#### SUPPLEMENTARY INFORMATION:

##### Background

On September 16, 2005, the Department of Commerce (the Department) published in the **Federal Register** the final results of the administrative reviews of the antidumping duty orders on ball bearings and parts thereof (ball bearings) from France, Germany, Italy, Japan, Singapore, and the United Kingdom (70 FR 54711) (*Final Results*).

We received timely allegations of ministerial errors from Nippon Pillow Block Co., Ltd., (NPB), NSK Ltd. (NSK), NTN Corporation (NTN), and Nankai Seiko Co. Ltd. (SMT). In its comments dated September 16, 2005, NSK alleged that the Department erred in that it inadvertently assigned the incorrect level of trade for certain home-market sales. We agree with the alleged error and have amended the final results to correct the error.

In its comments dated September 19, 2005, NPB alleged that the Department erred in that it inadvertently used the incorrect code to designate housed bearings sold in the United States. We agree with the alleged error and have amended the final results to correct the error.

In its comments dated September 19, 2005, NTN alleged that the Department should correct the draft liquidation instructions it prepared for NTN to reflect the correct importer of record. Although we agree with the alleged error and have corrected the draft liquidation instructions accordingly, this error does not affect our calculation of NTN's margin.

In its comments dated September 19, 2005, SMT alleged that the Department made a ministerial error by treating contemporaneity as a more important tie-breaker than the difference-in-merchandise adjustment. We do not agree that we made an error. Furthermore, SMT's comments of an alleged error were not ministerial in nature as defined by 19 CFR § 351.225(f). Therefore, we have not changed our calculation of SMT's margin. For a complete discussion of our response to SMT's allegation, please see the memorandum to Laurie Parkhill dated October 14, 2005.

#### Amended Final Results of Review

As a result of the correction of clerical errors, the following weighted-average margins exist for exports of ball bearings by NPB and NSK for the period May 1, 2003, through April 30, 2004:

Company	Margin (percent)
NPB .....	23.57
NSK Ltd. ....	8.25

The Department will determine, and the U.S. Bureau of Customs and Border Protection (CBP) shall assess antidumping duties on all appropriate entries. We will issue appropriate assessment instructions directly to CBP within 15 days of publication of these amended final results of review. Where the importer-/customer-specific assessment rate or amount is above *de minimis*, we will instruct CBP to assess duties on all entries of subject merchandise by that importer or for that customer.

We will also direct CBP to collect cash deposits of estimated antidumping duties on all appropriate entries in accordance with the procedures discussed in the *Final Results* and at the rates as amended by this notice. The amended deposit requirements are effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the date these amended final results are published in the **Federal Register**.

We are issuing and publishing these determinations and notice in accordance with sections 751(a)(1) and 777(i) of the Tariff Act of 1930, as amended, and 19 CFR § 351.224(e).

Dated: October 14, 2005.

See *Notice of Initiation of Antidumping and Countervailing Duty Administrative Reviews and Request for Revocation in Part 70 FR 42028* (July 15, 2005) (*Initiation Notice*). The review was requested by United States Steel Corporation (the petitioner). We are now rescinding this review as a result of the petitioner's withdrawal of its request for an administrative review.

**FOR FURTHER INFORMATION CONTACT:** Constance Handley or David Layton, at (202) 482-0631 or (202) 482-0371, respectively, AD/CVD Operations Office 1, Import Administration, International Trade Administration, U.S. Department of Commerce, 14<sup>th</sup> Street & Constitution Avenue, NW, Washington, DC 20230.

None of the respondents requested a review. On July 15, 2005, in accordance with 19 CFR 351.221(c)(1)(i), we published the initiation of an administrative review of this order for the period June 1, 2004, through May 31, 2005. **Rescission of Review**

The Department's regulations at 351.213(d)(1) provide that the Department will rescind an administrative review if the party that requested the review withdraws its request for review within 90 days of the date of publication of the notice of initiation of the requested review, or withdraws its request at a later date if the Department determines that it is reasonable to extend the time limit for withdrawing the request. The petitioner withdrew its request within the 90-day period and was the only party to request this review. Accordingly, we are

rescinding this review. The Department will issue appropriate assessment instructions to U.S. Customs and Border Protection within 15 days of publication of this notice.

This notice serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

This notice is issued and published in accordance with 19 CFR 351.213(d)(4) and section 777(i)(1) of the Tariff Act of 1930, as amended.

**SUPPLEMENTARY INFORMATION:**

**Scope of the Order**

The product covered by this order is all low enriched uranium (LEU). LEU is enriched uranium hexafluoride (UF<sub>6</sub>) with a U<sup>235</sup> product assay of less than 20 percent that has not been converted into another chemical form, such as UO<sub>2</sub>, or fabricated into nuclear fuel assemblies, regardless of the means by which the LEU is produced (including LEU produced through the down-blending of highly enriched uranium).

Certain merchandise is outside the scope of this order. Specifically, this order does not cover enriched uranium hexafluoride with a U<sup>235</sup> assay of 20 percent or greater, also known as highly enriched uranium. In addition, fabricated LEU is not covered by the scope of this order. For purposes of this order, fabricated uranium is defined as enriched uranium dioxide (UO<sub>2</sub>), whether or not contained in nuclear fuel rods or assemblies. Natural uranium concentrates (U<sub>3</sub>O<sub>8</sub>) with a U<sup>235</sup> concentration of no greater than 0.711 percent and natural uranium concentrates converted into uranium hexafluoride with a U<sup>235</sup> concentration of no greater than 0.711 percent are not covered by the scope of this order.

Also excluded from this order is LEU owned by a foreign utility end-user and imported into the United States by or for such end-user solely for purposes of conversion by a U.S. fabricator into uranium dioxide (UO<sub>2</sub>) and/or fabrication into fuel assemblies so long as the uranium dioxide and/or fuel assemblies deemed to incorporate such imported LEU (i) remain in the possession and control of the U.S. fabricator, the foreign end-user, or their designed transporter(s) while in U.S. customs territory, and (ii) are re-exported within eighteen (18) months of entry of the LEU for consumption by the end-user in a nuclear reactor outside the United States. Such entries must be accompanied by the certifications of the importer and end-user.
