

DEPARTMENT OF COMMERCE**National Institute of Standards and Technology**

[Docket No.: 050527147-5147-01]

Notice of Intent To Enhance Library of Mass Spectra**AGENCY:** National Institute of Standards and Technology, Commerce.**ACTION:** Notice and request for comments.

SUMMARY: The National Institute of Standards and Technology announces its intent to enhance its library of mass spectra. This will both expand the coverage of chemical substances in this data collection and add related reference data, including retention indices and mass spectra generated by tandem mass spectrometers. Interested parties are invited to submit comments to the address below.

DATES: Comments must be received by July 21, 2005.**ADDRESSES:** Comments should be sent to the attention of Dr. Stephen E. Stein at the National Institute of Standards and Technology, 100 Bureau Drive, Stop 8380, Gaithersburg, MD 20899-8380.**FOR FURTHER INFORMATION CONTACT:** Dr. Stephen E. Stein by writing to the above address or by e-mail at stephen.stein@nist.gov or by telephone at (301) 975-2444.

SUPPLEMENTARY INFORMATION: As part of its responsibilities under Title 15 U.S.C. 290 to collect, evaluate and publish high quality Standard Reference Data (SRD), NIST creates and maintains evaluated SRD databases. One such database is the Mass Spectral Library, which is an evaluated data collection containing electron ionization mass spectra for discrete chemical substances, as well as retention indices and a limited number of spectra generated by electrospray and related techniques. The database has been primarily used to aid in the identification of chemical compounds by providing a source for reference spectra for comparison to spectra acquired by commercial instruments, especially spectra generated by gas chromatography/mass spectrometry (GC/MS). For each spectrum, auxiliary information for chemical identification is provided, including chemical names, formulas, chemical structures and related information. It is proposed to expand this collection by adding both classical electron ionization spectra as well as related reference data, including gas chromatographic retention indices and mass spectra acquired by other instrument types, especially tandem

mass spectrometers. The addition of new and replicate spectra of relevant compounds and derivatives will increase the likelihood of identifying unknown compounds, or ruling them out, in a chemical analysis. The addition of gas chromatographic retention indices will enable the more reliable identification of compounds by matching retention data as well as spectral data acquired in a GC/MS analysis. The addition of mass spectra generated by tandem mass spectrometers, including ion trap and collision cell instruments, with ions generated by electrospray ionization and MALDI (matrix-assisted laser induced dissociation), will broaden the scope of application of this library to other analytical methods and substances including metabolomics and proteomics. The net result of these enhancements will be to increase the reliability and utility of this library as an aid in the process of chemical identification. We invite comments concerning this update.

Dated: June 15, 2005.

Hratch G. Semerjian,*Acting Director.*

BILLING CODE 3510-13-P**DEPARTMENT OF COMMERCE****National Oceanic and Atmospheric Administration**

[I.D. 061505E]

Gulf of Mexico Fishery Management Council; Public Meetings**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.**ACTION:** Notice of public meeting.

SUMMARY: The Gulf of Mexico Fishery Management Council will convene a joint meeting of the Standing, Special Mackerel, Special Reef Fish and Special Spiny Lobster Scientific and Statistical Committees (SSCs).

DATES: The meeting will begin at 1 p.m. on Tuesday, July 5, 2005, and conclude no later than 12 noon on Friday, July 8, 2005.**ADDRESSES:** The meeting will be held at the Wyndham New Orleans at Canal Place, 100 Rue Iberville, New Orleans, LA 70130.

Council address: Gulf of Mexico Fishery Management Council, 3018 North U.S. Highway 301, Suite 1000, Tampa, FL 33619.

FOR FURTHER INFORMATION CONTACT: Mr. Steven Atran, Population Dynamics Statistician, Gulf of Mexico Fishery Management Council; telephone: (813) 228-2815.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico Fishery Management Council (Council) will convene a joint meeting of the Standing, Special Reef Fish, Special Mackerel and Special Spiny Lobster Scientific and Statistical Committees (SSCs) to review stock assessments on red snapper, king mackerel and spiny lobster, plus amendments to the Reef Fish and Coastal Migratory Pelagics fishery management plans.

On Tuesday and Wednesday, July 5-6, 2005, the Standing and Special Reef Fish SSCs will review a stock assessment of red snapper prepared under the Southeast Data, Assessment and Review (SEDAR) process during workshops held between April 2004 and April 2005. The SSCs will review the workshop reports and provide the Council with a determination of whether the assessment reflects the best available scientific information. The SSCs will also review Draft Amendment 18A to the Reef Fish Fishery Management Plan (FMP). This amendment deals with enforcement and monitoring issues, including simultaneous commercial and recreational harvest on a vessel (to improve enforceability of prohibition on sale of recreationally caught reef fish), maximum crew size on a Coast Guard inspected vessel when fishing commercially (to resolve a conflict between NMFS maximum crew size and USCG minimum crew size regulations), use of reef fish for bait, and vessel monitoring system (VMS) requirements on commercial reef fish vessels. Amendment 18A also addresses administrative changes to the framework procedure for setting total allowable catch (TAC) of reef fish, and measures to reduce bycatch and bycatch mortality of endangered sea turtles and smalltooth sawfish taken inadvertently in the commercial and charter/headboat reef fish fishery.

The Standing, Special Reef Fish, and Special Mackerel SSCs will jointly review an amendment named Draft Amendment to the FMPs for Reef Fish (Amendment 25) and Coastal Migratory Pelagics (Amendment 17) for extending the Charter Vessel/Headboat Permit Moratorium. Amendments establishing the charter vessel/headboat permit moratorium for the CMP fishery and the Reef Fish fishery were approved by NOAA Fisheries on May 6, 2003, and implemented on June 16, 2003 (68 FR

26280). The intended effect of these Amendments was to cap the number of for-hire vessels operating in these two fisheries at the current level (as of March 29, 2001) while the Council evaluated whether limited access programs were needed to constrain effort. In this amendment, the Council is considering allowing the permit to expire on June 16, 2006 or extending the moratorium on for-hire Reef Fish and CMP permits for a finite period of time or indefinitely.

On Thursday and Friday, July 7–8, 2005, the Standing and Special Mackerel SSCs will review stock assessments on mackerel stocks that were developed as part of SEDAR workshops held between December 2003 and April 2004. The SSCs previously reviewed these reports at its September 1, 2004 meeting; however, there was no quorum. The SSCs will review the workshop reports and provide the Council with a determination of whether the assessment reflects the best available scientific information.

The Standing and Special Spiny Lobster SSCs will then review a spiny lobster stock assessment that was developed as part of SEDAR workshops held between January 2005 and May 2005. The SSCs will review the workshop reports and provide the Council with a determination of whether the assessment reflects the best available scientific information.

Copies of the Amendments, assessment workshop summaries and related materials can be obtained by calling the Council office at (813) 228–2815.

Although other non-emergency issues not on the agendas may come before the SSCs for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), those issues may not be the subject of formal action during this meeting. Actions of the SSCs will be restricted to those issues specifically identified in the agendas and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take action to address the emergency.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Dawn Aring at the Council (see **ADDRESSES**) by April 20, 2005.

Dated: June 16, 2005.

Emily Menashes,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510–22–S

DEPARTMENT OF COMMERCE

Patent and Trademark Office

Representative and Address Provisions

ACTION: Proposed collection; comment request.

SUMMARY: The United States Patent and Trademark Office (USPTO), as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on the continuing information collection, as required by the Paperwork Reduction Act of 1995, Public Law 104–13 (44 U.S.C. 3506(c)(2)(A)).

DATES: Written comments must be submitted on or before August 22, 2005.

ADDRESSES: You may submit comments by any of the following methods:

- *E-mail:* Susan.Brown@uspto.gov.

Include “0651–0035 comment” in the subject line of the message.

- *Fax:* 571–273–0112, marked to the attention of Susan Brown.

- *Mail:* Susan K. Brown, Records Officer, Office of the Chief Information Officer, Office of Data Architecture and Services, Data Administration Division, U.S. Patent and Trademark Office, P.O. Box 1450, Alexandria, VA 22313–1450.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information should be directed to Robert J. Spar, Director, Office of Patent Legal Administration, U.S. Patent and Trademark Office, P.O. Box 1450, Alexandria, VA 22313–1450; by telephone at 571–272–7700; or by e-mail at Bob.Spar@uspto.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

Under 35 U.S.C. 2 and 37 CFR 1.31–1.36, a patent applicant or assignee of record may grant power of attorney to a person who is registered to practice before the United States Patent and Trademark Office (USPTO) to act for them in a patent or application. A power of attorney may also be revoked, and a registered practitioner may also withdraw as attorney or agent of record under 37 CFR 1.36. The rules of practice (37 CFR 1.33) also provide for the applicant, assignee, or practitioner of record to supply a correspondence

address and daytime telephone number for receiving notices, official letters, and other communications from the USPTO. Further, the rules of practice (37 CFR 1.33(d) and 1.363) permit the applicant, assignee, or practitioner of record to specify a separate “fee address” for correspondence related to maintenance fees, which is covered under OMB Control Number 0651–0016 “Rules for Patent Maintenance Fees.” Maintaining a correct and updated correspondence address is necessary so that official correspondence from the USPTO related to a patent or application will be properly received by the applicant, assignee, or practitioner.

The USPTO's Customer Number practice permits applicants, assignees, and practitioners of record to change the correspondence address, fee address, or representatives of record for a number of patents or applications with one change request instead of filing separate requests for each patent or application. Customers may request a Customer Number from the USPTO and associate this Customer Number with a correspondence address or a list of registered practitioners. Customers may then use this Customer Number to designate or change the correspondence address, the fee address, or to grant power of attorney to the associated list of practitioners for any number of patents or applications. Any changes to the address or practitioner information associated with a Customer Number will be applied to all patents and applications associated with that Customer Number.

The Customer Number practice is optional, in that changes of correspondence address or power of attorney may be filed separately for each patent or application without using a Customer Number. However, a Customer Number associated with the correspondence address for a patent application is required in order to access private information about the application using the Patent Application Information Retrieval (PAIR) system, which is available through the USPTO Web site. The PAIR system allows authorized individuals secure access to application status information over the Internet, but only for patent applications that are linked to a Customer Number. Applicants must also use a Customer Number in order to grant power of attorney to more than ten practitioners or to establish a separate fee address that is different from the correspondence address for a patent or application.

In addition to the forms offered by the USPTO to assist customers with providing the information in this
