Title: BEACH Act Grant Program (Renewal).

Abstract: Congress passed the Beaches Environmental Assessment and Coastal Health (BEACH) Act in October 2000 to amend the Clean Water Act, in part by adding section 406, "Coastal Recreation Water Monitoring and Notification." Section 406(b) authorizes EPA to make grants to States and local governments to develop and implement programs for monitoring and public notification for coastal recreation waters adjacent to beaches or similar points of access that are used by the public, if the State or local government satisfies the requirements of the BEACH Act.

Several of these requirements require a grant recipient to collect and submit information to EPA as a condition for receiving the grant. Section 406(b) requires a grant recipient to provide the factors that the state or local government uses to prioritize funds and a list of waters for which the grant funds will be used. Section 406(b) also requires that a grant recipient's program be consistent with the performance requirements set by EPA under section 406(a); EPA needs information from the grant recipients to determine if the monitoring and notification programs are consistent with these criteria. On July 19, 2002, EPA published the National Beach Guidance and Required Performance Criteria for Grants (67 *FR* 47540). Section 406(b) also requires that a grant recipient submit a report to EPA that describes the data collected as part of a monitoring and notification program and the actions taken to notify the public when water quality standards are exceeded. Section 406(c) requires a
