

tariffs showing all "foreign" or international fares, and related charges for air transportation between points served by it, and any other air carrier or foreign air carrier when through services, fares and related charges have been established; and showing, to the extent required by DOT regulations, all classifications, rules, regulations, practices, and services in connection with such air transportation. Once tariffs are filed and approved by DOT, they become a legally binding contract of carriage between carriers and users of foreign air transportation.

Part 221 of the Department's Economic Regulations (14 CFR part 221) sets forth specific technical and substantive requirements governing the filing of tariff material with the DOT Office of International Aviation's Pricing and Multilateral Affairs Division. A carrier initiates an electronic tariff filing whenever it wants to amend an existing tariff for commercial and competitive reasons or when it desires to file a new one. Electronic tariffs filed pursuant to part 221 are used by carriers, computer reservation systems, travel agents, DOT, other government agencies and the general public to determine the prices, rules and related charges for international passenger air transportation. In addition, DOT needs U.S. and foreign air carrier passenger tariff information to monitor international air commerce, carry out carrier route selections and conduct international negotiations.

Part 293 exempts carriers from their statutory and regulatory duty to file international tariffs in many specific markets.

Respondents: The vast majority of the air carriers filing international tariffs are large operators with revenues in excess of several million dollars each year. Small air carriers operating aircraft with 60 seats or less and 18,000 pounds payload or less that offer on-demand air-taxi service are not required to file such tariffs.

Estimated Total Annual Burden on Respondents: 650,000 hours.

Estimated Number of Respondents: 250; Form(s) 13,340 electronic filings or applications per annum.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (b) the accuracy of the Department's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the

burden of collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Onboard Recording of Data Communications in Crash Survivable Memory

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of availability and request for public comment.

SUMMARY: This notice announces the availability of, and requests comment on, a draft advisory circular (AC) on aircraft data link recording systems in crash survivable memory. The AC offers one way to achieve minimum acceptable recording system performance and design approval objectives alluded to as part of the Notice of Proposed Rulemaking (NPRM), Docket Number FAA-2005-20245 on cockpit voice recorders and digital flight data recorders.

DATES: Comments must be received on or before (May 27, 2005).

ADDRESSES: Deliver all comments on this draft AC to: Federal Aviation Administration, Aircraft Certification Service, Aircraft Engineering Division, Avionic Systems Branch, AIR-130, Room 815, 800 Independence Avenue, SW., Washington, DC 20591. ATTN: Mr. Gregory Frye. You may deliver comments to: Federal Aviation Administration, Room 815, 800 Independence Avenue, SW., Washington, DC 20591.

FOR FURTHER INFORMATION CONTACT: Mr. Greg Frye, AIR-130, Room 815, Federal Aviation Administration, Aircraft Certification Service, Aircraft Engineering Division, 800 Independence Avenue, SW., Washington, DC 20591, Telephone (202) 385-4649, or Fax: (202) 385-4651 or e-mail: gregory.efrye@faa.gov.

SUPPLEMENTARY INFORMATION:**Comments Invited**

You are invited to comment on the draft AC by submitting written data, views, or arguments to the above address. Comments received may be examined, both before and after the closing date, in Room 815 at the above address, weekdays except Federal holidays, between 8:30 a.m. and 4:30 p.m. The Director, Aircraft Certification Service, will consider all comments received on or before the closing date before issuing the final AC.

Background

This AC focuses on aircraft recording system performance and logical recording point locations for storing data communication information in onboard crash-survivable memory. Issuance of this AC is based in part, on recommendations received from the National Transportation Safety Board (NTSB), following investigations of several aircraft accidents and incidents. This AC provides guidelines to improve the quality and quantity of recorded in-flight information, allowing for an increase in the potential for the retention of important information needed during accident and incident investigations.

How To Obtain Copies

You can view or download the draft AC from its online location at: www.airweb.faa.gov/rgl. At this Web page, select "Draft Advisory Circulars." For a paper copy, contact the person listed in **FOR FURTHER INFORMATION CONTACT** section of this notice.

Issued in Washington, DC, on April 21, 2005.

Susan J. M. Cabler,

Acting Manager, Aircraft Engineering Division Aircraft Certification Service.
