C. Initial Regulatory Flexibility Analysis

8. As required by the Regulatory Flexibility Act (RFA), the Commission has prepared an Initial Regulatory Flexibility Analysis (IRFA) of the possible significant economic impact on small entities of the policies and rules proposed in this *Seventh Notice of Proposed Rulemaking*. Written public comments are requested regarding this IRFA. Comments must be identified as responses to the IRFA and must be filed by the deadlines for comments on the *Seventh Notice of Proposed Rulemaking* provided in paragraph 3. The Commission will send a copy of the *Seventh Notice of Proposed Rulemaking*, including this IRFA, to the Chief Counsel for Advocacy of the Small Business Administration. In addition, the *Seventh Notice and Proposed Rulemaking* and IRFA (or summaries thereof) will be published in the **Federal Register**.

Need for, and Objectives of, the Proposed Rules

9. In the *Seventh Notice and Proposed Rulemaking*, we seek comment on:

- The TIA-PRS proposal recommending:—Adopting tables describing ACP limits for 50 kHz and 100 kHz wideband operations;

—Relaxing the ACP requirement in the paired receive band for wideband and narrowband base station transmitters; and

—Extending the above mentioned rules to the 700 MHz Guard Band channels.

- The proposal by Access Spectrum that the Commission clarify that the 700 MHz Guard Band emission requirements masks only at the boundaries of the 700 MHz Guard Band's licensee's authorized allocation.

- The joint proposal from Nortel/EDS that the Commission adopts ACP requirements that correspond to any authorized bandwidth.

- The proposals by National Coordination Committee (NCC) that the Commission:

—Adopt a 700 MHz wideband standard;

—Update the interoperability standards set forth at Section 90.548 of the Commission's rules;

—Update the encryption standards set forth at Section 90.535(e) of the Commission's rules; and

—Adopt minimum signal strength requirements for public safety systems operating in the 700 MHz Public Safety band.

Legal Basis

10. Authority for issuance of this item is contained in Sections 1, 4(i), 7, 301, 302, 303, and 337 of the Communications Act of 1934, as amended, 47 U.S.C. 151, 154(i), 157, 301, 302, 303, 337.

Description and Estimate of the Number of Small Entities To Which the Rules Will Apply

11. The RFA directs agencies to provide a description of and, where feasible, an estimate of the number of small entities that may be affected by the rules adopted. The RFA generally defines the term "small entity" as having the same meaning as the terms "small business," "small organization," and "small governmental jurisdiction." In addition, the term "small business" has the same meaning as the term "small business concern" under the Small Business Act. A small business concern is one which: (1) Is independently owned and operated; (2) is not dominant in its field of operation; and (3) satisfies any additional criteria established by the Small Business Administration (SBA). A small organization is generally "any not-for-profit enterprise which is independently owned and operated and is not dominant in its field." Nationwide, as of 1992, there were approximately 275,801 small organizations. Below, we further

describe and estimate the number of small entity licensees and regulatees that may be affected by the proposed rules, if adopted.

12. *Governmental Entities.* The term "small governmental jurisdiction" is defined as "governments of cities, towns, townships, villages, school districts, or special districts, with a population of less than fifty thousand." As of 1997, there were approximately 87,453 governmental jurisdictions in the United States. This number includes 39,044 county governments, municipalities, and townships, of which 37,546 (approximately 96.2%) have populations of fewer than 50,000, and of which 1,498 have populations of 50,000 or more. Thus, we estimate the number of small governmental jurisdictions overall to be 84,098 or fewer.

13. *Public Safety Radio Licensees.* As a general matter, Public Safety Radio Pool licensees include police, fire, local government, forestry conservation, highway maintenance, and emergency medical services. The SBA rules contain a definition for cellular and other wireless telecommunications companies which encompasses business entities engaged in radiotelephone communications employing no more than 1,500 persons. There are a total of approximately 127,540 licensees within these services. With respect to local governments, in particular, since many governmental entities as well as private businesses comprise the licensees for these services, we include under public safety services the number of government entities affected.

14. *Wireless Communications Equipment Manufacturers.* The SBA has established a small business size standard for radio and television broadcasting and wireless communications equipment manufacturing. Under the standard, firms are considered small if they have 750 or fewer employees. Census Bureau data for 1997 indicates that, for that year, there were a total of 1,215 establishments in this category. Of those, there were 1,150 that had employment under 500, and an additional 37 that had employment of 500 to 999. The Commission estimates that the majority of wireless communications equipment manufacturers are small businesses.

Description of Projected Reporting, Recordkeeping and Other Compliance Requirements

15. This *Seventh Notice of Proposed Rulemaking* does not propose a rule that will entail reporting, recordkeeping, and/or third-party consultation. The

rule changes proposed in the *Seventh Notice of Proposed Rulemaking* provide technical adjustments to the Commission's existing requirements for Adjacent Channel Power or update the Commission's existing requirements to reference the latest industry standards.

Steps Taken To Minimize Significant Economic Impact on Small Entities and Significant Alternatives Considered

16. The RFA requires an agency to describe any significant alternatives that it has considered in reaching its proposed approach, which may include the following four alternatives (among others): (1) The establishment of differing compliance or reporting requirements or timetables that take into account the resources available to small entities; (2) the clarification, consolidation, or simplification of compliance or reporting requirements under the rule for small entities; (3) the use of performance, rather than design, standards; and (4) an exemption from coverage of the rule, or any part thereof, for small entities. We believe the rule changes contained in this *Seventh Notice of Proposed Rulemaking* are technologically neutral and do not impact small entities differently than large entities.

Federal Rules That May Duplicate, Overlap, or Conflict With the Proposed Rules

17. None.

II. Ordering Clauses

18. Pursuant to applicable procedures set forth in Sections 1.415 and 1.419 of the Commission's Rules, 47 CFR 1.415, 1.419; interested parties may file comments on the *Seventh Notice of Proposed Rulemaking* on or before May 27, 2005, and reply comments on or before June 13, 2005.

19. It is further ordered, that the Commission's Consumer and Governmental Affairs Bureau, Reference Information Center, shall send a copy of this *Seventh Notice of Proposed Rulemaking* including the Initial Regulatory Flexibility Analysis to the Chief Counsel for Advocacy of the Small Business Administration.
