

certification, including the Copyright Office seal and the signature of the Register of Copyrights.

Certain incidental information unrelated to the substance of the copyright claim will be eliminated from the new certificate. The omitted material may include the instructional text found on the paper form, some headings of lines left blank where the information is not required, the "checked by" line in the "Copyright Office use only" space, the deposit account name and number, and the handwritten signature. Also, the mailing address for the certificate will be printed on a separate sheet of paper to facilitate mailing.

3. Copyright Office Practices in Administering the Pilot

When appropriate, the Copyright Office will continue to make amendments to information on the Form PA application, with the authorization of the applicant by telephone call, letter, or email. In a change from the current procedure, such amendments will no longer appear as annotations on the certificate; instead, the certificate will show only the corrected information. The applicant's authorization for the amendment, as well as all correspondence and records of phone calls, will be stored in a permanent electronic file created for every registration. This information will be part of the public record, and persons wishing to obtain access to or copies of this information may do so under existing procedures set forth at 37 CFR 201.2.

In limited situations, following existing practices, the Copyright Office will make annotations without contacting the applicant, when the information is clear from the deposit copy or other registration materials. In addition, annotations may be added to the certificate to clarify the scope of the copyright claim in accordance with the copyright law or Copyright Office regulations. Examples include: noting the nature of the deposit copy; noting the presence of preexisting material clearly identified as such in the deposit copy; and commenting on a reference to an element not subject to copyright protection under 17 USC 102(b), e.g. "idea," or 37 CFR 202.1, e.g. "title."

4. Transition Period

Certificates in the new format will be produced only for applications included in the pilot project and initially received in the Copyright Office on or after the start date, February 14, 2005. For applications for motion pictures and other class PA audiovisual works

already in process in the Copyright Office on that date, including those for which correspondence is pending, certificates will continue to be issued in the current format, even after the pilot begins.

Dated: January 14, 2005.
