#### Background

At a 2003 meeting with the Fruit and Vegetable Industry Advisory Committee, AMS was asked to review all the fresh fruit and vegetable grade standards for their usefulness in serving the industry. AMS had identified the United States Standards for Grades of Snap Beans for a possible revision. The United States Standards for Grades of Snap Beans were last amended July 5, 1990.

On March 11, 2005, a notice requesting comments on the possible revision of the standards by allowing percentages to be determined by count and not weight as well as other changes was published in the **Federal Register** (70 FR 12175) with the comment period ending May 10, 2005.

Three comments were received during the official period for comment. One comment from an industry member

supported the proposed revision. Two comments from industry groups did not support revising the standard. Both of the comments not supporting the revision noted concerns over the accuracy or representative nature of a count-based inspection. The industry groups also noted that size variation of the individual bean as well as foreign material or debris in the sample could affect the inspection in a different manner if inspected on a count and not a weight basis. In view of the concerns from the industry, the proposed changes are not warranted at this time, thus the notice is being withdrawn. This withdrawal will provide industry representatives with an opportunity for further discussions in the areas of concern.

After reviewing and considering the comments received, the Agency has decided not to proceed with the action. Therefore, the notice published March 11, 2005, (70 FR 12172) is withdrawn.

**Authority:** 7 U.S.C. 1621-1627.

Dated: June 16, 2005.

### Forest Service

#### Methow Valley Ranger District, Okanogan & Wenatchee National Forests, WA, Pack Stock Outfitter Guide Special Use Permits Environmental Impact Statement

**AGENCY:** Forest Service, USDA.

**ACTION:** Notice of intent to prepare an environmental impact statement.

**SUMMARY:** Notice is hereby given that the USDA, Forest Service will prepare an Environmental Impact Statement that will evaluate alternatives to provide pack stock outfitter and guide services on the Methow Valley, Chelan and Tonasket Ranger Districts of the Okanogan and Wenatchee National Forests. The proposed action is to issue ten-year, pack stock outfitter and guide special use permits to nine companies to operate on these three Districts. A maximum of 4,900 client days will be shared between these companies. Outfitting and guiding would take place both in the Lake Chelan-Sawtooth and Pasayten Wildernesses, and outside of wilderness.

**DATES:** Comments concerning the scope of the analysis must be received by July

15, 2005. The draft environmental impact statement is expected December 2005 and the final environmental impact statement is expected May 2006.

**ADDRESSES:** Send written comments to Jennifer Zbyszewski, Recreation & Wilderness Program Manager, Methow Valley Ranger District, 24 W. Chewuch Rd., Winthrop WA 98862, or by e-mail to [jzbyszewski@fs.fed.us](mailto:jzbyszewski@fs.fed.us).

**SUPPLEMENTARY INFORMATION:**

#### Purposed and Need for Action

Nine companies have applied to the Forest Service for ten year permits to outfit and guide on the Methow Valley, Chelan and/or Tonasket Ranger District of the Okanogan and Wenatchee National Forests. North Cascade Safari, Cascade Wilderness Outfitters, North Cascade Outfitters, Rocking Horse Ranch, and Backcountry Burros have operated under five-year term special use permits in the past, but these permits expired in 2000. The companies have been operating under short-term permits since then. Each of these companies have operated for at least 20 years on the Okanogan and Wenatchee National Forests. Deli-Llamas and Pasayten Llamas have operated under short-term permits since 1993. Sawtooth Outfitters has operated under short-term permits since 1993. Early Winters Outfitting's term permit expired in 2004.

In order for an outfitter-guide business to be successful, and justify financial commitments, such as purchasing and caring for stock animals, and hiring experienced guides, these businesses need multi-year permits. Multi-year permits are needed to respond to the applications, and continue the professional relationship that has been established with these companies to provide service to the public.

The Forest Service has identified a need for outfitting and guiding services on these Districts to access to the Wilderness and backcountry. The "Assessment for Need For Outfitting/ Guiding Assistance, Okanogan National Forest, Chelan Ranger District Portion of Wenatchee National Forest North of Lake Chelan" (the Needs Assessment) was completed by the Okanogan and Wenatchee National Forests in 1996. That document provides overall guidance relating to issuing permits.
