

System capacity. NWPAs—830 ‘Appendix G—Standard Remittance Advice for Payment of Fees’, and ‘Annex A and Annex B to Appendix G—Standard Remittance Advice for Payment of Fees’ are designed to serve as the source document for entries into DOE accounting records to transmit data from Purchasers to the DOE concerning payment of their fees for spent nuclear fuel and high-level waste disposal into the Nuclear Waste Fund. The Remittance Advice (RA) must be submitted by Purchasers who signed the Standard Contract for Disposal of Spent Nuclear Fuel and/or High-Level Radioactive Waste with the DOE.

II. Current Actions

The current proposed action is a three-year extension of two existing data collections. This is a request for comments on EIA’s proposal to request this three-year extension of approval to continue collecting information with Forms NWPAs—830, the ‘Appendix C—Delivery Commitment Schedule,’ and the NWPAs—830 ‘Appendix G—Standard Remittance Advice for Payment of Fees’ with no change to the existing collections.

III. Request for Comments

Prospective respondents and other interested parties should comment on the actions discussed in item II. The following guidelines are provided to assist in the preparation of comments. Please indicate to which form(s) your comments apply.

General Issues

A. Are the proposed collections of information necessary for the proper performance of the functions of the agency and does the information have practical utility? Practical utility is defined as the actual usefulness of information to or for an agency, taking into account its accuracy, adequacy, reliability, timeliness, and the agency’s ability to process the information it collects.

B. What enhancements can be made to the quality, utility, and clarity of the information to be collected?

As a Potential Respondent to the Request for Information

A. What actions could be taken to help ensure and maximize the quality, objectivity, utility, and integrity of the information to be collected?

B. Are the instructions and definitions clear and sufficient? If not, which instructions need clarification?

C. Can the information be submitted by the due date?

D. Public reporting burden to complete Form NWPAs—830C, the estimated burden per response is 2 hours. To complete Form NWPAs—830G the average time per response is five and one half hours. The data for the Form NWPAs—830G is collected quarterly. The estimated burden includes the total time necessary to provide the requested information. In your opinion, how accurate is this estimate?

E. The agency estimates that the only cost to a respondent is for the time it will take to complete the collection. Will a respondent incur start-up costs for reporting, or any recurring annual costs for operation, maintenance, and purchase of services associated with the information collection?

F. What additional actions could be taken to minimize the burden of this collection of information? Such actions may involve the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

G. Does any other Federal, State, or local agency collect similar information? If so, specify the agency, the data element(s), and the methods of collection.

As a Potential Data User of the Information To Be Collected:

A. What actions could be taken to help ensure and maximize the quality, objectivity, utility, and integrity of the information disseminated?

B. Is the information useful at the levels of detail to be collected?

C. For what purpose(s) would the information be used? Be specific.

D. Are there alternate sources for the information and are they useful? If so, what are their weaknesses and/or strengths?

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of the form. They also will become a matter of public record.

Under the proposed consent decree no later than June 12, 2006, EPA shall sign a notice for publication in the **Federal Register** a proposal to grant or a final determination that denies the petition with written explanation of the reasons for EPA's decision. If the petition is granted, then no later than May 1, 2007, EPA shall sign a final notice for publication in the **Federal Register** either granting or denying the Environmental Defense petition to list diesel engine exhaust as a hazardous air pollutant.

For a period of thirty (30) days following the date of publication of this notice, the Agency will receive written comments relating to the proposed consent decree from persons who were not named as parties or interveners to the litigation in question. EPA or the Department of Justice may withdraw or withhold consent to the proposed consent decree if the comments disclose facts or considerations that indicate that such consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the Act.
