Draft Guidance for Industry on Clinical Trial Endpoints for the Approval of Cancer Drugs and Biologics; Availability

AGENCY: Food and Drug Administration,
HHS.

ACTION: Notice.

SUMMARY: The Food and Drug
Administration (FDA) is announcing the
availability of a draft guidance for
industry entitled "Clinical Trial
Endpoints for the Approval of Cancer
Drugs and Biologics."

This is the first of a series of
guidances that will provide
recommendations to sponsors on
endpoints for cancer clinical trials
submitted to FDA to support
effectiveness claims in new drug
applications (NDAs), biologics license
applications (BLAs), or supplemental
applications. Sponsors are encouraged
to use this draft guidance to design
cancer clinical trials and to discuss
protocols with the agency. This draft
guidance provides background
information and discusses general
regulatory principles. Each subsequent
guidance will focus on endpoints for
specific cancer types (e.g., lung cancer,
colon cancer) to support drug approval
or labeling claims. These guidances are
expected to speed the development and
improve the quality of protocols
submitted to the agency to support
anticancer effectiveness claims.

DATES: Submit written or electronic
comments on the draft guidance by June
3, 2005. General comments on agency
guidance documents are welcome at any
time.

ADDRESSES: Submit written requests for
single copies of the draft guidance to the

SUPPLEMENTARY INFORMATION:

I. Background

FDA is announcing the availability of
a draft guidance for industry entitled
"Clinical Trial Endpoints for the
Approval of Cancer Drugs and
Biologics." FDA is developing guidance
on oncology endpoints through a
process that includes public workshops
of oncology experts and discussions
before FDA's Oncologic Drugs Advisory
Committee. This draft guidance is the
first in a planned series of cancer
endpoint guidances. It provides
background information and general
principles. The endpoints discussed in
this draft guidance are for drugs to treat
patients with an existing cancer. This
draft guidance does not address
endpoints for drugs to prevent or
decrease the incidence of cancer.

This draft guidance is being issued
consistent with FDA's good guidance

practices regulation (21 CFR 10.115).
The draft guidance, when finalized, will
represent the agency's current thinking
on clinical trial endpoints for the
approval of cancer drugs and biologics.
It does not create or confer any rights for
or on any person and does not operate
to bind FDA or the public. An
alternative approach may be used if
such approach satisfies the
requirements of the applicable statutes
and regulations.

II. Comments

Interested persons may submit to the
Division of Dockets Management (see
ADDRESSES) written or electronic
comments on the draft guidance. Submit
one copy of electronic comments or two
paper copies of any mailed comments,
except that individuals may submit one
paper copy. Comments are to be
identified with the docket number
found in brackets in the heading of this
document. The draft guidance and
received comments are available for
public examination in the Division of
Dockets Management between 9 a.m.
and 4 p.m., Monday through Friday.

III. Electronic Access
