Federal Aviation Administration

[Docket No. FAA-2004-16944]

Operating Limitations at Chicago O'Hare International Airport

ACTION: Notice of order.

SUMMARY: On July 18, 2005, the Federal Aviation Administration (FAA) issued an order to show cause, which solicited written views on extending for a second time the FAA's August 18, 2004, order limiting scheduled operations at O'Hare International Airport (O'Hare). The August 2004 order made effective a series of schedule adjustments that the air carriers individually agreed to during a scheduling reduction meeting. These agreements, in general, resulted in a voluntary peak-hour arrival rate at O'Hare of eighty-eight scheduled flights, with the exception of the 8 p.m. hour—the final peak hour of the day—when the rate would not exceed ninety-eight scheduled arrivals.

The FAA previously extended the effectiveness of the August 2004 order through October 29, 2005. This notice announces that the FAA Administrator has signed an order that further extends the August 2004 order through April 1, 2006. The text of the extension order is published below as supplementary information to this notice.
