## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### 5 CFR Part 5502

RIN 3209-AA15

#### Supplemental Financial Disclosure Requirements for Employees of the Department of Health and Human Services

**AGENCY:** Department of Health and Human Services (HHS).

**ACTION:** Interim final rule.

**SUMMARY:** This interim final rule extends the due date for NIH employees to file a report of prohibited financial interests held on or acquired after February 3, 2005. The reports are now due no earlier than October 3, 2005.

**DATES:** This interim final rule is effective June 28, 2005.

**FOR FURTHER INFORMATION CONTACT:** Edgar M. Swindell, Associate General Counsel, Office of the General Counsel, Ethics Division, Department of Health and Human Services, telephone (202) 690-7258, fax (202) 205-9752.

**SUPPLEMENTARY INFORMATION:** The Executive Branch Financial Disclosure Regulation, 5 CFR part 2634, prescribes rules governing the public and confidential financial disclosure systems established under the Ethics in Government Act. With the approval of the Office of Government Ethics, an agency may supplement those regulations pursuant to 5 CFR 2634.103. In an interim final rule published at 70 FR 5543 on February 3, 2005, HHS added a new part 5502 to title 5. Among other provisions, NIH employees on duty as of the effective date of the interim final rule were required by § 5502.106(c)(3) to report in writing within 60 days after the effective date any financial interest prohibited by 5 CFR 5501.110 that was held on the effective date.

The specified report was due initially on April 4, 2005. The Designated Agency Ethics Official extended the deadline to July 5, 2005, the maximum 90 day period provided under § 5502.105. In response to comments submitted following the publication of the interim final rule, the Department is considering issuing revisions to the HHS supplemental ethics regulations, including part 5502. To allow time for any revisions to be fairly considered, the current reporting date must be deferred. Accordingly, § 5502.106(c)(3) is amended to specify a new due date, October 3, 2005.

For those new entrant or reassigned employees who enter on duty at the NIH after February 3, 2005, and before September 4, 2005, or for incumbent employees who acquire a prohibited financial interest during this period, the due date for the report is also changed to October 3, 2005.

Pursuant to 5 CFR 5501.110(g), the due date for the report determines the divestiture period specified in 5 CFR 2635.403(d), as applied to financial interests prohibited under 5 CFR 5501.110(c) and (d). As a consequence, the new deadline for any required divestitures will be January 2, 2006.

Section 5502.105 is amended to allow the Designated Agency Ethics Official, for good cause, to extend reporting deadlines for reports required under part 5502 during the initial implementation phase for any reporting requirement, without regard to the 90 day maximum specified in the interim final rule.

#### Administrative Procedure Act

Because this interim final rule involves only a procedural matter and extends a financial disclosure reporting deadline applicable to agency personnel, it is exempt under 5 U.S.C. 553(a)(2) and 553(b) from the requirement for notice and comment rulemaking. The deferral of the reporting requirement relieves restrictions under current law and thus is effective upon publication pursuant to 5 U.S.C. 553(d)(1).

#### Regulatory Flexibility Act

This interim final rule will not have a significant economic impact on a substantial number of small entities because the rule amends a personnel provision affecting only HHS employees.

#### Paperwork Reduction Act

This interim final rule does not prescribe information collection requirements that are subject to approval by the Office of Management and Budget.

#### Congressional Review Act

As a provision related to agency personnel, this rulemaking is not a rule as defined in 5 U.S.C. 804, and does not require review by Congress.

#### Executive Orders 12866 and 12988

Because this rule relates to HHS personnel, it is exempt from the provisions of Executive Orders 12866 and 12988.

### I. Background

In 1996, the White House Office of Science and Technology Policy (OSTP) began the process of formulating a uniform government-wide Federal policy on research misconduct. OSTP published a proposed policy on research misconduct in the **Federal Register** at 64 FR 55722, October 14, 1999, and published the final policy at 65 FR 76260, December 6, 2000 (Federal Policy). The Federal Policy is available on the Office of Science Web site at <http://www.sc.doe.gov/misconduct/finalpolicy.pdf>.

The objective of the Federal Policy is to create a uniform policy framework for Federal agencies for the handling of allegations of misconduct in federally funded or supported research. Within this framework, each Federal agency funding or supporting research is expected to fashion its own regulations to accommodate the various types of research transactions in which it is engaged. This rule implements the Federal Policy for DOE including the National Nuclear Security Administration. In keeping with these objectives, these DOE regulations incorporate key aspects of the Federal Policy. In particular, research misconduct is being defined as including fabrication, falsification, or plagiarism in proposing, performing, or reviewing research, or in reporting research results, but not as including honest error or differences of opinion. In addition, a finding of research
