

monitor the electronic grants process of another Federal agency in order to ensure that the ACF process proceeds in an efficient and timely manner.

Response: ANA, in compliance with Public Law 106–107, must offer an electronic grants submission venue; however, the public is not required to submit grant applications via the Grants.gov system. ANA will monitor the electronic submission process for ANA grant applications through the Grants.gov system throughout the upcoming fiscal year.

VI. Environmental Mitigation

ANA received pass-through funds from the Department of Defense for Tribes and Tribal organizations to offset the effects of military actions at Formerly Used Defense Sites (FUDS). ANA will announce the availability of these funds in FY06. A request for financial assistance in this program area does not require a non-Federal share match requirement.

VII. SEDS Special Initiatives

ANA has the discretionary authority to make awards in support of special initiatives, including but not limited to, healthy marriage and relationships, fatherhood, positive youth development and emergency support to Native communities affected by man-made or natural disasters. In FY06, ANA will announce the availability of funding for special initiatives when practicable. A request for financial assistance for any of the special initiatives will require a non-Federal share match requirement.

VIII. Post Award Training

ANA, through contracted services, conducts regional post award training. Past practice has been to provide funding to new grantees for attendance at this training in order to provide additional assistance and information on managing a Federal award. In FY06, ANA will require all applicants to include in their Federal budget request the costs associated for the proposed project’s finance person and the project manager to attend this regional training. It is determined that due to many reasons, largely grantee staff turnover, every grantee receiving an ANA award

will benefit from the information provided at post award training; therefore, the expense is considered reasonable for all applicants to include in their budget request and also reflect in the activity in their Objective Work Plans.

IX. ANA Administrative Policy

The following policy will be used in all FY06 PAs. ANA has clarified many areas that applicants have historically found difficult to understand and that have previously prompted numerous questions and created application and project development inconsistencies. The ANA PAs will now include this clarified policy:

- If the applicant, other than a Tribe or an Alaska Native Village government, is proposing a project benefiting Native Americans, Alaska Natives, or both, it must provide assurance that its duly elected or appointed board of directors is representative of the community to be served. An applicant’s governing board will be considered representative of the community to be served if the applicant demonstrates that at least a majority of the board individuals fall into one or more of the following categories: (1) A current or past member of the community to be served; (2) a prospective participant or beneficiary of the project to be funded; (3) have experience working with the community to be served by the project; or (4) have a cultural relationship with the community to be served.

Dated: December 14, 2005.

Quanah Crossland Stamps,

Commissioner, Administration for Native Americans.

Proposed Collection; Comment Request; A Process/Outcome Evaluation of Parkinson’s Disease Research Centers

SUMMARY: In compliance with the requirement of Section 3506(c)(2)(A) of

the Paperwork Reduction Act of 1995, for opportunity for public comment on proposed data collection projects, the National Institute of Neurological Disorders and Stroke (NINDS) Office of Science Policy and Planning, the National Institute of Health (NIH) will publish periodic summaries of proposed projects to be submitted to the Office of Management and Budget (OMB) for review and approval.

Proposed Collection: Title: A Process/Outcome Evaluation of Parkinson’s Disease Research Centers. Type of Information Collection Request: New.

Need and Use of Information Collection: This study is primarily an outcome evaluation, designed to assess the extent to which the NINDS-funded Morris K. Udall Centers for Excellence in Parkinson’s Disease Research have achieved the program’s short-term and long-term goals. The study also includes elements of a process evaluation in its examination of the major activities conducted by the Udall Centers, the relationship between Center activities and the achievement of program goals, and the NINDS management of the program. The results of the full-scale evaluation should be very helpful to NINDS in identifying the most relevant measures for tracking the future progress of the Centers, developing strategies to enhance the program’s effectiveness, and improving program management. NINDS will also use the findings to inform its National Advisory Neurological Disorders and Stroke Council, and to address inquiries from the public regarding the impact of the Udall Centers Program. Lastly, Udall Center awardees will be able to use the evaluation results to improve the performance of their Centers; and other NIH Institutes and Centers may use the methodology and results of this evaluation to guide their own centers assessments. *Frequency of Response:* Once or twice. *Affected Public:* Researchers, Not-for-profit institutions; Federal Government; individuals or households. *Type of Respondents:* Adult professionals.

The annual reporting burden is represented in the following table:

Type of respondents	Number of respondents	Frequency of response	Average time per response (hour)	Annual hour burden
Center Directors	13	2	1.5	39
Project/Core Directors	54	1	1.5	81
Comparison Group	54	1	1.0	54
Totals	121	174

There are no Capital Costs to report. There are no Operating or Maintenance Costs to report.

Request for Comments: Written comments and/or suggestions from the public and affected agencies should address one or more of the following points: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Enhance the quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond, including the use of appropriated automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the data collection plans and instruments, contact: Dr. Melinda Kelley, Office of Science Policy and Planning, National Institute of Neurological Disorders and Stroke, NIH, Building 31, 31 Center Drive, Room 8A-03, Bethesda, MD 20892; call non-toll-free (301) 496-9271; or E-mail your request, including your address to: ospp@ninds.nih.gov.

Comments Due Date: Comments regarding this information collection are best assured of having their full effect if received within 60 days of the date of this publication.

Dated: December 9, 2005.

Story C. Landis,

Director, NINDS, National Institutes of Health.
