AGENCY: Department of Transportation, FAA.

ACTION: Notice of submission deadline.

SUMMARY: On October 1, 1999, the FAA amended the regulations governing takeoff and landing slots and slot allocation procedures at certain High Density Traffic Airports as a result of the "Open Transborder" Agreement between the Government of the United States and the Government of Canada. One element of this final rule established that the deadline for submission of requests for international slots will be published in a Federal Register notice for each scheduling season. The purpose of the amendment is for the FAA deadline for international slots requests to coincide with the International Air Transport Association deadline for submission of international requests.

In accordance with this amendment, the FAA announces in this notice that the deadline for submitting requests for international slots at John F. Kennedy International Airport (JFK) for allocation under 14 CFR 93.217 is October 13, 2005.

Additionally, the FAA has designated Chicago's O'Hare International Airport (O'Hare) as a Level 2, Schedules Facilitated Airport under the IATA Guidelines. As such, the FAA requests carriers intending to conduct international service to O'Hare submit their intended schedules following the same procedures used for submitting requests for slots at JFK.

DATES: Requests for international slots must be submitted no later than October 13, 2005.

DEPARTMENT OF TRANSPORTATION**Federal Railroad Administration****Proposed Agency Information Collection Activities; Comment Request**

AGENCY: Federal Railroad Administration, DOT.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 and its implementing regulations, the Federal Railroad Administration (FRA) hereby announces that it is seeking renewal of the following currently approved information collection activities. Before submitting these information collection requirements (ICRs) for clearance by the Office of Management and Budget (OMB), FRA is soliciting public comment on specific aspects of the activities identified below.

DATES: Comments must be received no later than November 15, 2005.

ADDRESSES: Submit written comments on any or all of the following proposed activities by mail to either: Mr. Robert Brogan, Office of Safety, Planning and Evaluation Division, RRS-21, Federal Railroad Administration, 1120 Vermont Ave., NW., Mail Stop 17, Washington, DC 20590, or Mr. Victor Angelo, Office of Support Systems, RAD-20, Federal Railroad Administration, 1120 Vermont Ave., NW., Mail Stop 35, Washington, DC 20590. Commenters requesting FRA to acknowledge receipt of their respective comments must include a self-addressed stamped postcard stating, "Comments on OMB control number 2130-0505, or OMB control number 2130-0548, or OMB control number 2130-0556." Alternatively, comments may be transmitted via facsimile to (202) 493-6265 or (202) 493-6170, or e-mail to Mr. Brogan at robert.brogan@fra.dot.gov, or to Mr. Victor Angelo at victor.angelo@fra.dot.gov. Please refer to the assigned OMB control number in any correspondence submitted. FRA will summarize comments received in response to this notice in a subsequent notice and include them in its information collection submission to OMB for approval.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Brogan, Office of Planning and Evaluation Division, RRS-21, Federal Railroad Administration, 1120 Vermont Ave., NW., Mail Stop 17, Washington, DC 20590 (telephone: (202) 493-6292) or Victor Angelo, Office of Support Systems, RAD-20, Federal Railroad Administration, 1120 Vermont Ave.,

NW., Mail Stop 35, Washington, DC 20590 (telephone: (202) 493-6470). (These telephone numbers are not toll-free.)

SUPPLEMENTARY INFORMATION: The Paperwork Reduction Act of 1995 (PRA), Public Law 104-13, section 2, 109 Stat. 163 (1995) (codified as revised at 44 U.S.C. 3501-3520), and its implementing regulations, 5 CFR part 1320, require Federal agencies to provide 60-days notice to the public for comment on information collection activities before seeking approval for reinstatement or renewal by OMB. 44 U.S.C. 3506(c)(2)(A); 5 CFR 1320.8(d)(1), 1320.10(e)(1), 1320.12(a). Specifically, FRA invites interested respondents to comment on the following summary of proposed information collection activities regarding (i) whether the information collection activities are necessary for FRA to properly execute its functions, including whether the activities will have practical utility; (ii) the accuracy of FRA's estimates of the burden of the information collection activities, including the validity of the methodology and assumptions used to determine the estimates; (iii) ways for FRA to enhance the quality, utility, and clarity of the information being

collected; and (iv) ways for FRA to minimize the burden of information collection activities on the public by automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submission of responses). See 44 U.S.C. 3506(c)(2)(A)(I)-(iv); 5 CFR 1320.8(d)(1)(I)-(iv). FRA believes that soliciting public comment will promote its efforts to reduce the administrative and paperwork burdens associated with the collection of information mandated by Federal regulations. In summary, FRA reasons that comments received will advance three objectives: (i) Reduce reporting burdens; (ii) ensure that it organizes information collection requirements in a "user friendly" format to improve the use of such information; and (iii) accurately assess the resources expended to retrieve and produce information requested. See 44 U.S.C. 3501.

Below is a brief summary of the currently approved ICRs that FRA will submit for clearance by OMB as required under the PRA:

Title: Inspection and Maintenance Standards for Steam Locomotives.
OMB Control Number: 2130-0505.

Abstract: The Locomotive Boiler Inspection Act (LBIA) of 1911 required each railroad subject to the Act to file copies of its rules and instructions for the inspection of locomotives. The original LBIA was expanded to cover the entire steam locomotive and tender and all its parts and appurtenances. This Act then requires carriers to make inspections and to repair defects to ensure the safe operation of steam locomotives. The collection of information is used by tourist or historic railroads and by locomotive owners/operators to provide a record for each day a steam locomotive is placed in service, as well as a record that the required steam locomotive inspections are completed. The collection of information is also used by FRA Federal inspectors to verify that necessary safety inspections and tests have been completed and to ensure that steam locomotives are indeed "safe and suitable" for service and are properly operated and maintained.

Title: Railroad Rehabilitation and Improvement Financing Program.

OMB Control Number: 2130-0548.

Abstract: Prior to the enactment of the Transportation Equity Act for the 21st Century ("TEA 21"), Title V of the Railroad Revitalization and Regulatory Reform Act of 1976 (the "Act"), 45 U.S.C. 821 et seq., authorized FRA to provide railroad financial assistance through the purchase of preference shares (45 U.S.C. 825), and the issuance of loan guarantees (45 U.S.C. 831). The

FRA regulations implementing the preference share program were eliminated on February 9, 1996, due to the fact that the authorization for the program expired (28 FR 4937). The FRA regulations implementing the loan guarantee provisions of Title V of the Act are contained in 49 CFR part 260. Section 7203 of TEA 21, Public Law 105-178 (June 9, 1998), replaces the existing Title V financing programs. The collection of information is used by FRA staff to determine the financial eligibility of applicants for a loan or loan guarantee regarding eligible projects for the improvement/rehabilitation of rail equipment or facilities, the refinancing of outstanding

debt for these purposes, or the development of new intermodal or railroad facilities. The aggregate unpaid principal amounts of obligations can not exceed \$3.5 billion at any one time and not less than \$1 billion is to be available solely for projects benefitting freight railroads other than Class I carriers.

Title: U.S. Locational Requirement for Dispatching U.S. Rail Operations.

OMB Control Number: 2130-0556.

Abstract: Part 241 requires, in the absence of a waiver, that all dispatching of railroad operations that occurs in the United States be performed in this

country, with a minor exception. A railroad is allowed to conduct extraterritorial dispatching from Mexico or Canada in emergency situations, but only for the duration of the emergency. A railroad relying on the exception must provide written notification of its action to the FRA Regional Administrator of each FRA region in which the railroad operation occurs; such notification is not required before addressing the

emergency situation. The information collected under this rule will be used as part of FRA's oversight function to ensure that extraterritorial dispatchers comply with applicable safety regulations.

Federal Railroad Administration
Petition for Waiver of Compliance

In accordance with part 211 of title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) received a request for a waiver of compliance with certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

Grand Canyon Railway
 [Waiver Petition Docket Number FRA–2005–22129]

The Grand Canyon Railway (GCRX) seeks a waiver of compliance with the requirements of 49 CFR 221.14, [Rear End Marking Device], published July 10, 1986. The regulation require trains be equipped with at least one rear end marking device, which has been approved by FRA in accordance with

the procedures included in Appendix A of the regulation. GCRX seeks to use a "Adlake No. 270" as the rear end marking device on their excursion passenger trains, citing that the historical value would add to the ambiance of their historic railroad. Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number (FRA–2005–22129) and must be submitted to the Docket Clerk, DOT Docket Management Facility, Room PL–401 (Plaza Level), 400 7th Street, SW., Washington, DC 20590. Long Island Rail Road
 [Docket Number FRA–2005–21964]

The Long Island Rail Road (LIRR) seeks a waiver of compliance from certain provisions of the Railroad Operating Practices regulations, 49 CFR part 218, regarding blue signal protection of workers. Specifically, the LIRR requests relief from the requirements of 49 CFR 218.29 Alternate methods of protection, at its Diesel Service Facilities in Richmond Hills, NY, and Long Island City, NY. According to LIRR, both facilities are stub-end yards jointly used by both transportation and mechanical forces. These yards function to service, inspect, maintain, and dispatch the diesel passenger fleet for the LIRR. Each facility has a speed limit of 5 mph, with fixed derails on each service track and
