BILLING CODE 4160-01-S

DEPARTMENT OF HOMELAND SECURITY
Coast Guard
33 CFR Part 117

[CGD01-05-098]

Drawbridge Operation Regulations: Newtown Creek, Dutch Kills, English Kills, and Their Tributaries, NY

AGENCY: Coast Guard, DHS.

ACTION: Notice of temporary deviation from regulations.

SUMMARY: The Commander, First Coast Guard District, has issued a temporary deviation from the drawbridge operation regulations for the Metropolitan Avenue Bridge, mile 3.4, across English Kills at New York City, New York. Under this temporary deviation the bridge may remain in the closed position from November 14, 2005 through November 20, 2005. This temporary deviation is necessary to facilitate scheduled bridge maintenance.

DATES: This deviation is effective from November 14, 2005 through November 20, 2005.

FOR FURTHER INFORMATION CONTACT: Judy Leung-Yee, Project Officer, First Coast Guard District, at (212) 668-7195.

SUPPLEMENTARY INFORMATION: The Metropolitan Avenue Bridge has a vertical clearance in the closed position of 10 feet at mean high water and 15 feet at mean low water. The existing drawbridge operation regulations are listed at 33 CFR 117.801(e).

The owner of the bridge, New York City Department of Transportation (NYCDOT), requested a temporary deviation from the drawbridge operation regulations to facilitate scheduled bridge repairs.

Under this temporary deviation the NYCDOT Metropolitan Avenue Bridge may remain in the closed position from November 14, 2005 through November 20, 2005.

This deviation from the operating regulations is authorized under 33 CFR 117.35, and will be performed with all

due speed in order to return the bridge to normal operation as soon as possible.

Dated: October 25, 2005.

Gary Kassof,

Bridge Program Manager, First Coast Guard District.

RIN 1625-AA09

Drawbridge Operation Regulation; Tennessee River, Chattanooga, TN

AGENCY: Coast Guard, DHS.

ACTION: Temporary Final rule.

SUMMARY: The Coast Guard is changing the regulation governing the Chief John Ross Drawbridge, mile 464.1, across the Tennessee River at Chattanooga, Tennessee. Under the temporary change, the drawbridge need not open for river traffic and may remain in the closed-to-navigation position from 8 a.m., December 1, 2005 until 8 a.m., July 1, 2006. This temporary change will allow the drawbridge to be maintained in the closed-to-navigation position to allow major repair work to be performed on the bridge.

DATES: This rule is effective from 8 a.m., December 1, 2005 through 8 a.m., July 1, 2006.

ADDRESSES: Comments and material received from the public, as well as documents indicated in this preamble as being available in the docket, are part of docket [CGD08-05-041] and are available for inspection or copying at room 2.107f in the Robert A. Young Federal Building, Eighth Coast Guard District, 1222 Spruce Street, St. Louis, MO 63103-2831 between 8 a.m. and 4 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Mr. Roger K. Wiebusch, Bridge Administrator, (314) 539-3900, extension 2378.

SUPPLEMENTARY INFORMATION:
Regulatory Information

On August 25, 2005, we published a notice of proposed rulemaking (NPRM) entitled Drawbridge Operation Regulation; Tennessee River, Chattanooga, TN in the **Federal Register** (70 FR 49900). We received no letters

commenting on the proposed rule. No public meeting was requested, and none was held.

Background and Purpose

On February 11, 2005, the State of Tennessee Department of Transportation requested a temporary change to the operation of the Chief John Ross Drawbridge, across the Tennessee River, mile 464.1, at Chattanooga, Tennessee to allow the drawbridge to remain in the closed-to-navigation position for seven months to perform major repairs to the bridge. The drawbridge has a vertical clearance of 58.7 feet above normal pool in the closed-to-navigation position. Navigation on the waterway consists primarily of commercial tows and recreational watercraft that will be minimally impacted by the closure period. Presently, the draw opens on signal for the passage of river traffic when the vertical clearance beneath the draw is 50 feet or less. When the vertical clearance beneath the draw is more than 50 feet, at least eight hours notice is required.

The Tennessee Department of Transportation requested the drawbridge be permitted to remain in the closed-to-navigation position from 8 a.m., December 1, 2005, until 8 a.m., July 1, 2006. This temporary change to the drawbridge's schedule has been coordinated with the commercial waterway operators.

Discussion of Comments and Changes

We received no comments on the NPRM, and have made no changes from the proposed rule.

Regulatory Evaluation

This rule is not a "significant regulatory action" under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. It is not "significant" under the regulatory policies and procedures of the Department of Homeland Security (DHS).

The Coast Guard expects this temporary change will have minimal economic impact on commercial traffic operating on the Tennessee River. There is sufficient height, when the drawbridge is closed, to allow for the vast majority of commercial users to pass.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601-612), we have considered

whether this rule would have a significant economic impact on a substantial number of small entities. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities. This rule will be in effect for seven months and the Coast Guard expects the impact of this action will be minimal because the existing vertical clearance of 58.7 feet above normal pool in the closed-to-navigation position will still allow vessels to transit beneath the bridge.

Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Public Law 104-121), we offered to assist small entities in understanding the rule so that they could better evaluate its effects on them and participate in the rulemaking process.

No small entities requested Coast Guard assistance and none was given.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency's responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1-888-REG-FAIR (1-888-734-3247).

Collection of Information

This rule calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520).

Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this rule under that Order and have determined that it does not have implications for federalism.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531-1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

Taking of Private Property

This rule will not effect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not create an environmental risk to health or risk to safety that may disproportionately affect children.

Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a "significant energy action" under that order because it is not a "significant regulatory action" under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not

require a Statement of Energy Effects under Executive Order 13211.

Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

Environment

We have analyzed this rule under Commandant Instruction M16475.1D, which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321-4370f), and have concluded that there are no factors in this case that would limit the use of a categorical exclusion under section 2.B.2 of the Instruction. Therefore, this rule is categorically excluded, under figure 2-1, paragraph (32)(e) of the Instruction, from further environmental documentation.

List of Subjects in 33 CFR Part 117

Bridges.

■ For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 117 as follows:

PART 117—DRAWBRIDGE OPERATION REGULATIONS

■ 1. The authority citation for part 117 continues to read as follows:

Authority: 33 U.S.C. 499; Department of Homeland Security Delegation No. 0170.1; 33 CFR 1.05-1(g); section 117.255 also issued under the authority of Pub. L. 102-587, 106 Stat. 5039.

■ 2. From 8 a.m., December 1, 2005 until 8 a.m., July 1, 2006, suspend section 117.949 and add a new section 117.T948 to read as follows:

117.T948 Tennessee River.

(a) The Chief John Ross Drawbridge, mile 464.1, at Chattanooga, Tennessee need not open for river traffic and may be maintained in the closed-to-

navigation position from 8 a.m., December 1, 2005, until 8 a.m., July 1, 2006.

(b) The draw of the Southern Railway Bridge over the Tennessee River, mile 470.7, at Hixon, Tennessee, shall open on signal when the vertical clearance beneath the draw is 50 feet or less. When the vertical clearance beneath the draw is more than 50 feet, at least eight hours notice is required. When the operator of a vessel returning through the draw within four hours informs the drawtender of the probable time of return, the drawtender shall return one half hour before the time specified and promptly open the draw on signal for the vessel without further notice. If the vessel giving notice fails to arrive within one hour after the arrival time specified, whether upbound or downbound, a second eight hours notice is required. Clearance gauges of a type acceptable to the Coast Guard shall be installed on both sides of the bridge.

Dated: October 27, 2005.

Steve Venckus,

Chief, Office of Regulations & Administrative Law, Office of the Judge Advocate General, United States Coast Guard.

Coast Guard

33 CFR Part 117

[CGD01-05-097]

Drawbridge Operation Regulations: Taunton River, MA

AGENCY: Coast Guard, DHS.

ACTION: Notice of temporary deviation from regulations.

SUMMARY: The Commander, First Coast Guard District, has issued a temporary deviation for the Brightman Street Bridge, at mile 1.8, across the Taunton River between Fall River and Somerset, Massachusetts. Under this temporary deviation the bridge may remain closed from 9 p.m. on December 2, 2005 through 5 a.m. on December 12, 2005. The purpose of this temporary deviation is to facilitate scheduled bridge repairs.

DATES: This deviation is effective from December 2, 2005 through December 12, 2005.

FOR FURTHER INFORMATION CONTACT: John McDonald, Project Officer, First Coast Guard District, at (617) 223-8364.

SUPPLEMENTARY INFORMATION: The Brightman Street Bridge has a vertical

clearance in the closed position of 27 feet at mean high water and 31 feet at mean low water. The existing drawbridge operation regulations are listed at 33 CFR 117.619(b).

The owner of the bridge, Massachusetts Highway Department, requested a temporary deviation from the drawbridge operation regulations to facilitate scheduled bridge repairs.

Under this temporary deviation the Brightman Street Bridge may remain closed from 9 p.m. on December 2, 2005 through 5 a.m. on December 12, 2005.

This deviation from the operating regulations is authorized under 33 CFR 117.35, and will be performed with all due speed in order to return the bridge to normal operation as soon as possible.

Dated: October 25, 2005.

Gary Kassof,

Bridge Program Manager, First Coast Guard District.

BILLING CODE 4910-15-P

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 117

[CGD01-05-099]

Drawbridge Operation Regulations: Jamaica Bay and Connecting Waterways, NY

AGENCY: Coast Guard, DHS.

ACTION: Notice of temporary deviation from regulations and request for comment.

SUMMARY: The Commander, First Coast Guard District, has issued a temporary 90-day deviation from the drawbridge operation regulations to test an alternate drawbridge operation regulation for the Beach Channel Railroad Bridge mile 6.7, across Jamaica Bay, New York. Under this temporary deviation, in effect from December 1, 2005 through February 28, 2006, the bridge may remain closed during the commuter rail rush hours in the morning and afternoon, Monday through Friday, except Federal holidays. The purpose of this temporary deviation is to test an alternate drawbridge operation schedule for 90 days and solicit comment from the public.

DATES: This deviation is effective from December 1, 2005 through February 28, 2006. Comments must reach the Coast Guard on or before March 31, 2006.

ADDRESSES: You may mail comments to Commander (obr), First Coast Guard District Bridge Branch, One South

Street, Battery Park Building, New York, New York, 10004, or deliver them to the same address between 7 a.m. and 3 p.m., Monday through Friday, except, Federal holidays. The telephone number is (212) 668-7165. The First Coast Guard District, Bridge Branch, maintains the public docket for this rulemaking. Comments and material received from the public, as well as documents indicated in this preamble as being available in the docket, will become part of this docket and will be available for inspection or copying at the First Coast Guard District, Bridge Branch, 7 a.m. to 3 p.m., Monday through Friday, except Federal holidays.

Request for Comments

We encourage you to participate in this rulemaking by submitting comments or related material. If you do so, please include your name and address, identify the docket number for this rulemaking (CGD01-05-099), indicate the specific section of this document to which each comment applies, and give the reason for each comment. Please submit all comments and related material in an unbound format, no larger than 8½ by 11 inches, suitable for copying. If you would like to know if they reached us, please enclose a stamped, self-addressed postcard or envelope. We will consider all comments and material received during the comment period. We may change this rule in view of them.

FOR FURTHER INFORMATION CONTACT: Judy Leung-Yee, Project Officer, First Coast Guard District, at (212) 668-7195.

SUPPLEMENTARY INFORMATION: The Beach Channel Railroad Bridge has a vertical clearance in the closed position of 26 feet at mean high water and 31 feet at mean low water. The existing drawbridge operation regulations require the bridge to open on signal at all times.

The bridge owner, New York City Transit, requested a change to the drawbridge operation regulations to allow the bridge to remain closed during the morning and afternoon commuter rail rush hours, from 6:45 a.m. to 8:20 a.m. and 5 p.m. to 6:45 p.m., Monday through Friday, except Federal holidays.

The Coast Guard decided to test the above proposed change to the drawbridge operation regulations for a period of 90 days to help determine if this proposed rule change will help facilitate commuter rail traffic and still meet the reasonable needs of navigation.

Under this temporary 90-day deviation, effective from December 1, 2005 through February 28, 2006, the Beach Channel Railroad Bridge need not
