The centers conduct extensive ancillary cancer-related activities such as outreach, education and information dissemination. Through all of these activities combined, the centers play an important role in their communities and regions and serve to influence standards of cancer prevention and treatment related to promotion of hematological health education, awareness, and information dissemination. Distinct from other cancer centers the CCCs have been recognized as all-encompassing in scope (e.g. outreach, education, and information dissemination), innovative

in approach, and inclusive in their design to develop interventions that can reach all American. They serve as the classified cornerstone by NCI in influencing standards of cancer prevention and treatment in the cancer community. The list of applicants may be found at: <http://www3.cancer.gov/cancercenters/centerslist.html>.

III.2. Cost Sharing or Matching

Matching funds are not required for this program.

Application Deadline Date: August 11, 2005.

Explanation of Deadlines:

Applications must be received in the CDC Procurement and Grants Office by 4 p.m. eastern time on the deadline date.

Applications may be submitted electronically at <http://www.grants.gov>. Applications completed on-line through Grants.gov are considered formally submitted when the applicant organization's Authorizing Official electronically submits the application to <http://www.grants.gov>. Electronic applications will be considered as having met the deadline if the application has been submitted electronically by the applicant organization's Authorizing Official to Grants.gov on or before the deadline date and time.

If submittal of the application is by the United States Postal Service or commercial delivery service, the applicant must ensure that the carrier will be able to guarantee delivery by the closing date and time. If CDC receives the submission after the closing date due to: (1) Carrier error, when the carrier accepted the package with a guarantee for delivery by the closing date and time, or (2) significant weather delays or natural disasters, the applicant will be given the opportunity to submit documentation of the carrier's guarantee. If the documentation verifies a carrier problem, CDC will consider the submission as having been received by the deadline.

The applicant should wait two to three days after the submission deadline before calling. This will allow time for submissions to be processed and logged.

This announcement is the definitive guide on application content, submission address, and deadline. It supersedes information provided in the application instructions. If the submission does not meet the deadline above, it will not be eligible for review, and will be discarded. The applicant will be notified that the application did not meet the submission requirements.

The Centers for Disease Control and Prevention (CDC) announces the intent to fund fiscal year (FY) 2005 funds for a cooperative agreement program to expand the community health promotion leadership and enhance the capacity of the Young Men's Christian Association (YMCA) of the USA trainers, staff and volunteers. The successful implementation of the program will result in the effective integration of public health practice in communities and community institutions to increase the quality, availability, and effectiveness of educational and community-based programs designed to prevent disease, improve health and quality of life, embrace diversity, connect people and resources, and create a sense of community. The FY 2005 Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Bill, Senate Report No. 108-345 recognized the unique work of the YMCA of the USA through its Pioneering Healthier Communities initiative and directed CDC to provide funding to the organization to implement their Healthier Communities action plan. For

over 150 years, YMCAs have developed initiatives and programs that have helped improve the physical, social, emotional, and spiritual health for millions of Americans in diverse communities across the country. The health benefits from YMCA's health and wellness programs are a critical part of the nation's efforts to arrest the epidemic of chronic diseases.

Pioneering Healthier Communities is a key component of a broad YMCA initiative with the goal of improving the health and wellness of all Americans. Through this initiative, YMCAs will partner with community members to lead change in their communities by building coalitions and strategies to battle the epidemics of chronic disease and obesity, as well as the associated rise factors of physical inactivity and poor nutrition.
