**SUMMARY:** The Federal Emergency Management Agency (FEMA) has submitted the following information collection to the Office of Management and Budget (OMB) for review and clearance in accordance with the requirements of the Paperwork Reduction Act of 1995 (44 U.S.C. *Title:* Post Construction Elevation Certificate/Floodproofing Certificate.  
*OMB Number:* 1660-0008.

*Abstract:* The Elevation Certificate and Floodproofing Certificate are used in conjunction with the application for flood insurance. The certificates are required for proper rating of post Flood Insurance Rate Map (FIRM) structures, which are buildings constructed after the publication of the FIRM, for flood insurance in Special Flood Hazard Areas. In addition, the Elevation Certificate is needed for pre-FIRM structures being rated under post-FIRM flood insurance rules. The certificates provide community officials and others standardized documents to readily record needed building elevation information.

The certificates are supplied to insurance agents, community officials, surveyors, engineers, architects, and NFIP policyholders/applicants. Surveyors, engineers, and architects complete the Elevation Certificate. Engineers and architects complete the Floodproofing Certificate. Community officials are provided the building elevation information required to document and determine compliance with the community's floodplain management ordinance. NFIP policyholders/applicants provide the appropriate certificate to insurance agents. The certificate is then used in conjunction with the flood insurance application so that the building can be properly rated for flood insurance.

*Affected Public:* Individuals or Households, Business or Other for Profit, Not-For-Profit Institutions, Farms, and State, local or tribal government.

*Number of Respondents:* 48,430.
