## INTERNATIONAL TRADE COMMISSION

[Inv. No. 337-TA-521]

### In the Matter of Certain Voltage Regulator Circuits, Components Thereof and Products Containing Same; Notice of Decision Not To Review an Initial Determination Extending the Target Date for Completion of the Investigation

**AGENCY:** U.S. International Trade Commission.

**ACTION:** Notice.

**SUMMARY:** Notice is hereby given that the U.S. International Trade Commission has determined not to review an initial determination (“ID”) issued by the presiding administrative law judge (“ALJ”) on August 10, 2005, extending the target date for completion of the above-captioned investigation to June 14, 2006.

**FOR FURTHER INFORMATION CONTACT:**

Michael K. Haldenstein, Esq., Office of the General Counsel, U.S. International Trade Commission, 500 E Street, SW., Washington, DC 20436, telephone 202-205-3115. Copies of the public version of the IDs and all nonconfidential documents filed in connection with this investigation are or will be available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street, SW., Washington, DC 20436, telephone 202-205-2000. Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission’s TDD terminal on 202-205-1810. General information concerning the Commission may also be obtained by accessing its Internet server (<http://www.usitc.gov>). The public record for this investigation may be viewed on the Commission’s electronic docket (EDIS) at <http://edis.usitc.gov>.

**SUPPLEMENTARY INFORMATION:** On August 17, 2004, the Commission instituted an investigation under section 337 of the Tariff Act of 1930, 19 U.S.C. 1337, based on a complaint filed by Linear Technology Corporation of Milpitas, California (“Linear”) alleging a violation of section 337 in the importation, sale for importation, and sale within the United States after importation of

certain voltage regulator circuits, components thereof and products containing same by reason of infringement of claims 1-6, 31, 34-35, 41, 44-48, and 51-57 of U.S. Patent No. 5,481,178 (“the “178 patent”), and claims 1-19, 31, 34, and 35 of U.S. Patent No. 6,580,258. 69 FR 51104 (August 17, 2004). The complainant named Monolithic Power Systems, Inc. of Los Gatos, California as respondent.

On March 16, 2005, the ALJ issued an initial determination (“ID”) (Order No. 12) extending the target date in the above-referenced investigation. The extension of the target date was necessary due to the previous postponement of the hearing due to the unavailability of witnesses. The ALJ determined that the target date for this investigation should be set at 18 months from institution, *i.e.*, February 17, 2006. No party petitioned for review of the ID, the Commission declined to review it, and it therefore became the determination of the Commission.

The hearing, which had been scheduled to commence on June 22, 2005, could not be held as scheduled. The ALJ issued Order No. 15 on July 27, 2005, rescheduling the hearing for October 5, 2005. On August 10, 2005, the ALJ issued an ID (Order No. 6) extending the target date for completion of the investigation until June 14, 2006.

No party petitioned for review of the ID and the Commission has determined not to review the ID, permitting it to become the determination of the Commission.

The authority for the Commission’s determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in section 210.42 of the Commission’s Rules of Practice and Procedure (19 CFR 210.42).

Issued: August 31, 2005.

By order of the Commission.

*Total Annual Costs (operating/maintaining systems or purchasing services):* \$0.

*Description:* The Occupational Safety and Health Act of 1970 (the Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657).

Section 7(c)(1) of the Act authorizes the Secretary of Labor to, "with the consent of any State or political subdivision thereof, accept and use the services, facilities, and personnel of any agency of such State or subdivision with reimbursement." Section 21(C) of the Act authorizes the Secretary of Labor (Secretary) to, "consult with and advise employers and employees \* \* \* as to effective means of preventing occupational illnesses and injuries."

Additionally, Section 21(d) of the Act instructs the Secretary to "establish and support cooperative agreements with the States under which employers subject to the Act may consult with State personnel with respect to the application of occupational safety and health requirements under the Act or under State plans approved under section 18 of the Act." This gives the Secretary authority to enter into agreements with the States to provide onsite consultation services, and established rules under which employers may qualify for an inspection exemption. To satisfy the intent of these and other sections of the Act, OSHA codified the terms that govern cooperative agreements between OSHA and State governments whereby State agencies provide onsite consultation

services to private employers to assist them in complying with the requirements of the OSH Act. The terms were codified as the Consultation Program regulations (29 CFR part 1908).

The Consultation Program regulations specify services to be provided, and practices and procedures to be followed by the State Onsite Consultation Programs. Information collection requirements set forth in the Onsite Consultation Program regulations are in two categories: State Responsibilities and Employer Responsibilities. Eight regulatory provisions require information collection activities by the State. The Federal government provides 90 percent of funds for onsite consultation services delivered by the States, which result in the information collection. Four requirements apply to employers and specify conditions for receiving the free consultation services.

OSHA will also develop estimates of the percentages of establishments that have considered, but not implemented such programs. Additionally, OSHA will collect information on the characteristics of AED programs and establishments (e.g., size, industry, workforce age distribution, etc.) that
