BILLING CODE 4312-51-P

DEPARTMENT OF THE INTERIOR

National Park Service

Notice of Inventory Completion: Phoebe A. Hearst Museum of Anthropology, University of California, Berkeley, Berkeley, CA

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains and associated funerary objects in the possession of the Phoebe A. Hearst Museum of Anthropology, University of California, Berkeley, Berkeley, CA. The human remains and associated funerary objects were removed from six sites in Kern County, CA.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003 (d)(3). The determinations within this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations within this notice.

An assessment of the human remains, and catalog records and associated documents relevant to the human remains, was made by Phoebe A. Hearst Museum of Anthropology professional staff in consultation with representatives of the Picayune Rancheria of Chukchansi Indians of California; Santa Rosa Indian Community of the Santa Rosa Rancheria, California; Table Mountain Rancheria of California; Tule River Indian Tribe of the Tule River Reservation, California; and Tuolumne Band of Me-Wuk Rancheria of California.

In 1922, human remains representing at least 26 individuals were removed from burials at site CA-Ker-37, a mound site located on the shoreline of former Goose Lake, Kern County, CA, by A. Steinberger of McFarland, CA. The human remains were donated to the Phoebe A. Hearst Museum of Anthropology in the same year. No

known individuals were identified. No associated funerary objects are present.

In 1924, human remains representing at least 16 individuals were removed from burials at site CA-Ker-37, Kern County, CA, by E.W. Gifford, and donated to the Phoebe A. Hearst Museum of Anthropology in the same year. No known individuals were identified. The 117 associated funerary objects are 6 textile bag fragments and 111 olivella and clam shell beads.

Characteristics of the associated funerary objects and nonfunerary objects removed from site CA-Ker-37 indicate that the burials date to the Protohistoric period, the 200-year period prior to European contact in the mid-1700s, and to the Historic period.

In 1932, human remains representing at least five individuals, were removed from burials at site CA-Ker-39, a mound site located on the shoreline of former Buena Vista Lake, Kern County, CA, by Mr. and Mrs. W.D. Strong and W.R. Wedel, and were donated to the Phoebe A. Hearst Museum of Anthropology by W.R. Wedel in the same year. Two of the individuals are represented by hair. No known individuals were identified. The six associated funerary objects are one textile fragment and five shell beads.

Characteristics of the associated funerary objects and nonfunerary objects removed from site CA-Ker-39 indicate that the burials date to the Protohistoric period, the 200-year period prior to European contact in the mid-1700s.

In 1933, human remains representing one individual were removed from a burial at site CA-Ker-40, a mound site located on the shoreline of former Buena Vista Lake, Kern County, CA, by W.D. Strong, and were donated to the Phoebe A. Hearst Museum of Anthropology in the same year. No known individual was identified. The human remains consist of hair adhering to the single associated funerary object, a fragment of brown cloth.

In 1948, human remains representing one individual were removed from a burial at site CA-Ker-40, Kern County, CA, by H.S. Riddell and F.A. Riddell, and were donated to the Phoebe A. Hearst Museum of Anthropology in the same year. No known individuals were identified. The two associated funerary objects are stones.

Characteristics of the nonfunerary objects removed from site CA-Ker-40 indicate that the burials date to the Protohistoric period, the 200-year period prior to European contact in the mid-1700s.

In 1924, human remains representing at least four individuals were removed
