#### SUPPLEMENTARY INFORMATION:

**Background:** On July 5, 2001, six Federal agencies entered into a Memorandum of Understanding (MOU) on research and development of multimedia environmental modeling. (For a copy of the MOU with addendums, and details of the activities please see <http://www.ISCMEM.Org>.) In 2002-2005, three additional Federal Agencies joined the interagency cooperative project. The MOU establishes a framework for facilitating cooperation and coordination among the following agencies (the specific research organization within the agency is in parentheses): U.S. Army Corps of Engineers (Engineer Research and Development Center); U.S. Department of Agriculture (Agricultural Research Service); U.S. Department of Agriculture (Natural Resources Conservation Service); U.S. Department of Energy (Office of Research and Development);

U.S. Environmental Protection Agency; U.S. Geological Survey; U.S. National Oceanographic and Atmosphere Administration; and U.S. Nuclear Regulatory Commission (Office of Nuclear Regulatory Research); U.S. Bureau of Reclamation. These agencies are cooperating and coordinating in research and development (R&D) of multimedia environmental models, software and related databases, including development, enhancements, applications and assessments of site specific, generic, and process-oriented multimedia environmental models as they pertain to human and environmental health risk assessment. Specifically, the MOU supports collaboration and the exchange of technical information in support of multimedia environmental modeling focusing on environmental risk assessments, including developments/enhancements of models and mold frameworks or infrastructure and advancement of related technical activities, such as considering uncertainty and model application procedures.

**Purpose of the Public Meeting:** The annual public meeting provides an opportunity for the scientific community, other Federal and State agencies, and the public to be briefed on the progress of the MOU working groups and their initiatives for the upcoming year, and to discuss technological advancements in multimedia environmental modeling.

**Proposed Agenda:** The ISCMEM Chair will open the meeting with a brief overview of the goals of the MOU and the activities of ISCMEM. The four MOU working groups, Software System Design and Implementation, Uncertainty and Parameter Estimation, Subsurface Reactive Transport Modeling, and Distributed Watershed/Water-Quality Modeling, will then report on their progress during the year. A series of technical presentations will focus on topics related to working group(s) efforts followed by ISCMEM steering committee business discussions. A detailed agenda with presentation titles and speakers will be posted on the MOU public Web site: <http://www.ISCMEM.Org>.

**Meeting Access:** The headquarters of the American Geophysical Union (AGU) is located at 2000 Florida Avenue, NW., Washington, DC 20009. The most convenient transportation to the meeting venue is via Metro. Take Metro to the Dupont Circle Metro stop on the Red Line. Upon exiting the Metro station proceed Northwest on Connecticut Avenue, NW., for about 3 blocks. Turn right onto Florida Avenue

### Bonneville Power Administration

#### Bonneville Power Administration's Record of Decision for Service to Direct Service Industrial (DSI) Customers for Fiscal Years 2007-2011

**AGENCY:** Bonneville Power Administration (BPA), Department of Energy.

**ACTION:** Notice of final policy.

**SUMMARY:** On February 4, 2005, BPA issued a final policy and record of decision (ROD) regarding how the agency will market power and distribute the costs and benefits of the Federal Columbia River Power System (FCRPS) in the Pacific Northwest for fiscal years (FY) 2007-2011. This policy and ROD included a decision to provide eligible Pacific Northwest direct service industries (DSIs) with service at a known and capped cost in FY 2007-2011, with the level of benefits to be decided in a follow-up public process. Also on February 4, 2005, BPA sent a letter to Customers, Constituents, Tribes, and Other Regional Stakeholders that presented a straw proposal for DSI service and announced the additional public process to take further comment regarding the appropriate benefit level for DSI service and how BPA should provide the benefit. An open forum discussing this issue was held March 1, 2005, in Portland, Oregon. The comment period on the straw proposal outlined in the letter closed March 11, 2005. BPA has now issued a ROD on DSI service. This ROD establishes the level of service benefits BPA will offer the DSI customers for FY 2007-2011, allocates the benefits among eligible companies and establishes the mechanism(s) that would be used to deliver benefits.

**DATES:** On June 30, 2005, the BPA signed the ROD for DSI service for FY 2007-2011.

**ADDRESSES:** The ROD is available on BPA's Record of Decision Web site at <http://www.bpa.gov/corporate/pubs/RODS/2005/> and BPA's Regional Dialogue Web site: <http://www.bpa.gov/power/regionaldialogue>. Copies are also available by contacting BPA's Public Information Center at (800) 622-4520.

**FOR FURTHER INFORMATION CONTACT:** Contact Scott Wilson, Customer Account Executive, Bulk Marketing and Transmission Service, at (503) 230-7638, for information regarding the ROD on service to DSIs for FY 2007-2011. Contact Helen Goodwin, Regional Dialogue project manager, for more information on the Regional Dialogue process, at (503) 230-3129.

Issued in Portland, Oregon on June 30, 2005.
