

has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

#### Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies. This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

#### Environment

We have analyzed this proposed rule under Commandant Instruction M16475.1D, which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have concluded that there are no factors in this case that would limit the use of a categorical exclusion under section 2.B.2 of the Instruction. Therefore, this rule is categorically excluded, under figure 2–1, paragraph (32)(e), of the Instruction, from further environment documentation because it has been determined that the promulgation of operating regulations or procedures for drawbridges are categorically excluded.

#### Approval and Promulgation of State Plan for Designated Facilities and Pollutants; North Carolina

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** EPA proposes to approve the Clean Air Act (CAA) section 111(d)/129 State Plan submitted by the North Carolina Department of Environment and Natural Resources (North Carolina DENR) for the State of North Carolina on August 7, 2002, and subsequently revised on December 14, 2004, for implementing and enforcing the Emissions Guidelines applicable to existing Commercial and Industrial Solid Waste Incinerators. The State Plan was submitted by North Carolina DENR to satisfy CAA requirements. In the final rules section of this **Federal Register**, EPA is approving the North Carolina State Plan as a direct final rule without prior proposal because the Agency views this as a noncontroversial plan and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to the direct final rule, no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this rule. Any parties interested in commenting on this rule should do so at this time.

#### Endangered and Threatened Wildlife and Plants; Revised 12-Month Finding for the Southern Rocky Mountain Distinct Population Segment of the Boreal Toad (*Bufo boreas boreas*)

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Notice of revised 12-month finding for the Southern Rocky Mountain Distinct Population Segment of the Boreal Toad.

**SUMMARY:** We, the Fish and Wildlife Service (Service), announce our revised 12-month finding for a petition to list the Southern Rocky Mountain population (SRMP) of the boreal toad (*Bufo boreas boreas*) as endangered under the Endangered Species Act (ESA). After a review of the best available scientific and commercial information, we find that listing is not warranted at this time because the SRMP of the boreal toad does not constitute a species, subspecies, or distinct population segment (DPS) under the ESA. Therefore, we withdraw the SRMP from the candidate list. The Service will continue to seek new information on the taxonomy, biology, and ecology of these toads, as well as potential threats to their continued existence.

**DATES:** This finding was made on September 20, 2005. Although no further action will result from this finding, we request that you submit new
