

These permits grant approval to the facilities identified in the permits to operate the air emission sources identified in the permits in accordance with the terms and conditions of the respective permits. This notice is published in accordance with 40 CFR 71.11(l)(7), which requires notice of any final agency action regarding a Federal operating permit to be published in the **Federal Register**.

The Federal part 71 operating permits issued by EPA to the facilities identified above incorporate all applicable air quality requirements and require monitoring to ensure compliance with these requirements. Submittal of periodic reports of all required monitoring, as well as submittal of an annual compliance certification, are also required. The Federal operating permits have a term not to exceed five years, and a timely and complete application for permit renewal must be submitted to EPA prior to permit expiration in order to continue operation of the permitted source.

The provisions of 40 CFR part 71 govern issuance of these permits. EPA published a notice and opportunity to comment in a newspaper of general circulation in the area of the facility for each permit issued. In accordance with the requirements of 40 CFR 71.11(j), EPA responded to all comments received on these permits. Pursuant to 40 CFR 71.11(i), EPA provided copies of the final permits to the applicant and each person who submitted written comments on a permit or requested notice of the final permit decision. No one petitioned for a review of any of the final permits by the Environmental Appeals Board within 30 days of receipt of the final permits in accordance with 40 CFR 71.11(l). Thus, pursuant to 40 CFR 71.11(i) and (l) the listed permits became final on the dates indicated in the table above. Since no one petitioned the Environmental Appeals Board within 30 days of receipt of the final permits, and such an action is a prerequisite to seeking judicial review of final agency action (see 40 CFR 71.11(l)(4)), the 24 final permits issued to the facilities listed in Table 1 are not subject to the judicial review process provisions of section 307(b) of the Clean Air Act.

40 CFR 71.11(l)(7) requires notice of any final agency action regarding a federal operating permit to be published in the **Federal Register**. This notice satisfies that requirement.

Notice of Availability of "Award of Grants and Cooperative Agreements for the Special Projects and Programs Authorized by the Agency's FY 2005 Appropriations Act"

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of document availability.

SUMMARY: EPA is announcing the availability of a memorandum entitled "Award of Grants and Cooperative Agreements for the Special Projects and Programs Authorized by the Agency's Fiscal Year (FY) 2005 Appropriations Act." This memorandum provides information and guidelines on how EPA will award and administer grants for the special projects and programs identified in the State and Tribal Assistance Grants (STAG) account of the Agency's FY 2005 Appropriations Act (Pub. L. 108-447). The STAG account provides budget authority for funding identified water, wastewater and groundwater infrastructure projects, as well as budget authority for funding the United States-Mexico Border Program, the Alaska Rural and Native Villages Program, and the Long Island Sound Restoration Program. Each grant recipient will receive a copy of this document from EPA.

ADDRESSES: The subject memorandum may be viewed and downloaded from EPA's homepage, <http://www.epa.gov/owm/mab/owm0329.pdf>.

Science Advisory Board Staff Office; Notification of an Upcoming Science Advisory Board Meeting

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The EPA Science Advisory Board (SAB) Staff Office announces a public teleconference meeting of the

chartered SAB to discuss two draft SAB reports.

DATES: July 13, 2005, 3-5 p.m. (eastern time).

ADDRESSES: The meeting for this review will be held by telephone only.

FOR FURTHER INFORMATION CONTACT:

Members of the public who wish to obtain further information regarding this teleconference meeting may contact Mr. Thomas O. Miller, Designated Federal Officer (DFO), U.S. EPA Science Advisory Board via phone (202-343-9982) or e-mail at miller.tom@epa.gov.

The SAB Mailing address is: U.S. EPA, Science Advisory Board (1400F), 1200 Pennsylvania Avenue, NW., Washington, DC 20460. General information about the SAB, as well as any updates concerning the meeting announced in this notice, may be found on the SAB Web site at: <http://www.epa.gov/sab>.

SUPPLEMENTARY INFORMATION: The purpose of this SAB telephone conference meeting is to conduct a final public review and discussion of two draft SAB reports. One is *Identifying and Calculating Economic Benefit That Goes Beyond Avoided and/or Delayed Costs: An SAB Advisory* and the other is *Advisory Review of EPA's Draft Ecological Benefits Assessment Strategic Plan; An Advisory by the SAB Committee on Valuing the Protection of Ecological Systems and Services*. The focus of the meeting is to consider whether: (i) The original charge questions to the SAB review panel have been adequately addressed in the draft report; (ii) the draft report is clear and logical; (iii) the conclusions drawn, or recommendations made in the draft report, are supported by the body of the report; and (iv) if there are any obvious technical errors, omissions, or issues that are inadequately dealt with in the draft report.

1. *Illegal Competitive Advantage (ICA) Background Information*—EPA's Office of Enforcement and Compliance Assurance (OECA) requested that the EPA Science Advisory Board review the OECA White Paper entitled *Identifying and Calculating Economic Benefit that Goes Beyond Avoided and/or Delayed Costs*, dated May 25, 2003. The White Paper addressing "illegal competitive advantage" (ICA) issues is related to EPA's policy of recapturing violators' economic benefit from environmental noncompliance. Most of the Agency's cases involving this type of economic benefit focus on the financial gain that arises from delayed and/or avoided pollution control costs. In these situations, the Agency calculates the economic benefit using the Benefits
