**ACTION:** Invitation for public comments on a requested administrative waiver of the Coastwise Trade Laws for the vessel *Indigo Star*.

**SUMMARY:** As authorized by Public Law 105-383 and Public Law 107-295, the

If MARAD determines, in accordance with Public Law 105-383 and MARAD's regulations at 46 CFR part 388 (68 FR 23084; April 30, 2003), that the issuance of the waiver will have an unduly adverse effect on a U.S.-vessel builder or a business that uses U.S.-flag vessels in that business, a waiver will not be granted. Comments should refer to the docket number of this notice and the vessel name in order for MARAD to properly consider the comments. Comments should also state the commenter's interest in the waiver application, and address the waiver criteria given in § 388.4 of MARAD's regulations at 46 CFR part 388.

### National Highway Traffic Safety Administration

[Docket No. NHTSA 2005-22118; Notice 2]

#### Eaton Aeroquip, Inc., Grant of Petition for Decision of Inconsequential Noncompliance

Eaton Aeroquip, Inc. (Eaton) has determined that the end fittings that it produced for nylon air brake hoses do not comply with S7.2.2(d) of 49 CFR 571.106, Federal Motor Vehicle Safety Standard (FMVSS) No. 106, "Brake hoses." Pursuant to 49 U.S.C. 30118(d) and 30120(h), Eaton has petitioned for a determination that this noncompliance is inconsequential to motor vehicle safety and has filed an appropriate report pursuant to 49 CFR part 573, "Defect and Noncompliance Reports." Notice of receipt of a petition was published, with a 30-day comment period, on August 25, 2005, in the **Federal Register** (70 FR 49972). NHTSA received no comments.

Affected are a total of approximately 7,784,614 end fittings produced from 2001 to June 30, 2005, plus an indeterminate number of end fittings produced prior to 2001 for which records are not available (Eaton acquired the end fitting manufacturing business on November 1, 2002). S7.2.2(d) of FMVSS No. 106 requires that each fitting shall be etched, embossed, or stamped with

(d) The \* \* \* outside diameter of the plastic tubing to which the fitting is properly attached expressed in inches or fractions of inches or in millimeters followed by the letters OD \* \* \*.

The subject end fittings are missing the letters OD from their labels.

Eaton believes that the noncompliance is inconsequential to motor vehicle safety and that no corrective action is warranted. Eaton states that the purpose of the letters OD on the label is to indicate that the measurement refers to the outside
