- j. Diluted Sample - Urine samples which the laboratory reports as unacceptable with regards to measured levels of creatinine, specific gravity or pH will be considered diluted samples. The employee shall be required to provide another urine sample for testing.
- k. Not Suitable for Testing - A urinesample that the Medical review Officer determines as not meeting the requirements for a valid test. After consultation with the employee, a retest may be required.
- l. Accredited Laboratory - A laboratory approved by the Department of Health and Human Services for testing of Prohibitive Items & Substances.
- m. Rehabilitation Program - An Employer approved confidential counseling service, designed to help employees' resolve problems that involve alcohol or drug abuse, staffed by certified and credentialed human services professionals.

### III. CONFIDENTIALITY

- a. All parties to this program should encourage any employee with a substance abuse problem to accept assistance in dealing with the problem. All parties will take the necessary actions to assure the problem is handled in a confidential manner.

- b. When a test is required, the specimen will be identified by a code number to insure confidentiality of the employee. The employee must witness this procedure.
- c. Results will be reported to the Employer and the Union by the accredited laboratory.

#### IV. RULES - DISCIPLINARY ACTIONS - GRIEVANCE PROCEDURES.

1. Rules - All employees must report to work in a physical condition that will enable them to perform their jobs in a safe and efficient manner. Employees shall not:

New drugs may be added as they are determined to be illegal or considered a controlled substance by mutual agreement.

2. **Discipline** - When the Employer has probable cause to believe an employee is under the influence of a prohibited substance, for reason of safety, the employee may be suspended until test results are available. If no test results are received after five (5) working days, the employee, if available, shall be returned to work with back pay subject to the test results.

If the test results prove negative, the employee shall be reinstated with back pay. In all other cases:

- a. Applicants testing positive for drug use will not be hired.
- b. Employees who refuse to cooperate with testing procedures will be terminated.
- c. Employees found to be in the possession of prohibited items or substances will be terminated.

The result of the split sample test must be released to the Employer within a maximum of three (3) working days after notice of a positive test. If the test is negative, the employee may be reinstated on the same job site providing work for which he is qualified is still available with back pay.
  - g. A reinstated employee who has previously tested positive, is subject to unscheduled sporadic testing for one year from the date of reinstatement. If the employee tests positive pursuant to such test or any other test under this policy, he cannot work until they have completed a rehabilitation program and have received a negative test by an accredited laboratory.
3. Prescription Drugs - Employees using a prescribed medication which may impair the performance of job duties, either mental or motor functions, must immediately inform their

supervisor of such prescription drug use. For the safety of all employees, the Employer will consult with the employee to determine if a reassignment of duties is necessary. If a reassignment is not possible, the employee will be relieved of duties until released as fit for duty by the prescribing physician, at which time the employee shall be reinstated to his former employment status if work for which he is qualified is available at that time.

If the employee is tested and the test is positive, and the employee has not previously informed the Employer of the use of prescription drugs, the employee may be suspended for two weeks and is subject to unscheduled sporadic testing for six months.

4. Grievance - All aspects of this program shall be subject to the grievance procedure spelled out in the Collective Bargaining Agreement.

## V. DRUG/ALCOHOL TESTING.

The parties to this program agree that under certain circumstances the Employer will find that is necessary for testing to be conducted for prohibited items or substances pursuant to the following procedures.

- a. A pre-employment drug and alcohol test may be administered to all Applicants without a valid identification card. The Applicant will be placed on the payroll and put to work pending receipt of the drug and alcohol test. Such employment shall be probationary in the sense that continued employment of the individual shall be contingent upon successful passage of the drug and alcohol test.
- b. All employees shall be tested on a random basis at least once every twenty-four months.
- c. A test may be administered in the event there is probable cause to believe that the employee has reported to work under the influence of a prohibited item or substance, or is or has been under the influence of a prohibited item or substance while on the job; or the employee has violated this drug program. During the process of establishing probable cause for testing, the employee has the right to request his on-site steward to be present, if available.
- d. Testing may be required if an employee is involved in a work place accident/incident or injury.
- e. Employees may also be tested on a voluntary basis.

- f. Sporadic testing as provided for in IV. 2.g. may be required as part of a follow-up to counseling or rehabilitation for substance abuse, for up to a 1-year period. Each applicant or employee to be tested will be required to sign a consent and chain of custody form, assuring proper documentation and accuracy. If an Applicant or employee refuses to sign a consent form authorizing the test, ongoing employment by the Employer will be terminated.

The employee shall be paid for the time lost for the following tests to be conducted, only if the test results are negative, Random, Post Accident, Incident, and Probable Cause.

The Employer will permit the employee who is required to take a drug test to obtain a "split sample", and the employee may request the laboratory to send the "split sample" to an accredited laboratory of his choosing as described in 2.f. Any employee who successfully challenges the accuracy of a positive test result shall be reimbursed for his cost for the second testing and any time loss from work up to a maximum of three (3) work days.

Drug testing will be conducted by an accredited laboratory, and may consist of either blood or urine tests, or both, as

required. Blood tests will be utilized for post accident investigation only if a urine test cannot be administered.

## VI. IDENTIFICATION CARD

- a. An identification card will be issued to each person who tests negative in a valid test. The card will contain the Applicants name, social security number, and the date of the last valid test. The identification card will be valid for two years or until the employee tests positive, whichever occurs first. The employee shall carry their valid identification card whenever they are on a job. Failure to produce the identification card on request by the Employer or their agent may cause the employee to be suspended until the card is presented or until it is verified by the testing agency that the employee's last test was negative. Replacement of a lost or damaged identification card shall be at the employee's expense.
- b. New hires, with an identification card. If an Applicant has a valid employee identification card they will present the card for photocopying to the prospective Employer when they present themselves for employment. The Employer shall have the right to further validate the card by contacting the agency responsible for insuring the

employees identification card is presently valid. The Applicant will be placed on the payroll and put to work pending receipt of the result of the inquiry. Employment shall be probationary and continued employment of the individual shall be contingent upon the validity of the employee's identification card being verified. The Employer shall have three days to validate the card. If the card is invalid, the employee will have no right to continued employment and may be terminated.

- c. New hires, without an identification card. If the Applicant does not have a valid employee identification card, employment shall be probationary and continued employment shall be contingent upon successful passage of the drug and alcohol test.
- d. When tested for any reason, the employee will surrender the identification card to the testing agent. If the test is negative, the employee's valid identification card will be sent to the employee. If the test is positive, the identification card will not be returned.

## **VII. REHABILITATION AND EMPLOYEE ASSISTANCE PROGRAM**

Employees are encouraged to seek help for a drug or alcohol problem before it deteriorates into a disciplinary matter. If an employee voluntarily notifies supervision that

he may have a substance abuse problem, the Employer will assist in locating a suitable rehabilitation program for treatment, and will counsel the employee regarding medical benefits available under the Health and Welfare program.

If treatment necessitates time away from work, the Employer may provide for the employee an unpaid leave of absence for purposes of participation in an agreed upon treatment program. An employee who successfully completes a rehabilitation program may be reinstated to his former employment status, if work for which he is qualified is available at that time. Employees returning to work after successfully completing the rehabilitation program will be subject to drug tests without prior notice for a period of one year. A positive test will then result in disciplinary action as previously outlined in this program.

VIII. Except as previously noted the costs of the tests associated with the program will be paid for by the Employer. The cost of a rehabilitation program will be the responsibility of the employee.

#### **IX. SUBSTANCE ABUSE TESTING PROGRAM**

a. Each Employer agrees to pay to the Substance Abuse Testing Program ("SAT") five (\$.05) cents for each hour worked by each employee working under this Agreement. Each Employer who participates in the Substance Abuse Testing Program is strongly

encouraged to contribute to the Indiana Constructors Industry Advancement Fund. (ICIAF).

- b. The contribution to the SAT Program shall be deposited each month, or at regular intervals as may be determined by the SAT Program, to the depository designated by the SAT Program and such contributions shall be reported on such forms as may be designated by the SAT Program.
- c. The activities shall be determined by the SAT Program and shall be financed from the payments provided for herein. The employer expressly ratifies and adopts the SAT policy. By execution of this Agreement, the Employer ratifies all actions taken by the SAT Program within the scope of its authority.

#### **X. REOPENER/TERMINATION**
