Following introductions, the Council will receive reports from the Council Chairman and Executive Director, the NMFS Regional Administrator, Northeast Fisheries Science Center and Mid-Atlantic Fishery Management Council liaisons, NOAA General Counsel and representatives of the U.S. Coast Guard, NMFS Enforcement and the Atlantic States Marine Fisheries Commission. The Magnuson-Stevens Act Reauthorization Committee will provide recommendations for Council approval concerning positions on changes to the Act. The rest of the day will be spent on proposed Amendment 1 to the Herring Fishery Management Plan (FMP). During the Wednesday morning session, the Council will review issues identified at recent port meetings and related to fishery regulations and safety at sea. Follow up actions may be recommended. An open public comment period will be available for items not listed on the agenda, followed by a report from the chairman of the Transboundary Management Guidance Committee. That report will include a review of discussions about an alternative to the current harvest strategy for haddock. There also will be a report from the Scientific and Statistical Committee about an alternative model to assess groundfish stocks. The Council will then take initial action on Framework Adjustment 42 to the Northeast Multispecies FMP by formally identifying what measures will be analyzed and further considered in the adjustment. NOAA Fisheries scientists will report to the Council on invasive colonial tunicates now found on Georges Bank. At the end of the day final action on proposed Framework Adjustment 1 to the Spiny Dogfish FMP will be considered. Measures will address a modification to the plan that would allow multi-year specifications to be set for the fishery.
