49 CFR part 214 to establish minimum workplace safety standards for railroad employees as they apply to railroad bridges. Specifically, section 214.15(c) establishes standards and practices for safety net systems. Safety nets and net installations are to be drop-tested at the job site after initial installation and before being used as a fall protection system, after major repairs, and at six-month intervals if left at one site. If a drop-test is not feasible and is not performed, then a written certification must be made by the railroad or railroad contractor, or a designated certified person, that the net does comply with the safety standards of this section. FRA and State inspectors use the information to enforce Federal regulations. The information that is maintained is at the job site promotes safe bridge worker practices.

Annual Estimated Burden Hours: 1 hour.

Addressee: Send comments regarding any of these information collections to the Office of Information and Regulatory

Affairs, Office of Management and Budget, 725 Seventeenth Street, NW., Washington, DC 20503, Attention: FRA Desk Officer.

Comments are invited on the following: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

A comment to OMB is best assured of having its full effect if OMB receives it within 30 days of publication of this notice in the **Federal Register**.

Authority: 44 U.S.C. 3501-3520.

Issued in Washington, DC on June 25, 2003.

Kathy A. Weiner,

Director, Office of Information Technology and Support Systems, Federal Railroad Administration.

BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

Petition for Designation of Repair Locations

In accordance with Part 232 of Title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) received a request for designating repair locations as prescribed in § 232.15 (g).

The Canadian Pacific Railway Company

[Docket Number FRA-2002-13651]

Pursuant to 49 CFR 232.17, the Canadian Pacific Railway Company (CP), on behalf of their Soo Line Railroad Subsidiary, seeks FRA's approval to designate locations on their Soo Line property where brake system repairs will be performed, as prescribed in § 232.15(g) of the Federal Regulations, *Brake System Safety Standards for Freight and Other Non-Passenger Trains and Equipment*. CP has identified the following sites as the designated repair locations:

Location	Milepost/ Subdivision	Distance	Facility
St. Paul Service Area			
Harvey, ND	MP 396.5, Portal Sub	152.5 mi from Portal	Repair track.
Enderlin, ND	MP 257.3, Carrington Sub	139.2 mi. from Harvey	Road truck.
Thief River Falls, MN	MP 307.4, Detroit Lakes Sub	79.1 mi. from Noyes	Road truck.
Glenwood, MN	MP 120.3, Elbow Lake Sub	137.1 mi. from Enderlin	Road truck.
St. Paul Yard, MN	MP 0, Merriam Park Sub	127.5 mi. from Glenwood	Repair track.
Chicago Service Area			
Lacrosse, WI	MP 281.2, Tomah Sub	130.6 mi. from St. Paul	Road truck.
Portage, WI	MP 178.2, Tomah Sub	103 mi. from Lacrosse	Road truck.
Milwaukee, WI	MP 85.4, Watertown Sub	92.8 mi. from Portage	Repair track.
Bensenville, IL	MP 15.5, Elgin Sub	104.8 mi. from Milwaukee	Repair track.
Latta, IN	MP 204.2, Latta Sub	131.7 mi. from Louisville	Road truck.

CP states that all repair track locations will have full-time qualified car men on duty and these locations will be equipped with yard air plants, jacking pads and single car test devices. They may not be enclosed repair shops. All road truck locations are serviced regularly by qualified car men with fully equipped repair trucks that include compressors, jacks, and single car test devices. These locations may or may not have jacking pads. All of the above locations have tracks that are readily and safely accessible for the car men to make repairs. All locations are commonly serviced by through trains,

reducing the need for additional switching and the related hazards. All locations can make repairs to most part 215, 231 and 232 defects to include performing single car air tests. All road truck locations are in reasonable proximity to their home base, which will accommodate the availability of material, effective and timely repair, and accessibility in adverse weather conditions. Furthermore, designating the above locations as the repair locations will not diminish CP's ability to effect emergency repairs at other locations, where cars cannot be safely moved to a designated location,

including, but not limited to, cars set off as a result of wayside inspections and trackside warning detectors.

Pursuant to 49 CFR 232.17, CP affirms that a copy of their petition to designate the above locations as their repair locations has been provided to the following labor organizations that represent the employees working for the CP: Brotherhood of Railway Carmen, Brotherhood of Locomotive Engineers and the United Transportation Union.

Interested parties are invited to submit written comments to FRA. All written communications concerning this petition should identify the appropriate
