2. Administrative Requirements

Applicants must adhere to the requirements of this notice. Special terms and conditions regarding FDA regulatory requirements and adequate progress of the study may be part of the award notice.

3. Reporting

A. Reporting Requirements

The original and two copies of the annual Financial Status Report (FSR) (SF-269) must be sent to FDA's grants management officer within 90 days of the budget period end date of the grant. For continuing grants, an annual program progress report is also required. For such grants, the noncompeting continuation application (PHS 2590) will be considered the annual program progress report. Also, all new and continuing grants must comply with all regulatory requirements necessary to keep the status of their IND/IDE "active" and "in effect," that is, not on "clinical hold." Failure to meet regulatory requirements will be grounds for suspension or termination of the grant.

B. Monitoring Activities

The program project officer will monitor grantees periodically. The monitoring may be in the form of telephone conversations, e-mails, or written correspondence between the project officer/grants management officer and the principal investigator. Information including but not limited to study progress, enrollment, problems, adverse events, changes in protocol, and study monitoring activities will be requested. Periodic site visits with officials of the grantee organization also may occur. The results of these monitoring activities will be recorded in the official grant file and will be available to the grantee upon request consistent with applicable disclosure statutes and with FDA disclosure regulations. Also, the grantee organization must comply with all special terms and conditions of the grant, including those which state that future funding of the study will depend on recommendations from the OPD project officer. The scope of the

recommendations will confirm that: (1) There has been acceptable progress toward enrollment, based on specific circumstances of the study, (2) there is an adequate supply of the product/device, and (3) there is continued compliance with all FDA regulatory requirements for the trial. The grantee must file a final program progress report, FSR, and invention statement within 90 days after the end date of the project period as noted on the notice of grant award.

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Health Resources and Services Administration (HRSA) publishes abstracts of information collection requests under review by the Office of Management and Budget (OMB), in compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). To request a copy of the clearance requests submitted to OMB for review, call the HRSA Reports Clearance Office on (301)-443-1129.

The following request has been submitted to the Office of Management and Budget for review under the Paperwork Reduction Act of 1995:

Proposed Project: The Sentinel Centers Network (SCN) Core Data Set (OMB No. 0915-0268)—Extension

HRSA's Bureau of Primary Health Care (BPHC) established the Sentinel Centers Network (SCN) to assist in addressing critical quality, programmatic, and policy issues. Health centers identified as having adequate infrastructure and commitment through the competitive contract process have generated data for quality and program analyses and for projects on topics that have immediate programmatic impact. Health centers submit core data periodically extracted from existing information systems. These core data comprise patient, encounter, and practitioner level information including patient demographics, insurance status, clinical diagnoses and procedures, outcomes, and practitioner characteristics. Since all data obtained from the participant health centers are extracted/compiled from existing information systems and not through primary data collection, burden is minimized. In addition, each participant site receives technical assistance as needed to reduce burden and facilitate data submission.

The annual burden estimate for this activity is as follows:

| Type of respondent | Number of respondents | Responses per respondents | Total responses | Hours per response | Total burden hours |
|--------------------|-----------------------|---------------------------|-----------------|--------------------|--------------------|
| Sites | 43 | 2 | 86 | 8 | 688 |

Written comments and recommendations concerning the proposed information collection should be sent within 30 days of this notice to: John Kraemer, Human Resources and Housing Branch, Office of Management and Budget, New Executive Office Building, Room 10235, Washington, D.C. 20503.

Dated: December 13, 2005.

Tina M. Cheatham,

Director, Division of Policy Review and Coordination.

The Indian Health Service (IHS) estimated budget request for Fiscal Year (FY) 2006 includes \$11,698,754 for the Indian Health Service (IHS) Loan Repayment Program (LRP) for health professional educational loans (undergraduate and graduate) in return for full-time clinical service in Indian health programs.

This program announcement is subject to the appropriation of funds. This notice is being published early to coincide with the recruitment activity of the IHS, which competes with other Government and private health management organizations to employ qualified health professionals.

This program is authorized by Section 108 of the Indian Health Care Improvement Act (IHCIA) as amended, 25 U.S.C. 1601 *et seq.* The IHS invites potential applicants to request an application for participation in the LRP.

H. Award Information

It is anticipated that \$11,698,754 will be available to support approximately 253 competing awards averaging \$46,250 per award for a two year contract.
