Titles: Drug Testing for Contractor Employees (Renewal).

Abstract: EPA uses contractors to perform services throughout the nation with regard to environmental emergencies involving the release, or threatened release, of oil, radioactive materials or hazardous chemicals that may potentially affect communities and the surrounding environment. Releases may be accidental, deliberate, or may be caused by natural disasters. Emergency responders are available 24 hours-a-day to an incident, and respond with necessary personnel and equipment to eliminate dangers to the public and environment. Contractors responding to any of these types of incidents are responsible for conducting drug tests and applying Government-established suitability criteria in determining whether employees are acceptable to perform on given sites or on specific projects prior to contract employee performance. The information to be collected under the ICR for Drug Testing for Contractor Employees covers testing for the presence of marijuana, cocaine, opiates, amphetamines and phencyclidine (PCP). The Contractor shall maintain records of all drug tests.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9 and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 1 hour per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Entities potentially affected by this action are contractors involved with Emergency Response that have significant security concerns, as determined by the Contracting Officer on a case-by-case basis, to provide

qualified personnel that meet the drug testing requirements developed by EPA.

Estimated Number of Respondents: 450.

Frequency of Response: On occasion.

Estimated Total Annual Hour Burden: 450.

Estimated Total Annual Cost:

\$65,000, which includes \$0 annual capital/startup and O&M costs, and \$65,000 annual labor costs.

Changes in the Estimates: There is an increase in the estimated burden currently identified in the OMB Inventory of Approved ICR Burdens due to the fact that the approved burden covers a 6-month time period.

Dated: September 14, 2005.

Oscar Morales,

Director, Collection Strategies Division.
