Proposed Project

Exposure to Aerosolized Brevetoxins during Red Tide Events (OMB No. 0920-0494)—Revision—National Center for Environmental Health (NCEH), Centers for Disease Control and Prevention (CDC).

Karenia brevis (formerly *Gymnodinium breve*) is the marine dinoflagellate responsible for extensive blooms (called red tides) that form in the Gulf of Mexico. *K. brevis* produces potent toxins, called brevetoxins, which have been responsible for killing millions of fish and other marine organisms. The biochemical activity of brevetoxins is not completely understood and there is very little information regarding human health effects from environmental exposures, such as inhaling brevetoxin that has been aerosolized and swept onto the coast by offshore winds. The National

Center for Environmental Health (NCEH), Centers for Disease Control and Prevention (CDC) has recruited people who work along the coast of Florida and who are periodically occupationally exposed to aerosolized red tide toxins.

We have administered a baseline respiratory health questionnaire and conducted pre- and post-shift pulmonary function tests during a time when there is no red tide reported near the area. When a red tide developed, we administered a symptom survey and conducted pulmonary function testing (PFT). We compared (1) symptom reports before and during the red tide and (2) the changes in baseline PFT values during the work shift (differences between pre- and post-shift PFT results) without exposure to red tide with the changes in PFT values during the work shift when individuals are exposed to red tide.

The exposures experienced by our study cohort have been minimal, and we plan to conduct another study (using

the same symptom questionnaires and spirometry tests) during a more severe red tide event.

In addition, we are now planning to quantify the levels of cytokines in nasal exudates to assess whether they can be used to verify exposure and to demonstrate a biological effect (*i.e.*, allergic response) following inhalation of aerosolized brevetoxins. We plan to include not only the study subjects who have been involved in our earlier studies, but also any new individuals who are hired to work at the relevant beaches. As mentioned above, we have collected part data on occupational exposure to red tides. However, because we are dealing with natural phenomena and are subject literally to the tides, and because the scientific questions are evolving as we learn more, we must extend our data collection time for an additional three years. There are no costs to respondents except for their time. The total estimated total burden hours are 195.

ESTIMATE OF ANNUALIZED BURDEN TABLE

Respondents	Number of respondents	Number of responses per respondent	Average burden per response
Pulmonary History Questionnaire	5	1	20/60
Spirometry	25	6	20/60
Nasal exudates collection/Nasal wash	25	6	10/60
Symptom Questionnaire	25	6	5/60
Hearing test	25	6	15/60
Beach Survey	5	160	5/60

Dated: September 9, 2005.

Joan Karr,

Acting Reports Clearance Officer, Centers for Disease Control and Prevention.

Correction: This notice was published in the **Federal Register** on September 8, 2005, Volume 70, Number 173, pages 53375-53376. The time and date of the meeting has been changed.

Time and Date: 2 p.m.-3:30 p.m., September 22, 2005.

Meeting Location: Teleconference.

Contact Person for More Information:

J. Felix Rogers, PhD, Scientific Review Administrator, National Center for Chronic Disease Prevention and Health Promotion, 4770 Buford Highway, MS-K92, Atlanta, GA 30341, Telephone 404.639.6101.

The Director, Management Analysis and Services Office, has been delegated the authority to sign **Federal Register** notices pertaining to announcements of meetings and other committee management activities, for both CDC and the Agency for Toxic Substances and Disease Registry.

Dated: September 9, 2005.

Alvin Hall,

Director, Management Analysis and Services Office, Centers for Disease Control and Prevention.

[Document Identifier: CMS-10036]

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Centers for Medicare & Medicaid Services, HHS.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Centers for Medicare & Medicaid Services (CMS) is publishing the following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions;

(2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

1. *Type of Information Collection Request:* Extension of a currently approved collection; *Title of Information Collection:* Inpatient Rehabilitation Assessment Instrument and Data Set for PPS for Inpatient Rehabilitation Facilities and Supporting Regulations in 42 CFR Sections 412.23, 412.604, 412.606, 412.610, 412.614, 412.618, 412.626, 413.64; *Form Number:* CMS-10036 (OMB#: 0938-0842); *Use:* This is a request to use the IRF-PAI (Inpatient Rehabilitation Facilities—Patient Assessment Instrument) and its supporting manual for the implementation phase of the Inpatient Rehabilitation PPS (Prospective Payment System). This payment system is to cover both operating and capital costs for inpatient rehabilitation hospital services. It will apply to rehabilitation units of acute care hospitals as well as to rehabilitation hospitals, both of which are exempt from the current Medicare PPS which is generally applicable for inpatient hospital services. Use of this instrument will enable CMS to implement a classification and payment system for the legislatively mandated inpatient rehabilitation hospital and the aforementioned exempt units. *Frequency:* Recordkeeping, third party disclosure and reporting—On occasion; *Affected Public:* Business or other for-profit and Not-for-profit institutions; *Number of Respondents:* 1,165; *Total Annual Responses:* 390,000; *Total Annual Hours:* 421,939.

To obtain copies of the supporting statement and any related forms for the proposed paperwork collections referenced above, access CMS' Web site address at <http://www.cms.hhs.gov/regulations/prd/>, or E-mail your request, including your address, phone number, OMB number, and CMS document identifier, to Paperwork@cms.hhs.gov, or call the Reports Clearance Office on (410) 786-1326.

To be assured consideration, comments and recommendations for the proposed information collections must be received at the address below, no later than 5 p.m. on November 15, 2005. CMS, Office of Strategic Operations and Regulatory Affairs, Division of Regulations Development, Attention: Bonnie L Harkless, Room C4-26-05, 7500 Security Boulevard, Baltimore, Maryland 21244-1850.

Dated: September 1, 2005.

Michelle Shortt,

*Director, Regulations Development Group,
Office of Strategic Operations and Regulatory
Affairs.*

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: Centers for Medicare & Medicaid Services.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Centers for Medicare & Medicaid Services (CMS), Department of Health and Human Services, is publishing the following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the Agency's function; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

1. *Type of Information Collection Request:* Extension of a currently approved collection; *Title of Information Collection:* Medicare Geographic Classification Review Board (MGCRB) Procedures and Supporting Regulations in 42 CFR 412.256 and 412.230; *Form Nos.:* CMS-R-138 (OMB # 0938-0573); *Use:* Section 1886(d)(10) of the Social Security Act established the Medicare Geographic Classification Review Board (MGCRB), an entity with the authority to accept short-term hospital inpatient prospective payment system applications from hospitals requesting geographic reclassification for wage index or standardized payment amounts and to issue decisions on these requests. This regulation sets up the application process for prospective payment system hospitals that choose to appeal their geographic status to the

MGCRB. This regulation also establishes procedural guidelines for the MGCRB; *Frequency:* Reporting—Annually; *Affected Public:* Business or other for-profit, Not-for-profit institutions; *Number of Respondents:* 500; *Total Annual Responses:* 500; *Total Annual Hours:* 500.

2. *Type of Information Collection Request:* Revision of a currently approved collection; *Title of Information Collection:* Medicare Provider Cost Report Reimbursement Questionnaire and Supporting Regulations in 42 CFR 413.20, 413.24, and 415.60; *Form Nos.:* CMS-339 (OMB # 0938-0301); *Use:* The purpose of Form CMS-339 is to assist the provider in preparing an acceptable cost report and to minimize subsequent contact between the provider and its intermediary. Form CMS-339 provides the basic data necessary to support the information in the cost report. This includes information the provider uses to develop the provider and professional components of physician compensation so that compensation can be properly allocated between the Part A and the Part B trust funds. CMS is currently working on eliminating Form CMS-339 and including the applicable questions on the individual cost report forms. Because of the time required to include the applicable questions in each of the individual cost reports, CMS is revising the currently approved information collection; *Frequency:* Annually; *Affected Public:* Business or other for-profit, not-for-profit institutions, State, Local or Tribal Governments; *Number of Respondents:* 35,904; *Total Annual Responses:* 35,904; *Total Annual Hours:* 618,210.

3. *Type of Information Collection Request:* Extension of a currently approved collection; *Title of Information Collection:* Medicare Uniform Institutional Provider Bill and Supporting Regulations in 42 CFR 424.5; *Form No.:* CMS-1450 (OMB #0938-0279); *Use:* Section 42 CFR 424.5(a)(5) requires providers of services to submit claims prior to Medicare reimbursement. Charges are coded by revenue codes. The bill specifies diagnoses according to the International Classification of Diseases, Ninth Edition (ICD-9-CM) codes. Inpatient procedures are identified by ICD-9-CM codes, and outpatient procedures are described using the Healthcare Common Procedure Coding System (HCPCS). These are standard systems of identification for all major health insurance claims payers. Submission of information on the CMS-1450 permits Medicare intermediaries to receive consistent data for proper payment;
