SUPPLEMENTARY INFORMATION: The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology & Logistics on scientific and technical matters as they affect the perceived needs of the Department of Defense. At these meetings, the Defense Science Board Task Force will consider the entire spectrum of intervention objects, including deterrence, dissuasion, remote pre-detonation, remote disarming, elimination of sources and/or manufacturing facilities, discovery and remove of critical personnel, discovery and removal of employed devices, or anything else that has the end effect of either lowering the value or raising the cost of employing IEDs as an insurgent or terrorist weapons of choice. The Task Force will have four primary objectives: Assess the current state of the art of allied forces in countering adversary use of IEDs in operations such as OIF; recommend a mid- to long-term set of integrated activities aimed at improving the state of the art in reducing the effect of IEDs over the next three to ten years; provide recommendations on short term (over the next six months to three years) incremental improvements in U.S. forces' ability to counter or reduce the effectiveness of IEDs, and identify any synergies that may exist between current counter-IED and countermine efforts.

In accordance with section 10(d) of the Federal Advisory Committee Act, Pub. L. 92-463, as amended (5 U.S.C. App. 2), it has been determined that this Defense Science Board Task Force meeting concerns matters listed in 5 U.S.C. 552b(c)(1) and that, accordingly, this meeting will be closed to the public.

Dated: August 19, 2005.

Jeannette Owings-Ballard,

[Docket No. RP05-565-000]

Natural Gas Pipeline Company of America; Notice of Emergency Petition for Waivers

August 18, 2005.

Take notice that on August 16, 2005, Natural Gas Pipeline Company of America (Natural), pursuant to Rule 207 of the Federal Energy Regulatory Commission's Rules of Practice and Procedure, submitted an emergency petition for waivers to help its shippers respond to what it states is a *force majeure* situation that will temporarily reduce capacity on a portion of Natural's system. Natural requests that the Commission grant this petition by no later than August 23, 2005 to allow its "customers and the market generally to mitigate the impact of the capacity reduction".

Any person desiring to protest this filing must file in accordance with Rule 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.211). Protests to this filing will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Such protests must be filed in accordance with the provisions of Section 154.210 of the Commission's regulations (18 CFR 154.210). Anyone filing a protest must serve a copy of that document on all the parties to the proceeding.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.
