SUPPLEMENTARY INFORMATION:

A. What Is This Task Force and What Is the Purpose of This Public Meeting?

The EPA created the Task Force in June 2004 in response to a recommendation from the Permitting/Toxics Subcommittee of the CAAAC. The Task Force is made up of 18 representatives from State and local permitting agencies, industry, and environmental and public interest groups. The Task Force will gather information from interested persons on the performance of the title V operating permits program and prepare a report documenting how the title V program is performing and what elements are working well and/or poorly. The report may include suggestions on how to improve the program. The Task Force is gathering information by, among other things, holding a series of three public meetings. The San Francisco meeting is expected to be the last public meeting. Other public meetings were held in Washington, DC, on June 25, 2004, and Chicago, Illinois, on September 14 and 15, 2004.

The purpose of these public meetings is to gather information on the performance of the title V program, specifically on aspects of the program that are working well and those that are working poorly. The Task Force welcomes any information from stakeholders that will help it prepare its report on the performance of the title V program.

For further information on the task force, see the May 17, 2004, notice in the **Federal Register** (69 FR 27922) and

the CAAAC Web site: <http://www.epa.gov/oar/caaac/titlev.html>.

B. How Do I Participate in This Public Meeting?

Those interested in speaking are asked to contact Ray Vogel by January 24, 2005, by email at vogel.ray@epa.gov and give your email and phone number so you may be contacted for a speaking time. Speaking time slots will be 20 minutes each.

The Task Force requests that presenters at the public meeting limit their presentations to no more than 10 minutes and be prepared to answer follow-up questions from members of the Task Force for approximately 10 minutes. If you wish to present more information than can be accommodated in the allotted time, you should put the information in written remarks that supplement your presentation. Speakers are encouraged to bring disks or hard copies of written remarks to submit for the public record at the meeting. The meeting will be recorded, and a transcript will be made and placed in the public docket. An audio recording will also be made and placed on the Web site <http://www.epa.gov/oar/caaac/titlev.html>.

As noted above, the Task Force is most interested in testimony based on your experience, of what is working well, what is not working well, and any recommendations you have for improvements to the title V program. We strongly encourage speakers to support their testimony with actual examples designed to help the task force understand your concern(s) and how any recommended improvements you offer would address these concerns.

C. How Do I Get Copies of the Draft Report of the Task Force and Other Public Information Related to the Task Force's Work?

Audio and written transcripts of the testimony from previous public meetings are available at the CAAAC Web site: <http://www.epa.gov/oar/caaac>. The draft report (which is expected to be available in winter 2005) will also be available on the Web site. These same materials and additional supporting materials will also be available electronically through the EPA e-docket at: <http://www.epa.gov/edocket/>.
