

S, A517 grade S, or their proprietary equivalents; (6) ball bearing steels; (7) tool steels; and (8) silicon manganese steel or silicon electric steel. The merchandise subject to these orders is currently classifiable in the HTSUS under subheadings: 7208.40.3030, 7208.40.3060, 7208.51.0030, 7208.51.0045, 7208.51.0060, 7208.52.0000, 7208.53.0000, 7208.90.0000, 7210.70.3000, 7210.90.9000, 7211.13.0000, 7211.14.0030, 7211.14.0045, 7211.90.0000, 7212.40.1000, 7212.40.5000, 7212.50.0000, 7225.40.3050, 7225.40.7000, 7225.50.6000, 7225.99.0090, 7226.91.5000, 7226.91.7000, 7226.91.8000, 7226.99.0000. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise covered by these orders is dispositive.

Regarding the scope of the order for Japan, the following additional exclusions apply with respect to abrasion-resistant steels: NK-EH-360 (NK Everhard 360) and NK-EH-500 (NK Everhard 500). NK-EH-360 has the following specifications: (a) Physical Properties: Thickness ranging from 6–50 mm, Brinell Hardness: 361 min.; (b) Heat Treatment: controlled heat treatment; and (c) Chemical Composition (percent weight): C: 0.20 max., Si: 0.55 max., Mn: 1.60 max., P: 0.030 max., S: 0.030 max., Cr: 0.40 max., Ti: 0.005–0.020, B: 0.004 max. NK-EH-500 has the following specifications: (a) Physical Properties: Thickness ranging from 6–50 mm, Brinell Hardness: 477 min.; (b) Heat Treatment: Controlled heat treatment; and (c) Chemical Composition (percent weight): C: 0.35 max., Si: 0.55 max., Mn: 1.60 max., P: 0.030 max., S: 0.030 max., Cr: 0.80 max., Ti: 0.005–0.020, B: 0.004 max.

#### Determination

As a result of the determinations by the Department and the ITC that revocation of these AD and CVD orders would be likely to lead to continuation or recurrence of dumping or a countervailable subsidy, and of material injury to an industry in the United States, pursuant to section 751(d)(2) of the Act, the Department hereby orders the continuation of the AD orders on CTL Plate from India, Indonesia, Italy, Japan, and Korea and CVD orders on CTL Plate from India, Indonesia, Italy and Korea. U.S. Customs and Border Protection will continue to collect cash deposits at the rates in effect at the time of entry for all imports of subject merchandise. The effective date of continuation of these orders will be the

date of publication in the **Federal Register** of this Notice of Continuation.

Pursuant to sections 751(c)(2) and 751(c)(6) of the Act, the Department intends to initiate the next five-year review of these orders not later than October 2010.

These five-year (sunset) reviews and notice are in accordance with section 751(c) of the Act and published pursuant to section 777(i)(1) of the Act.

Dated: November 30, 2005.

#### **Fresh Garlic From the People's Republic of China: Extension of Time Limit for the Preliminary Results of New Shipper Reviews**

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**EFFECTIVE DATE:** December 6, 2005.

**FOR FURTHER INFORMATION CONTACT:** Sochietta Moth or Ryan Douglas, AD/CVD Operations, Office 8, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482–0168 and (202) 482–1277, respectively.

#### **Background**

The Department of Commerce (“the Department”) published an antidumping duty order on fresh garlic from the People’s Republic of China on November 16, 1994. *See Antidumping Duty Order: Fresh Garlic from the People’s Republic of China*, 59 FR 28462. On July 11, 2005, the Department published the semi-annual initiation of new shipper reviews in this proceeding (*see Fresh Garlic From the People’s Republic of China; Initiation of New Shipper Reviews*, 70 FR 39733 (July 11, 2005)) for the period November 1, 2004, through April 30, 2005, for three exporters: Shandong Chengshun Farm Produce Trading Company, Ltd. (“Chengshun”); Xi’an XiongLi Foodstuff Co., Ltd. (“XiongLi”); and Shenzhen Fanhui Import and Export Co., Ltd. (“Fanhui”). The preliminary results of these reviews are currently due no later than December 27, 2005. On September 14, 2005, the Department

rescinded the new shipper review with respect to XiongLi, pursuant to XiongLi’s timely submission to withdraw its request to these reviews (*see Fresh Garlic From the People’s Republic of China: Rescission of Antidumping Duty New Shipper Review*, 70 FR 54358 (September 14, 2005)). On October 3, 2005, the Department initiated a new shipper review of fresh garlic from the PRC for Qufu Dongbao Import and Export Trade Co., Ltd. (“Dongbao”) (*see Fresh Garlic From the People’s Republic of China: Initiation of Antidumping Duty New Shipper Review*, 70 FR 57561 (October 3, 2005)). The preliminary results to these reviews are currently due no later than March 22, 2006. On October 26, 2005, the Department initiated a new shipper review of fresh garlic from the PRC for Anqiu Friend Food Co., Ltd. (“Anqiu Friend”) (*see Fresh Garlic From the People’s Republic of China: Initiation of Antidumping Duty New Shipper Review*, 70 FR 61787 (October 26, 2005)). The preliminary results to this review are currently due no later than April 18, 2006.

#### **Extension of Time Limit for Preliminary Results**

Section 751(a)(2)(B)(iv) of the Tariff Act of 1930, as amended (the Act), provides that the Department will issue the preliminary results of a new shipper review of an antidumping duty order within 180 days after the day on which the review was initiated (*see also*, 19 CFR 351.214 (i)(1) (2005)). The Act provides further that the Department may extend that 180-day period to 300 days if it determines that the case is extraordinarily complicated (19 CFR 351.214 (i)(2)).

The Department has determined that these reviews are extraordinarily complicated and that it is not practicable to complete the preliminary results of these reviews by the current deadlines of December 27, 2005, March 22, 2006, and April 18, 2006. There are significant and complicated issues surrounding the Department’s normal value calculation, particularly with respect to the valuation of the fresh garlic bulb. The Department requires additional time to properly analyze the respondents’ questionnaires responses, issue supplemental questionnaires, and conduct any appropriate verifications in these new shipper reviews. Therefore, in accordance with section 751(a)(2)(B)(iv) of the Act and 19 CFR 351.214(i)(2), the Department is extending the time limit for the preliminary results to these reviews of Chengshun and Fanhui by 120 days, until no later than April 26, 2006. The

Department is also extending the time limits for the preliminary results of Dongbao by 35 days and for Anqiu Friend by 8 days, until no later than April 26, 2006. Thus, the Department will issue the preliminary results for Dongbao and Anqiu Friend concurrently with the preliminary results for Chengshun and Fanhui on April 26, 2006.

We are issuing this notice in accordance with sections 751(a)(3)(A) and 777(i) of the Act.

Dated: November 30, 2005.

#### Applications for Duty-Free Entry of Scientific Instruments

Pursuant to Section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether instruments of equivalent scientific value, for the purposes for which the instruments shown below are intended to be used, are being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be filed within 20 days with the Statutory Import Programs Staff, U.S. Department of Commerce, Washington, D.C. 20230. Applications may be examined between 8:30 A.M. and 5:00 P.M. in Suite 4100W, U.S. Department of Commerce, Franklin Court Building, 1099 14th Street, NW, Washington, DC. Docket Number: 05-047. Applicant: Dartmouth College, Thayer School of Engineering, HB 8000 Dartmouth College, Hanover, NH 03755-8000. Instrument: Nano Magneto-optic Kerr Effect Microscope. Manufacturer: Durham Magneto Optics, Ltd., UK. Intended Use: The instrument is intended to be used to study the Kerr effect which is the rotation of the polarization of light under the influence of time-varying magnetic fields in three axes. Transverse, longitudinal, and polar Kerr effects will be measured as well as time-varying combinations of these. Thin layers of several magnetic alloys inside of dielectric structures will be deposited to enhance the effect of the magnetic field to measure magnetic

properties of weakly magnetic materials, and to maximize the polarization rotation of Kerr-effect materials.

Application accepted by Commissioner of Customs: October 28, 2005.

Docket Number: 05-048. Applicant: Purdue University, 401 South Grant Street, West Lafayette, IN 47907.

Instrument: Electron Microscope, Model Nova 200 NanoLab. Manufacturer: FEI Company, The Netherlands. Intended Use: The instrument is intended to be used for instruction in the following courses:

(1) Microstructural Characterization Techniques

(2) Introduction to Scanning Electron Microscopy

(3) Introduction to Transmission Electron Microscopy

(4) Transmission Electron Microscopy and Crystal Imperfections.

It will also be used in individualized instruction for MS and PhD Theses.

Application accepted by Commissioner of Customs: November 10, 2005.

Docket Number: 05-049. Applicant: Purdue University, 401 South Grant Street, West Lafayette, IN 47907.

Instrument: Electron Microscope, Model Technai G<sup>2</sup> F30 S-TWIN. Manufacturer: FEI Company, The Netherlands.

Intended Use: The instrument is intended to be used for instruction in the following courses:

(1) Microstructural Characterization Techniques

(2) Introduction to Scanning Electron Microscopy

(3) Introduction to Transmission Electron Microscopy

(4) Transmission Electron Microscopy and Crystal Imperfections.

It will also be used in individualized instruction for MS and PhD Theses.

Application accepted by Commissioner of Customs: November 10, 2005.

Docket Number: 05-050. Applicant: The Ohio State University, Materials Science and Engineering, 2041 College Road,

Columbus, OH 43210. Instrument: Electron Microscope, Model Titan F30 S-TWIN. Manufacturer: FEI Company, The Netherlands. Intended Use: The instrument is intended to be used in a multi-disciplinary central instrumentation facility and will be used to study many different types of solid state materials. It will be used for general morphological and structural studies of ceramics and metals, including high-temperature superconductors, high-temperature metal alloys, evaporated metal films,

silicon-germanium quantum dots, soils and geological materials, polymers and possibly some biological samples. It will be used to measure the morphology and orientation of grains and particles, as well as the structure, long and short range ordering, number and type of defects and the elemental composition of various phases in the materials.

Application accepted by Commissioner of Customs: November 16, 2005.

Docket Number: 05-051. Applicant: The Rockefeller University, 1230 York Avenue, New York, NY 10021.

Instrument: Electron Microscope, Model Technai G<sup>2</sup> 12 Bio Twin. Manufacturer: FEI Company, The Netherlands.

Intended Use: The instrument is intended to be used in a central facility that is available for use by all researchers at the University. The center provides highly specialized state-of-the-art equipment for both optical and electron microscopy, as well as training in its use. The staff are available to provide experimental assistance and advice. About 65 of 75 of the laboratories will be used by a wide variety of researchers working on a broad range of experimental systems, from viruses and bacteria to sections of brain tissue. The new very high resolution microscope for cell biology will allow visualization of a single cell or bacterium filling an 8 x 11 page.

Application accepted by Commissioner of Customs: November 18, 2005.

Gerald A. Zerdy,

*Program Manager, Statutory Import Programs Staff.*

#### Export Trade Certificate of Review

**ACTION:** Notice of application.

**SUMMARY:** Export Trading Company Affairs ("ETCA"), International Trade Administration, Department of Commerce, has received an application for an Export Trade Certificate of Review. This notice summarizes the conduct for which certification is sought and requests comments relevant to whether the Certificate should be issued.

**FOR FURTHER INFORMATION CONTACT:**

Jeffrey Anspacher, Director, Export Trading Company Affairs, International Trade Administration, by telephone at (202) 482-5131 (this is not a toll free number) or E-mail at [oetca@ita.doc.gov](mailto:oetca@ita.doc.gov).
