Certain Welded Carbon Steel Pipe and Tube from Turkey: Extension of Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: September 21, 2005.

FOR FURTHER INFORMATION CONTACT: Christopher Hargett, AD/CVD Operations, Office 3, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Ave, NW, Washington, DC 20230; telephone: (202) 482-4161.

SUPPLEMENTARY INFORMATION:**Background**

On June 30, 2004, the Department initiated an administrative review of the antidumping duty order on certain welded carbon steel pipe and tube from Turkey. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews and Request for Revocation in Part*, 69 FR 39409. On November 1, 2004, the Department fully extended the preliminary results of the aforementioned review by 120 days. See *Certain Welded Carbon Steel Pipe and Tube From Turkey: Extension of Time Limit for Preliminary Results of Antidumping Duty Administrative Review*, 69 FR 63366. On June 7, 2005, the Department published the preliminary results of its review. See *Notice of Preliminary Results of Antidumping Duty Administrative Review: Certain Welded Carbon Steel Pipe and Tube from Turkey*, 70 FR 33084. The final results are currently due no later than October 5, 2005.

Extension of Time Limits for Final Results of Review

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act"), requires the Department of Commerce ("the Department") to issue (1) the preliminary results of a review within 245 days after the last day of the anniversary month of an order or finding for which a review is requested, and (2) the final results within 120 days after the date on which the preliminary results are published. However, if it is not practicable to complete the review within that time period, section 751(a)(3)(A) of the Act allows the Department to extend the time limit for the preliminary results to a maximum of

365 days and the final results to a maximum of 180 days (or 300 days if the Department does not extend the time limit for the preliminary results) from the date of the publication of the preliminary results. See also 19 CFR 351.213(h)(2).

We determine that it is not practicable to complete the final results of this review within the original time limit because the Department needs additional time to fully consider parties' arguments regarding the proposed modifications to the computation of duty drawback.

Therefore, we are extending the deadline for the final results of the above-referenced review by 60 days, until December 4, 2005. However, December 4, 2005, falls on Sunday, and it is the Department's long-standing practice to issue a determination the next business day when the statutory deadline falls on a weekend, federal holiday, or any other day when the Department is closed. See *Notice of Clarification: Application of "Next Business Day" Rule for Administrative Determination Deadlines Pursuant to the Tariff Act of 1930, As Amended*, 70 FR 24533 (May 10, 2005). Accordingly, the deadline for completion of the final results is December 5, 2005.

Dated: September 15, 2005.

Barbara E. Tillman,

Acting Deputy Assistant Secretary for Import Administration.

SUPPLEMENTARY INFORMATION:**I. Abstract**

The National Oceanic and Atmospheric Administration (NOAA) collects information to implement the International Dolphin Conservation Program Act. The Act allows entry of yellowfin tuna into the United States, under specific conditions, from nations in the Program that would otherwise be under embargo. The Act also allows U.S. fishing vessels to participate in the yellowfin tuna fishery in the eastern tropical Pacific Ocean on terms equivalent with the vessels of other nations.

The regulations implementing the Act are at 50 CFR part 229. The recordkeeping and reporting requirements at 50 CFR part 229 form the basis for this collection of information. Through this collection of information, NOAA is able to track and verify "dolphin safe" and "non-dolphin safe" tuna products from catch through the U.S. market.

II. Method of Collection

Paper applications, other paper records, electronic and facsimile reports, and telephone calls are required from participants, and methods of submittal include e-mail and facsimile transmission of paper forms.

III. Data

OMB Number: 0648-0387.

Form Number: None.

Type of Review: Regular submission.

Affected Public: Business or other for-profit organizations; and Individuals or households.

Estimated Number of Respondents: 38.

Estimated Time Per Response: 30 minutes for a vessel permit application; 10 minutes for an operator permit application; 30 minutes for a request for a waiver to transit the eastern tropical Pacific Ocean without a permit (and subsequent radio reporting); 10 minutes for a notification of vessel departure; 10 minutes for a change in permit operator; 10 minutes for notification of a net modification; 10 hours for an experimental fishing operation waiver;
