

impacts to traffic and transportation. Other issues identified are impacts to future forest management projects (e.g., fuel hazard reduction projects and fire fighting strategies), Electric and Magnetic Fields and Health Effects, and impacts from noxious weeds.

Permits or Licenses Required

A 50-year term Special Use Easement for the construction, maintenance, and use of the 500-kV transmission line would be authorized to Southern California Edison by the Regional Director of Natural Resource Management of the Forest Service, and a Certificate of Public Convenience and Necessity would be issued by the California Public Utility Commission as part of this decision. Additional permits that may be required of Southern California Edison to construct the proposed project could include: A Permit to Operate issued by the South Coast Air Quality Management District, a National Pollutant Discharge Elimination System General Construction Permit issued by California's Regional Water Quality Control Board, a Section 404 Permit (per Section 404 of the Clean Water Act) issued by the U.S. Army Corps of Engineers, and a Streambed Alteration Agreement (per Section 1601 of the California Fish and Game Code) issued by the California Department of Fish and Game.

Comment Requested

This notice of intent initiates the scoping process that guides the development of the EIS/EIR. The Forest Service is seeking public and agency comment on the proposed project to identify major issues to be analyzed in depth and assistance in identifying potential alternatives to be evaluated. Comments received to this notice, including the names and addresses of those who comment, will be considered as part of the public record on this proposed project, and will be available for public inspection. Comments submitted anonymously will be accepted and considered; however, those who submit anonymous comments will not have standing to appeal the subsequent decision under 36 CFR Part 215. Additionally, pursuant to 7 CFR 1.27(d), any person may request the agency to withhold a submission from the public record by showing how the Freedom of Information Act (FOIA) permits such confidentiality. Persons requesting such confidentiality should be aware that, under the FOIA, confidentiality may be granted in only very limited circumstances, such as to protect trade

secrets. The Forest Service will inform the requester of the agency's decision regarding the request for confidentiality. Where the request is denied, the agency will return the submission and notify the requester that the comments may be resubmitted, without names and addresses, within a specified number of days.

Early Notice of Importance of Public Participation in Subsequent Environmental Review

A draft EIS/EIR will be prepared for comment. The comment period on the draft EIS/EIR will be 45 days from the date the Environmental Protection Agency publishes the notice of availability in the **Federal Register**.

The Forest Service believes, at this early stage, that it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of draft EISs must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the draft environmental EIS stage but that are not raised until after completion of the final EIS may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final EIS/EIR.

To assist the Forest Service in identifying and considering issues and concerns on the proposed project, comments on the draft EIS/EIR should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft EIS/EIR or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of NEPA at 40 CFR 1503.3 in addressing these points.

DEPARTMENT OF COMMERCE

International Trade Administration

[A–428–830]

Notice of Rescission, in Part, of Antidumping Duty Administrative Review: Stainless Steel Bar from Germany.

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: June 28, 2005.

FOR FURTHER INFORMATION CONTACT: Audrey Twyman or Andrew Smith, AD/CVD Operations, Office 1, Import Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone (202) 482–3534 and 202–482–1276, respectively.

SUPPLEMENTARY INFORMATION:

Background

The Department of Commerce (the “Department”) received timely requests for an administrative review of the antidumping duty order on stainless steel bar from Germany with respect to Stahlwerk Ergste Westig GmbH and Ergste Westig South Carolina (collectively “SEW”), and BGH Edelstahl Freital GmbH, BGH Edelstahl Siegen GmbH, BGH Edelstahl Lippendorf GmbH, and BGH Edelstahl Lugau GmbH (collectively “BGH”). On April 22, 2005, the Department published the initiation of an administrative review of SEW and BGH, covering the period March 1, 2004, through February 28, 2005. *See Initiation of Antidumping and Countervailing Duty Administrative Reviews*, 70 FR 20862 (April 22, 2005). On June 14, 2005, SEW timely withdrew its request for an administrative review. SEW’s request was the only request for an administrative review of SEW’s U.S. sales.

Rescission, in Part, of the Administrative Review

Pursuant to the Department’s regulations, the Department will rescind an administrative review “if a party that requested the review withdraws the request within 90 days of the date of publication of notice of initiation of the requested review.” 19 CFR 351.213(d)(1). Since SEW submitted a timely withdrawal of its request for review, and since this was the only request for a review of SEW, the Department is rescinding its antidumping administrative review of SEW in accordance with 19 CFR 351.213(d)(1). Based on this rescission, the administrative review of the antidumping duty order on stainless steel bar from Germany covering the period March 1, 2004, through February 28, 2005, now covers only BGH.

Assessment

The Department will instruct U.S. Customs and Border Protection (“CBP”) to assess antidumping duties on all appropriate entries. Antidumping duties for this rescinded company shall be assessed at rates equal to the cash deposit of estimated antidumping duties required at the time of entry, or withdrawal from warehouse, for consumption, in accordance with 19 CFR 351.212(c)(1)(i). The Department will issue appropriate assessment instructions directly to CBP within 15 days of publication of this notice.

We are issuing and publishing this determination and notice in accordance with section 777(i) of the Tariff Act of

1930, as amended, and 19 CFR 351.213(d)(4).

Dated: June 22, 2005.

Acting Deputy Assistant Secretary for Import Administration.

Certain Pasta from Italy: Final Results of the Eighth Countervailing Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On April 8, 2005, the U.S. Department of Commerce (“the Department”) published in the **Federal Register** its preliminary results of the administrative review of the countervailing duty order on certain pasta from Italy for the period January 1, 2003, through December 31, 2003. We preliminarily found that the countervailing duty rates during the period of review for all of the producers/exporters under review are less than 0.5 percent and are, consequently, *de minimis*. We did not receive any comments on our preliminary results, and we have made no further revisions. The final net subsidy rates for the reviewed companies are listed below in the section entitled “Final Results of Review.”

EFFECTIVE DATE: June 28, 2005.

SUPPLEMENTARY INFORMATION:

Case History

On July 24, 1996, the Department published a countervailing duty order on certain pasta (“pasta” or “subject merchandise”) from Italy. *See Notice of Countervailing Duty Order and Amended Final Affirmative Countervailing Duty Determination: Certain Pasta From Italy*, 61 FR 38544 (July 24, 1996). On July 1, 2004, the Department published a notice of “Opportunity to Request Administrative Review” of this countervailing duty order for calendar year 2003, the period
