

and price stability should be kept roughly equal. With underlying inflation expected to be contained, the Committee believes that policy accommodation can be removed at a pace that is likely to be measured. Nonetheless, the Committee will respond to changes in economic prospects as needed to fulfill its obligation to maintain price stability.”

By order of the Federal Open Market Committee, May 26, 2005.

Vincent R. Reinhart,

Secretary, Federal Open Market Committee.

[Program Announcement AA082]

National Foundation for the Centers for Disease Control and Prevention, Inc.; Notice of Intent To Fund Single Eligibility Award

A. Purpose

The purpose of this grant is to provide funding for the administrative expenses of the NFCDC. An illustrative, non-exhaustive list of administrative expenses includes administrative personnel salaries, benefits, and expenses; administrative travel; administrative equipment; office supplies; utilities, such as water, electricity, and gas; printing; postage; communications; and rent.

Authority: Section 399G of the Public Health Service Act, [42 U.S.C. 280e-11], as amended; Section 201 of Public Law 102-531 (1992)

The Catalog of Federal Domestic Assistance number for this program is 93.283.

B. Eligible Applicant

Assistance will be provided only to National Foundation for the Centers for Disease Control and Prevention, Inc. (NFCDC). No other applications are solicited.

C. Funding

Approximately \$500,000 is available in FY 2005 to fund this award. It is expected that the award will begin on or before August 15, 2005, and will be made for a 12-month budget period within a project period of up to five years. Funding estimates may change.

D. Where To Obtain Additional Information

For general comments or questions about this announcement, contact: Technical Information Management Section, CDC Procurement and Grants Office, 2920 Brandywine Road, Atlanta, GA 30341, telephone: 770-488-2700.

For technical questions about this program, contact: Michelle Wilson, MSW, Project Officer, Centers for Disease Control and Prevention (CDC), 1600 Clifton Road NE., Mailstop D-28, Atlanta, GA 30333, telephone: 404-639-5947, e-mail: MWilson2@cdc.gov.

Dated: May 31, 2005.

William P. Nichols,

Director, Procurement and Grants Office, Centers for Disease Control and Prevention.

Centers for Disease Control and Prevention

Office of Global Health Cooperative Agreement for: Global Capacity through International Non-Governmental Organization (NGO) Partnership

Announcement Type: New.
Funding Opportunity Number: PA AA123.

Catalog of Federal Domestic Assistance Number: 93.067.

Key Dates: Application Deadline: July 6, 2005.

I. Funding Opportunity Description

Authority: Section 301 and 307 of the Public Health Service Act, [42 U.S.C. Sections 241 and 242(l)], as amended.

Background: The Centers for Disease Control and Prevention (CDC)'s global programs are an essential component of promoting health and preventing disease in the United States and abroad, including ensuring rapid detection and response to emerging health threats. CDC cannot accomplish these efforts alone and therefore seeks to further its work and interests through partnerships with other organizations. The Office of Global Health seeks to collaborate with an international Non-Governmental Organization (NGO) in a public-private partnership. Working with a NGO with a strong international presence will leverage existing resources to achieve health goals. CDC's knowledge and abilities as a scientific organization can be effectively joined with an international NGO that has

demonstrated ability to effectively implement public health interventions in many different countries. This international NGO's experience in community-based interventions in a variety of health topic areas will enable public health science to be readily disseminated into the field. The intent of this announcement is to enhance collaboration through building a public-private partnership, and to create impact in health protection and promotion goals.

This partnership will focus in two areas: Global Disease Detection (GDD) and a selection of the United Nations Millennium Development Goals (MDG). The goal of the GDD initiative is to develop national and international capacity to better detect and respond to infectious disease outbreaks of potential worldwide importance, whether natural or intentional. CDC is working to recognize infectious disease outbreaks faster, improve the ability to control and prevent outbreaks, and to detect emerging microbial threats. Through this cooperative agreement CDC intends to work with an international NGO partner to pilot a program to increase disease detection and surveillance in non-traditional or resource poor settings. The goal of this pilot is to build disease response and detection capacity in an international NGO at the local level through communities, organizations, and the Ministry of Health (MOH).

The Millennium Development Goals (MDG) are a framework of eight goals, 18 targets, and 48 measures that were developed by experts from the United Nations (UN), the International Monetary Fund (IMF), the World Bank, and the Organization for Economic Cooperation and Development (OECD). These goals were unanimously adopted by the member states of the UN in September 2000 to focus on outcomes that promote human development as the key to sustaining social and economic progress. Several of these goals target areas of focus for the CDC including maternal mortality, environmental health, and early childhood health and development. Although the MDGs are visionary in nature, projects supported through this cooperative agreement have the potential for being antecedent steps toward attaining these goals through increased service provision, learning capacity, and demonstrated competence. The MDGs are eight goals that outline areas of action, 18 targets that further define this involvement, and 48 indicators that provide measurable benchmarks for interventions. See the following UN
