**SUPPLEMENTARY INFORMATION:**

**A. Background**

DFARS Transformation is a major DoD initiative to dramatically change the purpose and content of the DFARS. The objective is to improve the efficiency and effectiveness of the acquisition process, while allowing the acquisition workforce the flexibility to innovate. The transformed DFARS will contain only requirements of law, DoD-wide policies, delegations of FAR authorities, deviations from FAR requirements, and policies/procedures that have a significant effect beyond the internal operating procedures of DoD or a significant cost or administrative impact on contractors or offerors. Additional information on the DFARS Transformation initiative is available at <http://www.acq.osd.mil/dpap/dfars/transf.htm>.

This proposed rule is a result of the DFARS Transformation initiative. The proposed changes update DFARS Appendix F requirements for preparation of DD Form 250, Material Inspection and Receiving Report. The proposed changes include—

- Clarification of requirements for marking of shipments when a contractor's certificate of conformance is used as the basis for acceptance.

- Relocation of the requirement for the contractor to provide sufficient copies of DD Form 250, from F-701 to F-103.
