33 CFR Part 165

[CGD05–05–018]

RIN 1625–AA87

Security Zone; Cape Fear River, Eagle Island, North Carolina State Port Authority Terminal, Wilmington, NC

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a temporary security zone at the North Carolina State Port Authority (NCSPA), Wilmington to include the Cape Fear River and Eagle Island. Entry into or movement within the security zone will be prohibited without authorization from the COTP. This action is necessary to safeguard the vessels and the facility from sabotage, subversive acts, or other threats.

DATES: This rule is effective from April 1, 2005, until October 1, 2005.

ADDRESSES: Documents indicated in this preamble as being available in this docket are part of docket CGD05–05–018 and are available for inspection or copying at the Marine Safety Office 721 Medical Center Drive, Suite 100, Wilmington, North Carolina 28401 between 7:30 a.m. and 3 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: LCDR Charles A. Roskam II, Chief Port Operations (910) 772–2200 or toll free (877) 229–0770.

SUPPLEMENTARY INFORMATION:

Regulatory Information

We did not publish a notice of proposed rulemaking (NPRM) for this rule. The Coast Guard is promulgating this security zone regulation to protect NCSPA Wilmington and the surrounding vicinity from threats to national security. Accordingly, based on the military function exception set forth in the Administrative Procedure Act, 5 U.S.C. 553(a)(1), notice-and-comment rulemaking and advance publication are not required for this regulation.

Background and Purpose

Vessels frequenting the North Carolina State Port Authority (NCSPA) Wilmington facility serve as a vital link in the transportation of military munitions, explosives, equipment, and personnel in support of Department of Defense missions at home and abroad. This vital transportation link is potentially at risk to acts of terrorism, sabotage and other criminal acts. Munitions and explosives laden vessels also pose a unique threat to the safety and security of the NCSPA Wilmington, vessel crews, and others in the maritime and surrounding community should the vessels be subject to acts of terrorism or sabotage, or other criminal acts. The ability to control waterside access to vessels laden with munitions and explosives, as well as those used to transport military equipment and personnel, moored at the NCSPA Wilmington is critical to national defense and security, as well as to the safety and security of the NCSPA Wilmington, vessel crews, and others in the maritime and surrounding community. Therefore, the Coast Guard is establishing this security zone to safeguard human life, vessels and facilities from sabotage, terrorist acts or other criminal acts.

Discussion of Rule

The security zone is necessary to provide security for, and prevent acts of terrorism against vessels loading or offloading at the NCSPA Wilmington facility during a military operation. It

will include an area from 800 yards south of the Cape Fear River Bridge encompassing the southern end of Eagle Island, the Cape Fear River, and the grounds of the State Port Authority Terminal south to South Wilmington Terminal.

The security zone will prevent access to unauthorized persons who may attempt to enter the secure area via the Cape Fear River, the North Carolina State Port Authority terminal, or use Eagle Island as vantage point for surveillance of the secure area. The security zone will protect vessels moored at the facility, their crews, others in the maritime community and the surrounding communities from subversive or terrorist attack that could cause serious negative impact to vessels, the port, or the environment, and result in numerous casualties.

No person or vessel may enter or remain in the security zone at any time without the permission of the Captain of the Port, Wilmington. Each person or vessel operating within the security zone will obey any direction or order of the Captain of the Port. The Captain of the Port may take possession and control of any vessel in a security zone and/or remove any person, vessel, article or thing from this security zone.

Regulatory Evaluation

This rule is not a "significant regulatory action" under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. It is not "significant" under the regulatory policies and procedures of the Department of Homeland Security (DHS).

Although this regulation restricts access to the security zone, the effect of this regulation will not be significant because: (i) The COTP or his or her representative may authorize access to the security zone; (ii) the security zone will be enforced for limited duration; and (iii) the Coast Guard will make notifications via maritime advisories so mariners can adjust their plans accordingly.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered whether this rule would have a significant economic impact on a substantial number of small entities. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not

dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities.

This rule will affect the following entities, some of which may be small entities: the owners or operators of vessels intending to transit or anchor in a portion of the Cape Fear River that is within the security zone.

This security zone will not have a significant economic impact on a substantial number of small entities for the following reasons. Although the security zone will apply to the entire width of the river, traffic will be allowed to pass through the zone with the permission of the COTP or his or her designated representative. Before the effective period, we will issue maritime advisories widely available to users of the river.

Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we offer to assist small entities in understanding the rule so that they can better evaluate its effects on them and participate in the rulemaking process. If the rule will affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the address listed under **ADDRESSES**.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency's responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–888–REG–FAIR (1–888–734–3247).

Collection of Information

This rule calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed

this rule under that Order and have determined that it does not have implications for federalism.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 or more in any one year. Though this rule will not result in such expenditure, we do discuss the effects of this rule elsewhere in this preamble.

Taking of Private Property

This rule will not affect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not create an environmental risk to health or risk to safety that may disproportionately affect children.

Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a "significant energy action" under that order because it is not a "significant regulatory action" under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office

of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

Environment

We have analyzed this rule under Commandant Instruction M16475.ID, which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA)(42 U.S.C. 4321–4370f), and have concluded that there are no factors in this case that would limit the use of a categorical exclusion under section 2.B.2 of the Instruction. Therefore, this rule is categorically excluded, under figure 2–1, paragraph (34)(g), of the Instruction, from further environmental documentation. A final “Environmental Analysis Check List” and a final “Categorical Exclusion Determination” will be available in the docket where indicated under

ADDRESSES.

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a temporary safety zone in the navigable waters of the Mission Creek Waterway in China Basin surrounding the construction site of the Fourth Street Bridge, San Francisco, California. This temporary safety zone is necessary to protect persons and vessels
