

comments by e-mail or U.S. postal mail. To submit your comments by e-mail send them to: PRA@fcc.gov. To submit your comments by U.S. mail, mark it to the attention of Leslie F. Smith, Federal Communications Commission, 445 12th Street, SW., Room 1–A804, Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection(s) send an e-mail to PRA@fcc.gov or contact Leslie F. Smith at 202–418–0217.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–0398.

Title: Equipment Authorization Measurement Standards, 47 CFR §§ 2.948 and 15.117(g)(2).

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 320.

Estimated Time per Response: 5 to 30 hours.

Frequency of Response:

Recordkeeping; One-time, three year, and on occasion reporting requirement; Third party disclosure.

Total Annual Burden: 9,100 hours.

Total Annual Cost: None.

Privacy Impact Assessment: No impact(s).

Needs and Uses: The Commission uses this information to ensure that data accompanying all requests for equipment authorization are valid, and that proper testing procedures are used. Testing ensures that potential interference to radio communications is controlled, and if necessary, the data may be used for investigating complaints or harmful interference, or for verifying the manufacturer's compliance with FCC rules. The Commission eliminated the necessity for manufacturers to file UHF noise figure data documenting the performance of TV receivers tested and marketed in the U.S. in ET Docket 95–144.

OMB Control Number: 3060–0436.

Title: Equipment Authorization—Cordless Telephone Security Coding.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 100.

Estimated Time per Response: 1.5 hours.

Frequency of Response:

Recordkeeping; One time and on occasion reporting requirements; Third party disclosure.

Total Annual Burden: 150 hours.

Total Estimated Cost: None.

Privacy Impact Assessment: No impact(s).

Needs and Uses: The Commission requires that cordless telephone security features protect the public switched telephone network from unintentional line seizure and telephone dialing. These features prevent unauthorized access to the telephone line, the dialing of calls in response to signals other than those from the owner's handset and the unintentional ringing of a cordless telephone handset. Use of the cordless telephone security features reduces the harm caused by some cordless telephones to the "911" Emergency Service Telephone System and the telephone network in general.

OMB Control Number: 3060–0387.

Title: Section 15.201(d), On Site Verification of Field Disturbance Sensors.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 200.

Estimated Time per Response: 18 hours.

Frequency of Response:

Recordkeeping; One and on occasion reporting requirements; Third party disclosure.

Total Annual Burden: 3,600 hours.

Total Estimated Cost: \$40,000.

Privacy Impact Assessment: No impact(s).

Needs and Uses: Commission rules permit the operation of field disturbance sensors in the low VHF region of the spectrum. In order to monitor non-licensed field disturbance sensors operating in the low VHF television bands, a unique procedure for on-site equipment testing of the systems is required to ensure suitable safeguards for the operation of these devices. Data are retained by the holder of the equipment authorized/issued by the Commission and made available only at the request of the Commission.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Submitted for Review to the Office of Management and Budget

October 25, 2005.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995, Public Law 104–13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before December 2, 2005. If you anticipate that you will be submitting PRA comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all Paperwork Reduction Act (PRA) comments to Judith B. Herman, Federal Communications Commission, Room 1–C804, 445 12th Street, SW., Washington, DC 20554 or via the Internet to Judith-B.Herman@fcc.gov. If you would like to obtain or view a copy of this new or revised information collection, you may do so by visiting the FCC PRA Web page at: <http://www.fcc.gov/omd/pra>.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection(s), contact Judith B. Herman at 202–418–0214 or via the Internet at Judith-B.Herman@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060–0813.

Title: Commission's Rules to Ensure Compatibility with Enhanced 911 Emergency Calling Systems.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents: 47,031.

Estimated Time Per Response: 1–5 hours.

Frequency of Response: On occasion reporting requirement.

Total Annual Burden: 198,200 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Needs and Uses: The Commission seeks three-year approval for an extension (no change in requirements) for this information collection.

The Commission responded to a petition for clarification and/or declaratory ruling filed by the City of Richardson, TX, by amending the Commission's rules to clarify what constitutes a valid Public Safety Answering Point (PSAP) triggering a wireless carrier's obligation to provide E911 service to that PSAP.

Specifically, the Order in CC Docket 94–102, FCC 01–293, found that a wireless carrier must implement E911 service within the six-month period following the date of the PSAP's request, and that if challenged by the wireless carrier, the request be deemed valid if the PSAP making the request demonstrates that: (1) A mechanism is in place by which the PSAP will recover its costs of the facilities and equipment necessary to receive and utilize the E911 data elements; (2) the PSAP has ordered the equipment necessary to receive and utilize the E911 data and the equipment will be installed and capable of receiving and utilizing that data no later than six months following its request; and (3) the PSAP has made a timely request to the appropriate local exchange carrier (LEC) for the necessary trunking and other facilities to enable the E911 data to be transmitted to the PSAP. In the alternative, the PSAP may demonstrate that a funding mechanism is in place, that is E911-capable using a Non-Call Associated Signaling (NCAS) technology, and that it has made a timely request to the appropriate LEC for the necessary Automatic Location Identification (ALI) database upgrade.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission, Comments Requested

October 25, 2005.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995, Public Law 104–13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act that does not display a valid control number. Comments are requested concerning (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before January 3, 2006. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: You may submit your Paperwork Reduction Act (PRA) comments by e-mail or U.S. postal mail. To submit your comments by e-mail send them to: PRA@fcc.gov. To submit your comments by U.S. mail, mark it to the attention of Judith B. Herman, Federal Communications Commission, 445 12th Street, SW., Room 1–C804, Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection(s) send an e-mail to PRA@fcc.gov or contact Judith B. Herman at 202–418–0214.

SUPPLEMENTARY INFORMATION: OMB Control No.: 3060–0678.

Title: Part 25 of the Commission's Rules Governing the Licensing of, and Spectrum Usage by, Satellite Network Stations and Space Stations.

Form No.: FCC Form 312, Schedule S.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents: 3,432.

Estimated Time Per Response: 1–80 hours.

Frequency of Response: On occasion and annual reporting requirements, and third party disclosure requirement.

Total Annual Burden: 42,108 hours.

Total Annual Cost: \$531,875,000.

Privacy Act Impact Assessment: N/A.

Needs and Uses: On March 15, 2005, the Federal Communications Commission ("Commission") released a Third Further Notice of Proposed Rulemaking (FCC 05–62) in which it proposed to combine power level requirements and antenna diameter requirements into one off-axis equivalent isotropically radiated power (EIRP) requirement. (Equivalent Isotropically Radiated Power (EIRP) is the product of the gain of the antenna in a given direction relative to an isotropic antenna and the power supplied to that antenna, see 47 CFR Section 2.1). If this proposal is adopted, it would give earth station operators more flexibility in their operations and help expedite its review of some non-routine earth station applications. The Commission invited comment on what revisions would be necessary to its rules to provide protection from interference for earth stations in the event that it adopts an off-axis EIRP requirement for fixed satellite service (FSS) earth stations. Additionally, the Commission invited comment on what specific information should be required from earth station applicants in order to comply with the proposed off-axis EIRP requirement.

The following information collections are proposed in the rulemaking: (1) Earth station applicants will provide a table showing the EIRP of the antenna at various specific off-axis angles, (2) Very Small Aperture Terminal (VSAT) licensees will certify that they will meet any applicable requirements for contention protocols adopted in this proceeding; (3) any party questioning a license applicant's contention protocol certification will provide a technical analysis showing that the applicant's planned contention protocol usage is likely to cause harmful interference to adjacent satellites or terrestrial wireless operations and (4) a certificate of coordination signed by an authorized representative of the National Radio
