Agency: National Highway Traffic Safety Administration.

Title: Reporting of Information and Documents About Potential Defects.

OMB Number: 2127-0616.

Type of Request: Extension of currently approved collection.

Abstract: Under Chapter 301 of Title 49 of the United States Code, manufacturers of motor vehicles and items of motor vehicle equipment are periodically required to submit certain information to NHTSA, including information about claims and notices about deaths and serious injury, property damage data, communications to customers and others, and information on incidents resulting in fatalities or serious injuries from possible defects in vehicles or equipment in the United States or in identical or substantially similar vehicles or equipment in foreign countries. The statute also authorized NHTSA to require the submission of other data that may assist in the identification of safety-related defects in vehicles and equipment.

Information and documents submitted are intended to provide NHTSA with "early warning" of potential safety-related defects in motor vehicles and motor vehicle equipment. NHTSA will rely on the information provided (as well as other relevant information) in deciding whether to open safety defect investigations. Please note that the currently approved ICR, "Reporting of Information About Foreign Safety Recalls and Campaigns Related to Potential Defects" (OMB Control Number 2127-0620) is incorporated with this request for collections.

Affected Public: Manufacturers of motor vehicles and motor vehicle equipment sold in the U.S.

Estimated Total Annual Burden: The annual burden is estimated to be 84,218 hours. The estimated annual cost is \$8,105,551.

Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Issued on: October 13, 2005.

Title: 49 CFR 571.403, Platform lift systems for motor vehicles and 49 CFR 571.404, Platform lift installations in motor vehicles.

OMB Number: 2127-0621.

Type of Request: Extension of a currently approved collection.

Abstract: FMVSS No. 403, Platform lift systems for motor vehicles, establishes minimum performance standards for platform lifts designed for installation on motor vehicles. Its purpose is to prevent injuries and fatalities to passengers and bystanders during the operation of platform lifts that assist persons with limited mobility in entering and leaving a vehicle. FMVSS No. 404, Platform lift installations in motor vehicles, places specific requirements on vehicle manufacturers or alterers who install platform lifts in new vehicles. Under these regulations, lift manufacturers must certify that their lifts meet the requirements of FMVSS No. 403 and must declare the certification on the owner's manual insert, the installation instructions and the lift operating instruction label. Certification of compliance with FMVSS No. 404 is on the certification label already required

of vehicle manufacturers and alterers under 49 CFR part 567. Therefore, lift manufacturers must produce an insert that is placed in the vehicle owner's manual, installation instructions and one or two labels that are placed near the controls of the lift. The requirements and our estimates of the hour burden and cost to lift manufacturers are given below. There is no burden to the general public.

Affected Public: Platform lift manufacturers and vehicle manufacturers/alterers that install platform lifts in new motor vehicles before first retail sale.

Estimated Total Annual Burden: 144 hours and \$9,315.32.

ADDRESSES: Send comments, within 30 days, to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 17th Street, NW., Washington, DC 20503, Attention NHTSA Desk Officer.
