The purpose of the proposed action is to help ensure the Nation's cultural preservation, self-determination, self-sufficiency and economic independence as a federally recognized Indian tribe by securing the properties into its trust land base. SUPPLEMENTARY INFORMATION: The EIS will assess the environmental consequences of BIA approval of the proposed transfer of 17,370 acres, in several non-contiguous parcels currently held in fee by the Nation in Oneida and Madison Counties, New York, into trust status for the benefit of the Nation. The parcels being considered for the fee-to-trust transfer include gaming and resort properties, including the Turning Stone Casino resort in Verona, New York, housing for Nation members, health care facilities, government offices, commercial enterprises such as marinas, service stations and convenience stores, vacant and undeveloped lands and lands used for traditional Iroquois agriculture, for livestock and for hunting and fishing.

The EIS will analyze all pertinent environmental, social and economic attributes of the affected environment and potential environmental consequences of taking the lands into trust. The BIA has so far identified infrastructure (including schools), socioeconomics (including taxes, employment, income, population and housing) and cumulative effects as key issues for analysis in the EIS. The range of issues may be further expanded, based on comments received in response to this notice and at the public scoping meetings.
