Agency Information Collection Activities: Proposed Collection: Comment Request

In compliance with the requirement for opportunity for public comment on proposed data collection projects (section 3506 (c)(2)(A) of Title 44, United States Code, as amended by the Paperwork Reduction Act of 1995, Public Law 104-13), the Health Resources and Services Administration (HRSA) publishes periodic summaries of proposed projects being developed for submission to the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995. To request more information on the proposed project or to obtain copy of the

data collection plans and draft instruments, call the HRSA Reports Clearance Officer on (301) 443-1129.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: Health Resources and Services Administration (HRSA) Awardee Application and Reporting Tool (AART): (New)

The Awardee Application and Reporting Tool (AART) will be an online system allowing the 62 Awardees participating in the National Bioterrorism Hospital Preparedness Program (NBHPP) to electronically submit a continuing cooperative agreement application (CAA), mid-year progress report on annual activities, a final report on annual activities and progress indicator report to HRSA's Healthcare Systems Bureau, Division of Healthcare Preparedness. The CAA will be a standardized application consisting

of 16 Critical Benchmarks (CBM). For each CBM, Awardees will be required to provide a goal, objectives, and a budget outlining how funding provided by HRSA will be spent during the coming year. On the mid-year progress report, Awardees will indicate the progress they have made toward each of the objectives they noted on their CAA. For the final report on annual activities, Awardees will provide additional details on how their objectives were being achieved and how the program monies were spent. On the progress indicator report, Awardees will indicate the progress they have made to date toward achieving the program's CBM. Currently, the submission of the CAA and progress reports is a manual process by which Awardees submit paper-based submissions or electronically transmit text files to HRSA project officers (POs). These files are then reviewed manually and data analysis is difficult. The AART system will provide POs with the ability to review and approve applications, review progress reports, and generate reports online. In addition, the reporting interface will allow HRSA to quickly and efficiently analyze data, identify trends, make timely program decisions, and provide the Department of Health and Human Services (HHS), Congress, or other Agencies with any specific data or metrics requested.

The burden estimate for Awardees to complete and submit a submission is as follows:

Submission type	Number of respondents	Responses per Respondent	Total number of responses	Hours per response	Total burden hours
Cooperative Agreement Application	62	1	62	120	7,440
Mid-year Report	62	1	62	124	7,688
Final Report on Annual Activities	62	1	62	124	7,688
Progress Indicator Report	62	1	62	124	7,688
Total	62	4	248	30,504

National Institutes of Health/National Institute of Environmental Health Sciences; Division of Extramural Research and Training

Submission for OMB Review; Comment Request; Hazardous Waste Worker Training

Summary: Under the provisions of Section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the National Institute of Environmental Health Sciences (NIEHS), the National Institutes of Health (NIH) has submitted to the Office of Management and Budget (OMB) a request to review and approve the information collection listed below. This proposed information collection was previously published in the **Federal Register** on December 8, 2004, pages 71061-71062, and allowed 60-days for public comment. No public comments were received. The purpose of this notice is to allow an additional 30 days for public comment. The National Institutes of Health may not conduct or

sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

Proposed Collection: Title: Hazardous Waste Worker Training—42 CFR Part 65. **Type of Information Collection Request:** Revision of OMB No. 0925-0348, expiration date February 28, 2005. **Need and Use of Information Collection:** This request for OMB review and approval of the information collection is required by regulation 42 CFR part 65(a)(6). The National Institute of Environmental Health Sciences (NIEHS) has been given major responsibility for initiating a worker safety and health training program under Section 126 of the Superfund Amendments and Reauthorization Act of 1986 (SARA) for hazardous waste workers and emergency responders. A network of non-profit organizations that are committed to protecting working and their communities by delivering high-quality, peer-reviewed safety and health curricula to target populations of hazardous waste workers and emergency responders has been developed. In seventeen years (FY 1987-2004), the NIEHS Worker Training program has successfully supported 20 primary grantees that have trained more than 1.3 million workers across the country and presented over 69,000 classroom and hands-on training courses, which have accounted for nearly 18 million contact hours of actual training. Generally, the grant will initially be for one year, and subsequent continuation awards are also for one year at a time. Grantees must submit a separate application to have the support continued for each subsequent year. Grantees are to provide information in accordance with S65.4 (a), (b), (c) and 65.6 (b) on the nature, duration, and purpose of the training, selection criteria for trainees' qualifications and competency of the project director and staff, cooperative agreements in the case of joint applications, the adequacy of training plans and resources, including budget and curriculum, and response to meeting training criteria in OSHA's Hazardous Waste Operations and Emergency Response Regulations (29 CFR 1910.120). As a cooperative agreement, there are additional requirements for the progress report section of the application. Grantees are to provide their information in hard copy as well as enter information into the WETP Grantee Data Management System. The information collected is used by the Director through officers,

employees, experts, and consultants to evaluate applications based on technical merit to determine whether to make awards. **Frequency of Response:** Biannual. **Affected Public:** Non-profit organizations. **Type of Respondents:** Grantees. The annual reporting burden is as follows: **Estimated Number of Respondents:** 18; **Estimated Number of Responses per Respondent:** 2; **Average Burden Hours Per Response:** 10; and **Estimated Total Annual Burden Hours Requested:** 360. The annualized cost to respondents is estimated at: \$10,764. There are no Capital Costs, Operating Costs and/or Maintenance Costs to report.

Request for Comments: Written comments and/or suggestions from the public and affected agencies are invited on one or more of the following points: (1) Whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (2) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and (4) Ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Direct Comments to OMB: Written comments and/or suggestions regarding the item(s) contained in this notice, especially regarding the estimated public burden and associated response time, should be directed to the: Office of Management and Budget, Office of Regulatory Affairs, New Executive Office Building, Room 10235, Washington, DC 20503, Attention: Desk Officer for NIH. To request more information on the proposed project or to obtain a copy of the data collection plans and instruments, contact: Joseph T. Hughes, Jr., Director, Worker Education and Training Program, Division of Extramural Research and Training, NIEHS, P.O. Box 12233, Research Triangle Park, NC 27709 or call non-toll-free number (919) 541-0217 or E-mail your request, including your address to wetp@niehs.nih.gov.

Comments Due Date: Comments regarding this information collection are best assured of having their full effect if received within 30-days of the date of this publication.
