

notice of proposed rule making to establish Class E airspace at Mariposa, CA (69 FR 68104). New RNAV GPS SIAPs at Mariposa-Yosemite Airport, Mariposa, CA, makes it necessary to increase the controlled airspace. Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments were received. Class E airspace designations are published in paragraph 6005 FAA Order 7400.9M dated August 30, 2004, and effective September 16, 2004, which is incorporated by reference in 14 CFR part 71.1. The Class E airspace designations listed in this document will be published subsequently in that order.

The Rule

This amendment to 14 CFR part 71 establishes Class E airspace at Mariposa-Yosemite Airport, Mariposa, CA. New RNAV GPS SIAPs at Mariposa-Yosemite Airport make it necessary to establish the Class E Airspace. This controlled airspace extending upward from 700 feet or more above the surface is necessary for the containment and safety of IFR aircraft transitioning to/from the en route environment and executing these RNAV GPS SIAP procedures. The amendment also corrects an error in the airport latitude and longitude description.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

■ In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854; 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR part 71.1 of the Federal Aviation Administration Order 7400.9M, Airspace Designations and Reporting Points, dated August 30, 2004, and effective September 16, 2004, is amended as follows.

Paragraph 6005. Class E Airspace are extending upward from 700 feet or more above the surface of the earth.

14 CFR Part 71

[Docket FAA 2003–16460; Airspace Docket 02–ANM–16]

Establishment of Class E Airspace; Aspen, CO

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This final rule will establish Class E airspace at Aspen, CO. A reduction in operating hours of Class D airspace service at Aspen-Pitkin County/Sardy Field makes this action necessary. This Class E airspace extending upward from the surface of the earth will provide a controlled environment for the safety of aircraft executing Instrument Flight Rules (IFR) operations outside the hours of Class D airspace service.

DATES: 0901 UTC July 07, 2005.

FOR FURTHER INFORMATION CONTACT: Ed Haeseker, Federal Aviation Administration, Western En Route and Oceanic Area Office, Airspace Branch, 1601 Lind Avenue, SW., Renton, WA 98055–4056; telephone (425) 227–2527.

SUPPLEMENTARY INFORMATION:

History

On March 19, 2004, the FAA proposed to amend Title 14 Code of Federal Regulations part 71 (14 CFR part 71) to establish Class E airspace at Aspen, CO, (69 FR 12993). The proposed action would provide Class E airspace during the hours Class D airspace service is not available at Aspen-Pitkin County/Sardy Field Aspen, CO. This Class E airspace extending upward from the surface of the earth will provide a controlled environment for the safety of aircraft executing IFR operations outside the hours of Class D airspace service.

Interested parties were invited to participate in this rule making proceeding by submitting written comments on the proposal to the FAA. No comments were received. Class E airspace designations are published in paragraph 6002 of FAA Order 7400.9M dated August 30, 2004, and effective September 16, 2004, which is incorporated by reference in 14 CFR part 71.1. The Class E airspace designations listed in this document will be published subsequently in that order.

The Rule

This amendment to 14 CFR part 71 establishes Class E airspace at Aspen, CO, by providing additional controlled airspace for aircraft executing IFR procedures at Aspen-Pitkin County/Sardy Field during the hours Class D airspace service is not available. This Class E airspace extending upward from the surface of the earth will provide a controlled environment for the safety of aircraft executing IFR operations outside the hours of Class D airspace service.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when

promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

RIN 2120–AA66

Revision of VOR Federal Airway V–537

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action revises Very High Frequency Omnidirectional Range (VOR) Federal Airway V–537 by changing the origination point of the airway from the Vero Beach, FL, Very High Frequency Omnidirectional Range/Tactical Air Navigation (VORTAC) to the Palm Beach, FL, VORTAC. The FAA is taking this action to enhance the management of aircraft in the Palm Beach, FL, area.

EFFECTIVE DATE: 0901 UTC, October 27, 2005.

FOR FURTHER INFORMATION CONTACT: Paul Gallant, Airspace and Rules, Office of System Operations and Safety, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267–8783.

SUPPLEMENTARY INFORMATION:

Background

On February 3, 2004, the FAA proposed to modify V–537 by changing the origination point of the airway from the Vero Beach VORTAC to the Palm Beach VORTAC (69 FR 5098). Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal. No comments were received. With the exception of editorial changes, this amendment is the same as that proposed in the notice.

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) part 71 by revising the legal description of V–537 in the vicinity of Palm Beach, FL. The revision incorporates into the airway routing that is used by air traffic control when directing aircraft to Palm Beach, FL. Currently, Miami Air Route Traffic Control Center issues a clearance to aircraft destined for the Palm Beach terminal area by directing aircraft to proceed via the Vero Beach VORTAC, then along V–295 to STOOP intersection, then via V–492 to the Palm Beach VORTAC. This modification incorporates this routing as an extension

to V–537. The modification to V–537 will reduce pilot-controller communications, alleviate radio frequency congestion, reduce the potential for pilot readback errors, and enhance the management of aircraft operations in the Vero Beach-Palm Beach area.

Domestic VOR Federal airways are published in paragraph 6010(a) of FAA Order 7400.9M, dated August 30, 2004, and effective September 16, 2004, which is incorporated by reference in 14 CFR 71.1. The VOR Federal airway listed in this document will be published subsequently in the order.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

■ In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of FAA Order 7400.9M, Airspace Designations and Reporting Points, dated August 30, 2004, and effective September 16, 2004, is amended as follows:

Paragraph 6010(a)—Domestic VOR Federal Airways.
