SUPPLEMENTARY INFORMATION:

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal.

Communications should identify Docket FAA 2005–20417; Airspace Docket 05–ANM–06, and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this action must submit, with those comments, a self-addressed stamped postcard on which the following statement is made: “Comments to Docket FAA 2005–20417; Airspace Docket 05–ANM–06.” The postcard will be date/time stamped and returned to the commenter.

Persons interested in being placed on a mailing list for future NPRMs should contact the FAA's Office of Rulemaking, (202) 267–9677, to request a copy of Advisory Circular No. 11–2A, Notice of Proposed Rulemaking Distribution System, which describes the application procedures.

The Proposal

This action would amend Title 14 Code of Federal Regulations, part 71 (14 CFR part 71) by revising Class E airspace at Wenatchee, WA. The establishment of a new Standard ILS SIAP requires additional Class E controlled. Additional Class E airspace extending upward from 700 feet or more above the surface of the earth is necessary for the safety of IFR aircraft executing the new Standard ILS SIAP at Wenatchee/Pangborn Memorial Airport, Wenatchee, WA. Controlled airspace is necessary where there is a requirement for IFR services, which include arrival, departure, and transitioning to/from the terminal or en route environment.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.9M dated August 30, 2004, and effective September 16, 2004, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in this order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation; (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

1. The authority citation for 14 CFR part 71 continues to read as follows:

14 CFR Part 71

[Docket FAA 2003–16329; Airspace Docket 02–ANM–01]

Proposed Amendment to Class E Airspace; Cheyenne, WY

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This proposal would revise the Class E airspace at Cheyenne, WY. New aircraft routes sequenced through this airspace from the en route

environment to/from Denver's metropolitan airports have made this proposal necessary. This proposed increase of controlled airspace extending upward from 1,200 feet above the surface of earth is necessary for the safety of those aircraft transitioning to/from Denver's metropolitan airports and the en route environment.

DATES: Comments must be received on or before May 18, 2005.

Send comments on this proposal to the Docket Management System, U.S. Department of Transportation, Room Plaza 401, 400 Seventh Street, SW., Washington, DC 20590-0001. You must identify Docket FAA 2003-16329; Airspace Docket 02-ANM-01, at the beginning of your comments. You may also submit comments through the Internet at <http://dms.dot.gov>. You may review the public docket containing the proposal, any comments received, and any final dispositions in person in the Docket Office between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The Docket Office (telephone number 1 (800) 647-5527) is on the plaza level of the Department of Transportation NASSIF Building at the above address.

An informal docket may also be examined during normal business hours at the Office Federal Aviation Administration, Air Traffic Organization, Western En Route and Oceanic Area Office, Airspace Branch, ANM-520, 1601 Lind Avenue, SW., Renton, WA 98055.

The Proposal

This action proposes to amend Title 14 Code of Federal Regulations, part 71 (14 CFR part 71) by revising Class E airspace at Cheyenne, WY. This proposal would revise the Class E airspace at Cheyenne, WY, by providing additional controlled airspace extending upward from 1,200 feet above the surface of the earth. The additional airspace is necessary for the safety of aircraft being sequenced by ATC through this airspace from the en route environment and to/from Denver's metropolitan area airports.

Class E airspace designations are published in Paragraph 6005 of FAA Order 7400.9M, dated August 30, 2004, and effective September 16, 2004, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11013; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
