In the event that no Floor Governor is able to chair the Committee, a Senior Floor Official may chair the Committee. The minimum quorum for the transaction of business by the Options Allocations Committee shall be six persons including at least one representative of an upstairs member firm. Upstairs member firm representatives may attend meetings by telephone.] *It consists of six persons drawn from a roster of approximately 75 persons and is comprised as follows: the Chief Executive Officer (or his or her designee), a representative of an upstairs member firm and either (i) four (4) brokers for equities and other securities admitted to trading on the Exchange except for Exchange Traded Funds and options; (ii) two (2) brokers and two (2) Registered Traders for Exchange Traded Funds; or (iii) two (2) brokers and two (2) Registered Options Traders for options. The Allocations Committee is chaired by the Chief Executive Officer (or his or her designee) who does not vote except to make or break a tie. In the absence of the Chief Executive Officer (or his or her designee), a Floor Governor or a Senior Floor Official may chair the Committee. The minimum quorum for the transaction of business by the Allocations Committee shall be four persons. The upstairs member firm representative may attend meetings by telephone.*

[(ii)] The Equities Allocations Committee allocates the equity securities of operating companies admitted to dealings on the Exchange. It consists of ten persons drawn from a roster of approximately 70 persons and is comprised as follows: six Floor brokers, one specialist, and three representatives of upstairs member

firms. The Equities Allocations Committee is chaired by a Floor Governor who does not vote except to make or break a tie. In the event that no Floor Governor is able to chair the Committee, a Senior Floor Official may chair the Committee. The minimum quorum for the transaction of business by the Equities Allocations Committee shall be six persons. Upstairs member firm representatives may attend meetings by telephone.

(iii) The Special Allocations Committee allocates securities that are not allocated by the Options or Equities Allocations Committees and securities with special characteristics as may be determined by the Chief Executive Officer or his or her designee. The Special Allocations Committee is chaired by the Chief Executive Officer who does not vote except to make or break a tie. In the Chief Executive Officer's absence, a Floor Governor or a Senior Floor Official may chair the Committee. The minimum quorum for the transaction of business by the Special Allocations Committee shall be four persons. The upstairs member firm representative may attend meetings by telephone.

The Options, Special, and Equities Allocations Committees are hereinafter referred to as the Allocations Committee.]

(b) No Change.

(c) No Change.

(d) At regular intervals, the [Options] Allocations Committee shall prepare a list (the "pre-allocation list") of the most qualified option specialists on the Exchange based upon criteria enumerated in paragraph (b) of this Rule and interviews of all interested specialists conducted by the persons on the roster of the [Options] Allocations Committee. In the event that the Exchange determines to list an option following its designation by another exchange, that option shall be allocated to the next specialist on the pre-allocation list unless, in the opinion of a majority of available Floor Governors, a material performance situation or another relevant matter has developed with respect to that specialist since the preparation of the pre-allocation list in which case the specialist shall be bypassed and the [Options] Allocations Committee shall be convened as soon as possible to determine if the specialist should be removed from the pre-allocation list.

(e) If the issuer of a listed equity security chooses to participate in the allocation process, the Allocations Committee shall prepare a list of qualified specialists based on the criteria set forth in paragraph (b). In the case of an equity security, the list shall consist of five specialists. In the case of an Exchange Traded Fund or Structured Product, the list shall consist of five specialists. The issuer may request that one or more specialists be placed on the list of eligible specialists. The Allocations Committee, however, is not obligated to honor such requests. Specialists that are subject to a preclusion on new allocations as a result of a disciplinary proceeding or action by the Performance Committee only are eligible for allocations of "related securities" as described in Commentary .05 of this Rule. The issuer may ask to meet with representatives of the specialist units on the list.

The issuer shall select its specialist from the list within five business days of receiving the list by providing the Exchange with a letter signed by person of Secretary rank or higher indicating the issuer's choice of specialist. In the case of an Exchange Traded Fund or Structured Product, the selection may be made by a senior officer of the sponsor or issuer who has been authorized to make such selection. If the issuer does not make its selection in a timely manner, the Allocations Committee may select the specialist as provided in paragraph (b) of this Rule.

The security shall remain with its initial specialist for at least 120 days. After that time, but during the first 12 months after listing, the issuer or sponsor may request that the security be reallocated should it become dissatisfied with its specialist. This is the case whether or not the issuer or sponsor has participated in the selection process. The issuer or sponsor is expected to furnish an explanation for the basis for its dissatisfaction, and if after counseling the issuer or sponsor and the specialist such change is still desired, the Exchange shall reallocate the security within 30 days. In any such reallocation, the Exchange shall follow the allocation procedures described in this paragraph (e) unless the issuer or sponsor requests the Allocations Committee to select the specialist without any issuer or sponsor input under the procedures described in paragraph (b) of this Rule.

(f) The Allocations Committee shall be convened to reallocate securities when (1) the Committee on Floor Member Performance directs reallocation, (2) a specialist requests to be relieved of a particular security for

good cause, or (3) a specialist's registration in a security is canceled due to disciplinary action. Whenever the Allocations Committee reallocates a security for the reasons stated in (1) through (3) of this paragraph, the Allocations Committee shall follow the procedures described in paragraph (b) of this Rule. The Allocations Committee also shall be convened to reallocate securities when (4) [there is a business transaction that results in the transfer of one or more specialist registrations, (5)] a specialist dissolves or recombines, [(6)] (5) a specialist has been determined to be in such financial or operating condition that it cannot be permitted to continue to specialize in one or more of its specialty securities with safety to investors, its creditors or other members, or [(7)] (6) a specialist has become subject to the pre-borrowing requirement of Rule 203(b)(3) of Regulation SHO under the Securities Exchange Act of 1934 with respect to one of its specialty securities or, in the case of an options specialist, with respect to the underlying security. The Allocations Committee shall follow the procedures described in paragraphs (g) or (h) of this Rule, as appropriate, whenever it reallocates securities for the reasons stated in (4) through [(7)] (6) of this paragraph.

(g) In the event that the participants in a specialist unit have previously entered into a written agreement as to how the "book" will be divided in the event of a dissolution or recombination, [or there is a transfer of specialist registrations as a result of a business transaction,] the Allocations Committee shall allocate the securities in accordance with the agreement of the parties, unless the Performance Committee determines that a countervailing institutional interest indicates that there should be some other allocation, in which case the Allocations Committee shall reallocate the securities according to instructions received from the Performance Committee or, if there are no instructions, as provided in paragraph (b) of this Rule. In the event that a specialist unit dissolves and the participants in the unit are unable to enter into a written agreement as to how the "book" will be divided, reallocation shall be deferred until the dispute is resolved through arbitration unless the Performance Committee determines that a countervailing institutional interest suggests that the securities should be reallocated prior to the conclusion of the arbitration in which case the Allocations Committee shall reallocate the securities according to instructions

received from the Performance Committee or, if there are no instructions, as provided in paragraph (b) of this Rule. The Allocations Committee shall reallocate the securities in accordance with the decision of the arbitration panel unless the Performance Committee determines that a countervailing institutional interest indicates that there should be some other allocation, in which case the Allocations Committee shall reallocate the securities as provided in paragraph (b) of this Rule.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Amex included statements concerning the purpose of, and basis for, the proposed rule change, as amended, and discussed any comments it received on the proposed rule change, as amended. The text of these statements may be examined at the places specified in Item IV below. The Amex has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to combine the existing Equity, Options and Special Allocations Committees into a single "Allocations Committee." In addition, the Exchange proposes to change the composition of the Allocations Committee and to permit the Performance Committee to reallocate securities in connection with specialist transfers without approval from the Allocations Committee.

Article II, Section 3 of the Amex Constitution provides the Board of Governors ("Board") with the authority to allocate and reallocate the equity securities of operating companies ("equities"), options and other securities listed on the Exchange. The Board in connection with the allocation and reallocation of equities and options classes has delegated this authority to the Equities Allocations Committee and the Options Allocations Committee, respectively.⁵ The Board, in connection with securities that are not allocated by the Equities Allocations Committee or

Options Allocations Committee and securities with special characteristics, has delegated authority to the Special Allocations Committee.⁶ In addition, the Performance Committee has limited input in connection with the reallocation of securities resulting from a transfer of specialist units.

The Exchange states that combining the Equities, Options and Special Allocations Committees into a single "Allocations Committee" and changing the composition of the Allocations Committee would streamline and provide greater efficiency to the process for allocating and reallocating equities and options classes.

Current Amex Rule 27 provides that the Equities Allocations Committee consists of six (6) floor brokers, one (1) specialist and three (3) representatives of upstairs member firms. The Committee is chaired by a Floor Governor who does not vote except to make or break a tie. The minimum quorum requirement is six persons. The Options Allocations Committee consists of eight (8) floor members, which include six (6) floor brokers and two (2) Registered Options Traders, and three (3) representatives of upstairs member firms. The Committee is chaired by a Floor Governor who does not vote except to make or break a tie. The minimum quorum requirement is six persons, including at least one representative of an upstairs member firm. The Special Allocations Committee consists of the Chief Executive Officer (or his or her designee), two (2) brokers, two (2) Registered Options Traders and a representative of an upstairs member firm. The Commission notes that the minimum quorum requirement is four persons. The Special Allocations Committee is chaired by the Chief Executive Officer who does not vote except to make or break a tie.

The proposed rule change would establish a single Allocations Committee for equities, options and other listed securities. Similar to the current Special Allocations Committee, the Allocations Committee would consist of the Chief Executive Officer (or his or her designee), a representative of an upstairs member firm and either: (i) Four (4) brokers for equities and other securities admitted to trading on the Exchange except for Exchange Traded Funds and options; (ii) two (2) brokers and two (2) Registered Traders for Exchange Traded Funds; or (iii) two (2) brokers and two (2) Registered Options Traders for options. The Allocations Committee would be chaired by the Chief Executive

Officer who does not vote except to make or break a tie. The minimum quorum requirement would be four persons.⁷

The Exchange also seeks to provide the current Performance Committee⁸ with sole authority to reallocate securities in connection with specialist unit transfers resulting from business transactions. The current procedure in Amex Rule 27 provides that the Allocations Committee will reallocate the securities resulting from a specialist unit transfer in accordance with the agreement of the parties unless the Performance Committee determines that a countervailing institutional interest dictates that there should be some other allocation. In such a case, the Allocations Committee will reallocate the securities according to instructions received by the Performance Committee or as it deems appropriate if no instructions are received. The proposal would amend Amex Rule 26 by providing the sole authority and power for the reallocation of securities in connection with the transfer of specialist units in the Performance Committee rather than the Allocations Committee. The Exchange believes that this change will establish a better process for reallocations due to specialist unit transfers.

The Exchange believes that the proposed combination of the Equities, Options and Special Allocations Committees and the change in the composition of the Allocations Committee would better serve the interests of the Exchange and its members by reducing potential inefficiencies in connection with the allocation process. The Exchange's experience to date has shown that the process of allocating and reallocating equities and options classes may be overly and unnecessarily bureaucratic. The Exchange believes that this is largely due to the number of Equities, Options and Special Allocations Committee members and the composition of the Equities, Options and Special Allocations Committees. Accordingly, the Exchange proposes to

⁷ The Exchange has represented that, for the purposes of determining a quorum, the Chief Executive Officer shall count as one of the six persons, whereby four of the six persons would constitute a quorum. However, the Chief Executive Officer would not vote except to make or break a tie. Telephone conversation of August 10, 2005, between Jeffery Burns, Associate General Counsel, Amex and David Michehl, Attorney, Division of Market Regulation, Commission.

⁸ The Board pursuant to Article II, Section 3 of the Constitution has delegated to the Performance Committee the authority to evaluate specialist, registered traders and floor broker performance and to take specified action in response to particular performance deficiencies.

change the number and composition of the Allocations Committee to implement an improved process for allocating and reallocating equities, options and other securities traded on the Exchange to specialist units. The Exchange further states that providing the Performance Committee with the sole authority to reallocate securities in connection with specialist unit transfers would enhance the process of reallocation in these special circumstances.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the provisions of Section 6 of the Act,⁹ in general, and with Section 6(b)(5) of the Act,¹⁰ in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, and to remove impediments to and perfect the mechanism of a free and open market and a national market system.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change, as amended, will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The Exchange did not receive any written comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

- A. by order approve such proposed rule change, as amended; or
- B. institute proceedings to determine whether the proposed rule change, as amended, should be disapproved.

Background

Aircraft, aircraft engine, and avionics manufacturers may choose from several databus configurations for use on aircraft. The function of a databus is to transfer information between avionics

modules, components, or line replaceable units (LRU) installed in an aircraft. As such, these databuses are becoming more complex as aircraft, aircraft engine, and avionics manufacturers integrate more avionics components into the aircraft and aircraft engine data sources, resulting in large data transfers between data buses. System design engineers have considerable flexibility when designing a databus because of the many physical and logical configurations for airborne systems architecture, data units or packets, protocols, message traffic, and so on, thereby providing manufacturers, vendors, and integrators more latitude when configuring databuses. This proposed AC contains the criteria applicants must address when developing, selecting, or integrating databus technology they will use to show compliance with the appropriate certification requirements for their aircraft or aircraft engine.

How To Obtain Copies

You may get a copy of the proposed AC from the Internet at: www.airweb.faa.gov/rgl. Once on the RGL Web site, select "Draft Advisory Circular", then select the document by number. See section entitled **FOR FURTHER INFORMATION CONTACT** for the complete address if requesting a copy by mail.
