Chapter 15: Overseas Citizens Services Records

Office of Overseas Citizens Services**A-15-002-01 Office of Overseas Citizen Services - Internet-Based Travel Registration System (IBRS)**

Description: The Office of Overseas Citizen Services has developed a web-based database that allows citizens to register their travel plans on-line. The database is accessible by both the OCS and all American embassies and consulates world-wide, but is kept and maintained behind Department firewalls in the Enterprise Sever Operations Center (ESOC) by IRM. Registration allows Americans to record information about their upcoming trips abroad so that the Department of State can provide information and assistance in case of emergency. Americans residing abroad may also receive routine information from the U.S. embassy or consulate for which they are registered. All information requested is covered under the Privacy Act System of Records State 05, Overseas Services Records.

The database system to this point has kept all information received from registrants and has yet to archive information. While this database is independent, information collected and maintained within it is also transferred via electronic interface to the American Citizen's Service plus (ACS+) database, which includes American citizen data outside of travel information. This data is used not only for security purposes in the case of an emergency, but can also be used for statistical purposes, and to track consular services to American citizens overseas. The IBRS system was implemented in June 2004.

Disposition: TEMPORARY: See sub sections 01a - c for specific dispositions.

DispAuthNo: N1-059-06-9 **Date Edited:** 7/18/2007
