Title: Secondary Non-Ferrous Metals Processing Area Source Standard Development Questionnaire.

Abstract: The proposed ICR will collect information and data from 110 existing secondary non-ferrous metal processing plants. Plants will be required to complete a simple paper

questionnaire on production processes and equipment, air pollution control systems, pollution prevention management practices, applicable regulatory requirements, and emissions test data. The questionnaire may be completed from existing information; no additional monitoring or testing is required. The EPA will use the collected information and data to develop area source standards for hazardous air pollutants required under section 112(d) of the Clean Air Act.

EPA's authority to collect information is contained in section 114 of the Clean Air Act, (42 U.S.C 7414). All information submitted to EPA pursuant to this ICR for which a claim of confidentiality is made is safeguarded according to Agency policies in 40 CFR part 2, subpart B.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9 and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 62 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Entities potentially affected by this action are secondary non-ferrous metals processing establishments, excluding plants that perform secondary processing of aluminum, copper, or lead. The standard industrial classification (SIC) code for this industry is primarily 3341, Secondary Smelting and Refining of Non-ferrous Metals; the North American Industry Classification System (NAICS) code is 331492, Secondary Smelting, Refining, and Alloying of Non-ferrous Metal (Except Copper and Aluminum).

Estimated Number of Respondents: The estimated number of respondents is 110.

Frequency of Response: This is a new collection requiring a one-time response.

Estimated Total Annual Hour Burden: The estimated total annual hour burden is 2,281 person-hours.

Estimated Total Annual Cost: \$179,456, which includes \$0 annualized capital/startup costs, \$0 annual O&M costs, and \$179,456 annual labor costs.

Changes in the Estimates: This section does not apply since this is a new collection.

FOR FURTHER INFORMATION CONTACT: David Schwarz, U.S. Environmental Protection Agency, Office of Environmental Information, Mail Stop 2823T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, (202) 566-1704, schwarz.david@epa.gov, or Evi Huffer, U.S. Environmental Protection Agency, Office of Environmental Information, Mail Stop 2823T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, (202) 566-1697, huffer.evi@epa.gov.

SUPPLEMENTARY INFORMATION:

What Action Is EPA Taking?

A. Background

Elsewhere in today's **Federal Register**, the EPA has published its Electronic Reporting Rule, the "Cross-Media Electronic Reporting" ("CROMERR"), located at 40 CFR part 3. CROMERR provides the performance standards applicable to electronic reporting under EPA's authorized state, tribe, and local programs. If reporting to EPA rather

than authorized programs, § 3.10 of CROMERR requires submission of an electronic document to EPA's Central Data Exchange, or "to another EPA electronic document receiving system that the Administrator may designate for the receipt of specified submissions[.]" This notice is intended to designate certain EPA electronic document receiving systems for receipt of submissions under CROMERR, as discussed below.

B. Today's Action

In accordance with 40 CFR 3.10, EPA hereby designates for the receipt of electronic submissions, all EPA electronic document receiving systems currently existing and receiving electronic reports as of the date of this notice. This designation is valid for a period of up to two years from the date of publication of this notice. During this two-year period, entities that report directly to EPA may continue to satisfy EPA reporting requirements by reporting to the same systems as they did prior to CROMERR's publication unless EPA publishes a notice that announces changes to, or migration from, that system.

Any existing systems continuing to receive electronic reports at the expiration of this two-year period must receive redesignation by the Administrator under § 3.10. Notice of such redesignation will be published in the **Federal Register**.

C. How Can I Get Copies of This Document and Other Related Information?

A copy of this notice has been placed in EPA's official public docket for CROMERR, Docket ID No. OEI-2003-0001. The official public docket is the collection of materials that is available for public viewing at the OEI Docket in the EPA Docket Center, (EPA/DC) EPA West, Room B102, 1301 Constitution Avenue, NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the OEI Docket is (202) 566-1752.

An electronic version of the public docket is available through EPA's electronic public docket and comment system, EPA Dockets. You may use EPA Dockets at <http://www.epa.gov/edocket/> to view public comments, access the index listing of the contents of the official public docket, and to access those documents in the public docket that are available electronically. Although not all docket materials may

be available electronically, you may still access any of the publicly available docket materials through the docket facility identified in Unit I.C. Once in the system select "search," then key in the appropriate docket identification number.
