Food and Nutrition Service

Title: 7 CFR Part 235 State Administrative Expense Funds.

OMB Control Number: 0584-0067.

Summary of Collection: Because the Food and Nutrition Service (FNS) is accountable for State Administrative Expense (SAE) funds by fiscal year, State Agencies (SAs) are requested to report their SAE budget information on that basis. If the State budgets coincide with a fiscal year other than that used by the Federal government, the SA must convert its State budget figures to amounts to be used during the applicable Federal fiscal year for this purpose. Under 7 CFR part 235, State Administrative Expense Funds, there are five reporting requirements, which necessitate the collection of information. They are as follows: SAE Plan, Reallocation Report, Coordinated Review Effort (CRE) Data Base Update, Report of SAE Funds Usage, and Responses to Sanctions. SAs also must maintain records pertaining to SAE. These include Ledger Accounts, Source Documents, Equipment Records and Record on State Appropriated Funds. FNS will collect information using forms FNS-74 and 525.

Need and Use of the Information: FNS will collect information on the total SAE cost the SA expects to incur in the course of administering the Child Nutrition Programs (CNP); the indirect cost rate used by the SA in charging indirect cost to SAE, together with the name of the Federal agency that assigned the rate and the date the rate was assigned; breakdown of the current year's SAE budget between the amount allocated for the current year and the amount carried over from the prior year; and the number and types of personnel currently employed in administering the CNPs. The information is used to determine whether SA intends to use SAE funds for purposes allowable under OMB Circular A-87, Cost Principles for State and Local Governments; does SA's administrative budget provide for sufficient funding from State sources to meet the Maintenance of Effort requirement; and is SA's staff adequate to effectively administer the programs covered by the SA's agreement with FNS.

Description of Respondents: State, local or tribal government.

Number of Respondents: 88.

Frequency of Responses:

Recordkeeping: Reporting: Annually.

Total Burden Hours: 14,900.

Forest Service

Site-Specific Invasive Plant Treatment Project—Olympic National Forest, Washington

AGENCY: Forest Service, USDA.

ACTION: Notice of intent to prepare an environmental impact statement.

SUMMARY: The USDA Forest Service will prepare an Environmental Impact Statement (EIS) to document and disclose the potential environmental effects of proposed invasive plant treatments. The Proposed Action is to apply a combination of herbicide, mechanical and manual treatments to control known invasive plants within approximately 3,830 acres in 99 treatment areas on the Olympic National Forest in Washington. The Proposed Action would also establish criteria for responding to infestations that cannot be predicted.

This notice revises the Notice of Intent to prepare an EIS announced in the **Federal Register** on February 23, 2004. Four national forests were combined for analysis in the 2004 NOI. Currently, the Forest Service intends to prepare three separate site-specific statements: one for the Olympic National Forest, one for the Gifford-Pinchot National Forest and the northern portion of the Columbia River Gorge National Scenic Area in Washington, and one for the Mount Hood National Forest and the southern portion of the Columbia River Gorge National Scenic Area in Oregon. The project has been refined partly in response to comments received during the initial scoping period.

DATES: Written comments concerning the scope of this analysis should be received by September 15, 2005 if
