

overlaying of noise exposure contours onto the map depicting properties on the surface rests exclusively with the airport operator, which submitted these maps, or with those public agencies and planning agencies with which consultation is required under section 103 of the Act. The FAA has relied on the certification by the airport operator, which under section 150.21 of FAR Part 150, that the statutorily required consultation has been accomplished.

The FAA has formally received the noise compatibility program for Atlantic City International Airport, effective on July 15, 2005. Preliminary review of the submitted material indicated that it conforms to the requirements for the submittal of noise compatibility programs, but that further review will be necessary prior to approval or disapproval of the program. The formal review period, limited by law to a maximum of 180 days, will be completed on or before January 11, 2006.

The FAA's detailed evaluation will be conducted under the provision of 14 CFR Part 150, section 150.33. The primary considerations in the evaluation process are whether the proposed measures may reduce the level of aviation safety, created an undue burden on interstate or foreign commerce, or be reasonably consistent with obtaining the goal of reducing existing non-compatible land used and preventing the introduction of additional non-compatible land uses.

Interested persons are invited to comment on the proposed program with specific reference to these factors, all comments, other than those properly addressed to local land use authorities, will be considered by the FAA to the extent practicable. Copies of the noise exposure maps and the proposed noise compatibility program are available for examination at the following locations:

Federal Aviation Administration, New York Airports District Office, 600 Old Country Road, Suite 440, Garden City, NY 11530.

South Jersey Transportation Authority, Farley Service Plaza, Route 54, Hammonton, NJ 08037.

Questions may be directed to the individual named above under the heading, **FOR FURTHER INFORMATION CONTACT**.

Issued in Garden City, New York, July 15, 2005.

Philip Brito,

Manager, New York Airports District.

Petitions for Exemption

Docket No.: FAA-2005-21913.
Petitioner: Professional Aviation Maintenance Association.

Section of 14 CFR Affected: 14 CFR 65.93(a) Inspection Authorization: Renewal.

Description of Relief Sought: The Professional Aviation Maintenance Association (PAMA) requests this exemption to permit a 15-day extension from March 31 to April 15 for attendees of the PAMA convention to submit evidence of compliance with § 65.91(c)(1) through (4). PAMA requests this exemption for 10 years, through 2015.

Because of scheduling events beyond PAMA's control, the PAMA 2006 Aviation Maintenance Symposium, and PAMA's extensive technical education programming, much of which is approved training for Inspection Authorization (IA) renewal, will be held March 28-30, 2006. Many potential attendees have already expressed concern that they will not be able to attend for purposes of IA renewal because of the insufficient time to provide the evidence of their training to their respective Flight Standards District Office before the end of March. Inspection Authorization renewal training is an important reason why many maintenance professionals attend PAMA's annual Symposium.
