SUPPLEMENTARY INFORMATION:

I. Abstract

In order to maintain the current rapid advance of biophotonics in the U.S. and to enhance our competitiveness worldwide, key measurement tools must be in place. The right measurement capabilities will improve both manufacturing efficiency and quality, and promote acceptance of biophotonics-based instruments and technologies through improved interoperability. As a part of a wide-reaching effort to improve the U.S. technology base, the National Institute of Standards and Technology announces the road-mapping workshop "Biophotonic Tools for Cell and Tissue Diagnostics". This meeting will focus on diagnostic techniques involving the interaction between biological systems and photons. Through invited presentations by industry representatives, panel discussion, and the results of the survey given to workshop participants, the near- and far-term measurement needs will be evaluated. As a result of this workshop, a road-mapping document will be prepared on the measurement tools needed for biophotonic cell and tissue diagnostics. This will become a part of the larger road-mapping effort to be presented to the Nation as an assessment of the U.S. Measurement System. The information will be used to highlight measurement needs to the community and to facilitate solutions among key stakeholders in industry, government, and academia.

II. Method of collection

BILLING CODE 3510-13-P

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Extension of Period of Determination on Request for Textile and Apparel Safeguard Action on Imports from China

July 19, 2005.

AGENCY: The Committee for the Implementation of Textile Agreements (the Committee)

ACTION: Notice

SUMMARY: The Committee is extending through July 31, 2005, the period for making a determination on whether to

request consultations with China regarding imports of other synthetic filament fabric (Category 620).

FOR FURTHER INFORMATION CONTACT: Jay Dowling, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-4058.

SUPPLEMENTARY INFORMATION:

Authority: Section 204 of the Agriculture Act of 1956, as amended; Executive Order 11651, as amended.

BACKGROUND:

On November 8, 2004, the Committee received a request from the American Manufacturing Trade Action Coalition, the National Council of Textile Organizations, the National Textile Association, and UNITE HERE requesting that the Committee limit imports from China of other synthetic filament fabric (Category 620) due to the threat of market disruption ("threat case").

The Committee determined this request provided the information necessary for the Committee to consider the request and solicited public comments for a period of 30 days. See Solicitation of Public Comment on Request for Textile and Apparel Action on Imports from China, 69 FR 70661 (Dec. 7, 2004).

On December 30, 2004, the Court of International Trade preliminarily enjoined the Committee from considering or taking any further action on this request and any other requests "that are based on the threat of market disruption". U.S. Association of Importers of Textiles and Apparel v. United States, 350 F. Supp. 2d 1342 (CIT 2004). On April 27, 2005 the Court of Appeals for the Federal Circuit granted the U.S. government's motion for a stay of that injunction, pending appeal. U.S. Association of Importers of Textiles and Apparel v. United States, Ct. No. 05-1209, 2005 U.S. App. LEXIS 12751 (Fed. Cir. June 28, 2005). Thus, CITA resumed consideration of this case.

The public comment period for this request had not yet closed when the injunction took effect on December 30, 2004. The number of calendar days remaining in the public comment period beginning with and including December 30, 2004 was 8 days. On May 9, 2005, therefore, the Committee published a notice in the **Federal Register** re-opening the comment period and inviting public comments to be received not later than May 17, 2005. See Rescheduling of Consideration of Request for Textile and Apparel Safeguard Action on Imports from China
