

Washington, DC, facility for unrestricted use. The FDA/CFSAN was authorized by NRC from 1965 to use radioactive materials for research and development purposes at the site. On January 31, 2005, the FDA/CFSAN requested that NRC release the facility for unrestricted use. The FDA/CFSAN has conducted surveys of the facility and provided information to the NRC to demonstrate that the site meets the license termination criteria in subpart E of 10 CFR part 20 for unrestricted use.

The NRC staff has prepared an EA in support of the license amendment. The facility was remediated and surveyed prior to the licensee requesting the license amendment. The NRC staff has reviewed the information and final status survey submitted by the FDA/CFSAN. Based on its review, the staff has determined that there are no additional remediation activities necessary to complete the proposed action. Therefore, the staff considered the impact of the residual radioactivity at the facility and concluded that since the residual radioactivity meets the requirements in subpart E of 10 CFR part 20, a Finding of No Significant Impact is appropriate.

III. Finding of No Significant Impact

The staff has prepared the EA (summarized above) in support of the license amendment to release the facility for unrestricted use. The NRC staff has evaluated the FDA/CFSAN's request and the results of the surveys and has concluded that the completed action complies with the criteria in subpart E of 10 CFR part 20. The staff has found that the radiological environmental impacts from the action are bounded by the impacts evaluated by NUREG-1496, Volumes 1-3, "Generic Environmental Impact Statement in Support of Rulemaking on Radiological Criteria for License Termination of NRC-Licensed Facilities" (ML042310492, ML042320379, and ML042330385). The staff has also found that the non-radiological impacts are not significant. On the basis of the EA, the NRC has concluded that the environmental impacts from the action are expected to be insignificant and has determined not to prepare an environmental impact statement for the action.

May 27, 2005.

Pursuant to Section 11A of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 11Aa3-2 thereunder,² notice is hereby given that on April 27, 2005, the Intermarket Trading System Operating Committee ("ITSOC") submitted to the Securities and Exchange Commission ("Commission") a proposed amendment ("Twenty First Amendment") to the

repeated ITS Plan.³ The purpose of the proposed amendment is to recognize the automatic generation of outgoing ITS commitments in circumstances where members in the Participants' markets send such commitments contemporaneously with trading at inferior prices, disseminating a locking bid/offer in their own market, or a block trade.

I. Description of the Proposed Amendment

The ITSOC proposes to amend the restated ITS Plan to recognize the automatic generation of outgoing ITS commitments in circumstances where members in the Participants' markets send such commitments contemporaneously with trading at inferior prices, disseminating a locking bid/offer in their own market, or a block trade.

The ITSOC proposes to amend the restated ITS Plan to add a new paragraph (G) to section 6(a)(ii). Proposed new language is *italicized*.

(G) Description Applicable to Contemporaneous Automatic Formatting and Sending Commitments

Notwithstanding the descriptions set forth in section 6(a)(ii)(A), (B), (D) and (F) above, a Participant (and, in the case of the NASD, ITS/CAES Market Makers) may automatically format and automatically send a commitment to trade to one or more other Participants, under the following circumstances: Each such commitment is sent contemporaneously with: (i) One or more transactions on the market of the sending Participant that, absent the commitment(s), would be considered an Exchange trade-through(s) or a third market participating market center trade-through(s) (both as defined in Exhibit B); (ii) the dissemination by the sending Participant of a locking bid (offer) (as defined in Exhibit B); or (iii) a block trade (as defined in Exhibit C). The term "one or more transactions on the market of the sending Participant" used in clause (i) in the preceding

³ The ITS Plan is a National Market System ("NMS") plan, which was designed to facilitate intermarket trading in exchange-listed equity securities based on current quotation information emanating from the linked markets. The ITS Participants include the American Stock Exchange LLC ("Amex"), the Boston Stock Exchange, Inc. ("BSE"); the Chicago Board Options Exchange, Inc. ("CBOE"); the Chicago Stock Exchange ("CHX"), Inc., the Cincinnati Stock Exchange, Inc. ("CSE"), the National Association of Securities Dealers, Inc. ("NASD"), the New York Stock Exchange, Inc. sentence means, in addition to the transaction that would be priced lower than superior priced bid(s) or higher than superior priced offer(s) of another Participant(s), those one or more transactions priced at such superior priced bid(s) or offer(s).

The ITSOC provided the following example that demonstrates the functioning of clause (i) in subsection G, utilizing the CHX as the sending Participant:

a. CHX Receives Order: Buy 2000 at-the-market. Member handling execution of order determines to complete order at 45.56, necessitating satisfaction of superior priced offers on other Participant markets.

NBBO: N—45.50, 45.53; B—5x2.

B	45.30	45.53	1x2
